Singer the Standard to Which All Others Are Compared

Have you ever wondered why it is that dealers in other makes of sewing machines take pains to emphasize their claim that their particular machine is "just as good as" the Singer?

Or why it is that more than 2,000,000 women buy Singers every year—more than all other makes combined?

Or why Singer sales have spread all over the world, into every civilized country?

The Singer has so long represented the highest degree of excellence that it is today everywhere recognized as the standard of perfection—the envy of every competitor—the pride of every owner.

It is easy to own a Singer. Ask in any Singer store—they're everywhere.

PREVENTION OF TUBERCULOSIS AS AN INVESTMENT

The fraternal and benefit organizations with a membership of nearly 3,000,000 and three international labor unions with a membership of over 100,000 have joined the ranks of the fighters against consumption within the last year, according to a statement issued today by the National Association for the Study and Prevention of Tuberculosis.

A year ago only one fraternal organization, the Royal League, and one labor union, the International Typographical Union, maintained institutions for the treatment of their tuberculous members. Since January 1st, 1909, the following fraternal and benefit organizations have taken up the consideration of tuberculosis, and in most instances have decided to erect institutions: Brotherhood of American Yeomen, Order of Eagles, Improved Order of Red Men, Modern Woodmen of America, Knights of Pythias, Royal Arcanum, Workmen's Circle, Knights of Columbus, and Foresters of America. The international labor unions which have joined the fight against tuberculosis are the International Photo-Engravers Union of North America, the International Printing Pressmen and Assistants Union, and the International Boot and Shoe Workers Union.

The Modern Woodmen and the Knights of Pythias have already opened sanatoria for their members who have tuberculosis at Colorado Springs, and East Las Vegas, New Mexico. The Workmen's Circle is about to erect a similar institution at Liberty, N. Y. The Royal League has maintained a sanatorium at Black Mountain, N. C. for three years. The other fraternal organizations mentioned have either appointed commissions to consider the advisability of erecting tuberculosis sanatoria, or are contemplating such action.

The first sanatorium to be erected for the benefit of the laboring men was built by the International Typographical Union in connection with its home at Colorado Springs. The International Printing Pressmen and Assistants Union have recently decided to erect a similar sanatorium, and steps are now being taken to open such an institution. The International Photo-Engravers Union, while not conducting a sanatorium of its own, pays for the treatment of its tuberculous members in institutions in various parts of the country. The International Boot and Shoe Workers Union are recommending to their members that they ally themselves with the various organizations united in the fight against tuberculosis.

All of these fraternal organizations, and labor unions are also carrying on campaigns of education among their members. In this way over 3,000,000 men and women are receiving instructions through lectures, through official papers, and by literature expressly

prepared showing the dangers and methods of prevention of tuberculosis. It is a campaign of prevention of which will bring to these various fraternal and benefit organizations millions of dollars in the saving of lives and the cutting down of payments for sickness and death resulting from tuberculosis. The recent National Fraternal Congress estimated that 50 per cent of the death losses from tuberculosis could be saved by the various fraternal organizations of the country.

The National Association for the Study and Prevention of Tuberculosis has rendered all assistance possible to these various movements among the labor men and fraternal organizations, and stands ready to cooperate as far as possible with any society of this character.

A LOVE SET.

There is courting
And there's courting,
But I think the rarest sort
Is to court the girl
You're courting
On the level—tennis court.

There you're serving
And while serving
You call out the score: Love all
Then she smiles and says
She's ready,
And a kiss goes with the ball.

There is winning,
And there's winning,
But I know it's not the same
When you know you
Have her beaten,
And Love one, you score the game.

You play harder
And she loses,
But I think she does not care
For she loves to see
You winning
When she knows you're playing fair.
—Thomas J. Hogan.

SHYLYCK'S CASE REVERSED.

Girl Wants \$1,000 A Pound For Lost Avordupois.

Pittsburg.—How huch should the filted maid in an unsuccessful love affair receive for every pound of flesh she loses after her sweetheart marries another girl? This is the question which will be put to the jury tomorrow in the case of Miss Luella Lowstetter against Prof. Earl W. Reed, principal of the Sheridan public schools, to recover \$25,000 damages for alleged breach of promise to marry.

Miss Lowstetter contends that since the alleged filting she is 25 pounds lighter than when she considered herself betrothed to Professor Reed. She asks 25,000, or \$1,000 for every 16 ounces lost through mental anguish.

Friends of the Professor assert she has not lost this much weight, and the point will be brought to the notice of the jury by the defense.—Baltimore Sun.
