

CIVIC LEAGUE DEPARTMENT

The Editor of "The American City" says, under the heading "HELP US TO BE HELPFUL" We need the active and hearty co-operation, in all ways, of those who believe, with us, that a city should be something more than a place to make a living in—that it should be a place to live in, and get the the worth of life in; where children can grow through happy childhood into normal manhood and womanhood; and where men and women can have, not only, decent and wholesome surroundings, but also something of beauty and inspiration to the higher things of life AS A PART OF THEIR CIVIC ENVIRONMENT."

A Massachusetts law, that is being put to good use, reads, in part, "Any word, device, trademark, advertisement, or notice, which has been printed, put up or affixed within the limits of a highway shall be considered a public nuisance, and may be forthwith removed or obliterated and abated by any person."

Let us also endeavor to keep God's world as beautiful as He intended it should be, and try to induce our fellowmen not to mar it.

CHOICE OF EVILS

When a man has a rip in his coat and only three buttons on his vest, writes a Western sage, he should do one of two things: either get married or get divorced.—Everybody's.

MILLIONS OF LIVES LOST

An Awful Toll Collected by Consumption. Many Unnecessary Deaths From This Disease.

If people could only understand that systemic catarrh is an internal disease that external applications can not cure, they would not need to be warned so often about this malady, which, when neglected, paves the way oftentimes for consumption, at the cost of millions of lives every year. Yet catarrh may be cured, if the right treatment is employed.

Catarrh is caused by a general diseased state of the system which leads commonly to annoying and perhaps serious local conditions, which may prove a fertile breeding ground for germs of consumption. External remedies give but temporary ease.

The only way to successfully treat catarrh is by employing a medicine which is absorbed and carried by the blood to all parts of the system so that the mucous membrane or internal lining of the body is toned up and made capable of resisting the infection of consumption and other diseases.

We have a remedy prepared from the prescription of a physician who for thirty years studied and made catarrh a specialty, and whose record was patient restored to health in every case where his treatment was followed as prescribed. That remedy is Rexall Mucu-Tone. We are so positive that it will completely overcome catarrh in all its various forms, whether acute or chronic, that we promise to return every penny paid us for the medicine in every case where it fails or for any reason does not satisfy the user.

We want you to try Rexall Mucu-Tone on our recommendation and guarantee. We are right here where you live, and you do not contract any obligation or risk when you try Rexall Mucu-Tone on our guarantee. We have Rexall Mucu-Tone in two sizes, 50 cents and \$1.00. Very often the taking of one 50 cent bottle is sufficient to make a marked impression upon the case. Of course in chronic cases a longer treatment is necessary. The average in such instances is three \$1.00 bottles. Remember you can obtain Rexall Remedies in Elizabeth City only at our Store.—Standard Drug Company.

HANDICAPPED

This is the Case With Many Elizabeth City People.

Too many Elizabeth City citizens are handicapped with a bad back. The unceasing pain causes constant misery, making work a burden and stooping or lifting an impossibility. The back aches at night, preventing refreshing rest and in the morning is stiff and lame. Plasters and liniments may give relief; but can not reach the cause. To eliminate the pains and aches you must cure the kidneys.

Doan's Kidney Pills cure sick kidneys and cure them permanently.

The following statement should convince every Elizabeth City reader of their efficiency.

Mrs. W. G. Summerville, Alberman Street, N. C. says: I have the utmost confidence in the curative power of Doan's Kidney Pills, having used them with the most satisfactory results. I suffered considerably from backache and an annoying weakness of the kidneys. When Doan's Kidney Pills were brought to my attention, I procured a supply and they proved to be just the remedy I needed. They strengthened my kidneys, disposed of the pains in my back and acted as a tonic to my system. I have no hesitation in advising other kidney sufferers to give this remedy a trial.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

William Whitman, According to Everybody's, is the Man Who Decides the Cost of Our Clothes

We are prone to blame personalities rather than faults in our systems of government. Nevertheless, let it be known that the one man who has had more to do than any other with providing the nation with a woolen schedule which has always been favorable to him and is today doing a great wrong to all consumers of clothing, carpets, and blankets, and to one great branch of the woolen industry, is William Whitman, of the Arlington Mills in Massachusetts. No grain of evidence of actual corruption has ever been brought against Mr. Whitman. His knowledge of wool and woolens of tariffs and tariff drafting, of political paths and legislative strategy has been admirable. His business foresight has been praiseworthy. His shrewdness is too keen for sneers. He has even played his part with some dramatic ability, and if we go to see how he played this part, it is not from a desire to expose Mr. Whitman to contempt, but rather to question the system of tariff making which allows single selfish interests to dictate national legislation.

Mr. Whitman has for years been the leading spirit in the National Association of Wool Manufacturers, and with him in this last tariff upheaval stood the interests of W. M. Wood, president of the American Woolen Company, the so-called trust which controls one-third or more of the business of the country. The National Association has a large-sounding name suggestive of the purpose of the usual trade association; but the first and foremost apparent function of this particular association, in which the truly active membership is small, has been to handle legislation. The handling of this legislation by enlisting the help of the woolgrowers, by stimulating sufficient and effective campaign contributions, by stuffing the tariff hearing with testimony, and keeping friendly relations with the department of the government where statistics are drawn up, is left in large part to the direction of Mr. Whitman himself.—Richard W. Child in Everybody's.

The Panama Man Makes Love, But Does Not Work

A French traveler on the Isthmus observed that the chief industry of the Panamanian is love-making. It is his only industry in the sense that it is the only vocation which he pursues industriously. He never works on the canal. He is addicted to no form of agriculture or manufacturing. How he manages to keep alive is a mystery which is not wholly solved by the reflection that it is never cold in Panama, that one can buy clothes enough to keep him out of the clutches of the police for ten dollars a year, that there are plenty of fish in the sea (Panama, being interpreted, means "plenty fish") and that a banana tree will grow anywhere.—Everybody's Magazine.
