Rheumacide
IT CURES

Rheumatism And Blood Diseases.
The cause of rheumatism is excess uric acid in the blood. To cure rheumatism this acid must be expelled from the system. Rheumatism is an internal disease and requires an internal remedy. Rubbing with oils and liniments may ease the pain, but they will no more cure rheumatism than paint will change the fiber of rotten wood.

Cure Rheumatism to Stay Cured.
Science has discovered a perfect and complete cure called Rheumacide. Tested in hundreds of cases, it has effected marvelous cures. Rheumacide removes the cause of rheumatism from the inside, sweeps the poisons out of the system, tones up the stomach, regulates the bowels and kidneys.

Sold by druggists at 50c and \$1; in tablet form at 25c, and 50c; by mail, Booklet free. Bobbitt Chemical Co., Baltimore, Md. **Gets at the Joints from the Inside.**

MILLIONS SPENT ON FRAUDS

Over \$1,000,000 annually is poured into the coffers of those who exploit and advertise fake consumption cures according to a statement issued today by the National Association for the Study and Prevention of Tuberculosis; and for this vast sum the victims receive nothing in return, but are often permanently injured and in the majority of cases cheated out of the chance for a real cure. Worse still, most of this money is paid by those who can least afford it.

The National Association has investigated several hundred so-called cures and treatments for tuberculosis now being advertised throughout the country, and finds that more than \$3,000,000 a year is being spent in soliciting the patronage of the public. On examination it has been found that the great majority of these cures contain harmful and habit-forming drugs such as morphine, opium and chloroform. None of them will cure consumption. The only cure for this disease that has ever been discovered is the combination of fresh air, rest and wholesome food. All of the cures that attempt to destroy the tubercle bacillus without these or to stop the progress of the disease in some mysterious way are branded as frauds, and impostors.

Three classes of cures are distinguished by the National Association. In the first class are included devices and drugs which can be bought for any sum ranging from ten cents to five dollars at a drug store. The United States Department of Agriculture has just issued a bulletin in which some of the most used of these drugs and remedies are analyzed and condemned. The second class of cures include the institutes, professors or companies of doctors, who for a consideration guarantee to cure consumption by some secret method of which they are the sole proprietors. There are nearly one hundred and fifty of these institute frauds in the United States cheating the people out

of millions of dollars annually. In the third class of cures are placed a number of home-made remedies, which either through ignorance or superstition have been advanced as treatments for tuberculosis. Some of these are, onions, lemons rattle-snake poison; coal dust; lime dust; pigs' blood; dog oil; milk strippings; and even alcohol. These will not cure consumption declares the National Association. No drugs, gas or other material has yet been discovered, which when eaten, inhaled or injected into the body, will kill the germs of tuberculosis. Fresh air which contains more oxygen than any substance known, will destroy the germ of tuberculosis, if it is breathed continuously for a long enough period, and if rest and wholesome food are employed at the same time to build up the body.

WHEN HER BACK ACHES

A Woman Finds All Her Energy an Ambition Slipping Away

Elizabeth City women know how the aches and pains that come when the kidneys fail make life a burden. Backaches dizzy spells, distressing urinary and warn you of the stealthy approach of diabetes, dropsy, and Bright's disease. Doan's Kidney Pills permanently cure all these disorders. Here's proof of it in an Elizabeth City woman's words:

Mrs. J. T. Lamb 303 N. Martin Street, Elizabeth City, N. C. says: "I do not hesitate to recommend Doan's Kidney Pills, as I consider them to be a reliable remedy. I suffered for some time from backache, accompanied by severe pains through my loins and a weakness of my kidneys. I finally procured Doan's Kidney Pills at the Standard Pharmacy and began their use. In a few days the pains left my back and my kidneys were strengthened. I am feeling a great deal better now."

For sale by all dealers. Price 50 cents.

Foster-McBarn Co., Buffalo, New York, sole agents for the United States.

GONE TO NORFOLK HOSPITAL

Mrs. George Bailey of Buxton, N. C., spent last Sunday night here the guest of Mrs. John F. Williams and went to Norfolk Monday morning to enter a hospital for treatment.

Mrs. Bailey had started to Washington, N. C. for the purpose of entering a hospital. The machinery of the boat broke down and another boat picked them up and towed them here.

WHAT EVERYBODY OUGHT TO KNOW

That Foley Kidney Pills contain just the ingredients necessary to tone, strengthen and regulate the action of the kidneys and bladder.—Browns Pharmacy.

INSPECTED THE NORMAL SCHOOL

Found the Building to be a Splendid One. Recognized the Necessity For a Dormitory Building For the Colored State Normal.

Hon. R. F. Beasley and Prof. B. C. Beckwith, inspectors of State school property were here last Saturday and inspected the Colored State Normal school property. Accompanied by Prof. Sheep and Attorney W. L. Cohoon, these gentlemen visited the school building and inspected it from top to bottom. They found the building in an excellent condition, and they were well pleased with the excellent workmanship in erecting it. They were free in saying that the building is one of the best in the state.

These gentlemen recognized at once, the necessity for a dormitory building. A movement has been set on foot by the board of trustees to erect this building at a cost of about \$12,000. The plans and specifications have already been adopted by the board.

COMBS-FISHER

Announcements have been received by friends in this city announcing the marriage of Miss Hester Eugenia Combs of Columbia to Mr. Richard Davis Fisher of Currituck, the event to be celebrated at the bride's home in Columbia on the 29th inst.

Both of the contracting parties are prominent in their communities and they have a host of friends who are interested in this social event.

WHERE SMUGGLING IS REGARD-ED AS AN HONORABLE AND LEGITIMATE PROFESSION

Sant Julia de Loria, the rival of Andorra-la-Villa, is the great trade and smuggling center. It has about six hundred inhabitants only, but can boast several large shops and warehouses full of contraband commodities, openly displayed. As a matter of fact, the whole nation are more or less smugglers—on principle. They have neither import nor export duties themselves, and they are fully persuaded of the benefits of Free Trade for everybody. France makes commodities wanted in Spain; Spain grows articles required in France—and Andorra lies between these two nations. What more natural, therefore, than that she should give aid to both her neighbors—for a consideration, of course? But smuggling in Andorra is not looked upon as a fraudulent business. On the contrary, it is considered an honorable and legitimate profession—almost an art and one that, in its higher branches, requires many aptitudes—business capacity, astuteness, diplomacy, a thorough knowledge of the art of bribery, and a military method for directing one's forces and commanding one's subordinates. For instance, a wealthy Andorran goes over the border into Spain and buys up cheaply thousands of sheep, which he pays for in Spanish money; they are driven home to his mountain pastures, where they are marked with his cipher. Then, in company with his head man, he strolls casually across to the French frontier—every inch of which he and his underlings know by heart—and raps into the hut of the commandant of the douaniers for a chat. Before leaving, the commandant naturally offers him a petit verre—and bank-notes of greater or less value are left lying on the table. Nothing definite is said; nobody's conscience or dignity is compromised. A few days later thousands of Andorran sheep are sold in the markets of France and paid for in French money. How did they get across the frontier? Ah, that's just the point! The mere fact of buying with Spanish money and selling for French means from 20 to 30 per cent. profit, without counting the difference in the prices of the animals. In addition to sheep, hides, tobacco, matches, olive oil, superior qualities of wines salt sugar and ultramarine are the principal commodities smuggled into France. The articles that go into Spain are mostly glass and china fancy articles, bric-a-brac, paper, and cutlery; also a large number of mules. The latter are bought in a wretched state for almost a song in France, turned out to grass on the splendid

ICE CREAM 1c. a Dish

is made in this way: Stir a package of **JELL-O ICE CREAM Powder** into a quart of milk and freeze it. That can be done in about ten minutes. There is nothing to add, for the powder supplies everything, and there is no cooking or anything else to do. You will have two quarts of delicious ice cream for the usual cost of two dishes.

2 packages for 25 cents. Illustrated Recipe Book Free. The Genesee Pure Food Co., Le Roy, N. Y.

Andorran pastures for a few months, and sold in Spain at the end of the season for a high figure.—From Wide World Magazine.

DIED SUDDENLY SATURDAY NIGHT

Mrs. Elizabeth Godwin, wife of William J. Godwin, died very suddenly last Saturday night at her home on Southern Avenue. Death came almost without warning, as she was apparently in as good health as she had been for several years and visited a neighbors' house in the early hours of the evening.

The funeral services were conducted over the remains Sunday afternoon at four o'clock from the First Methodist church by the pastor, Rev. J. D. Bundy and the interment followed in Hollywood Cemetery.

The following were the pall bearers: P. S. Shipp; T. B. Hayman; Anson Langely; Howard Hayman; J. J. White and Amos Owen.

Mrs. Godwin was 71 years old. She is survived by a husband. She was a most estimable woman, had made her home in this city for many years and was well known here.

The planting of Irish potatoes for the late fall and winter markets should have attention during this month and July. There is always a demand for these products in the further Southern States before the Northern grown crops come on the market, and a profitable business can be done in meeting these requirements. The selection of seed, for the second crop of Irish potatoes should be seen to when digging the early grown crops. This is largely sown in Tidewater Virginia and Eastern North Carolina, as it makes the best seed for the next year's early crop. The selected seed should be medium sized potatoes—rather inclining to small than large as the sets are planted without cutting. This seed should be spread out on the north side of a fence where shaded from the sun to green. After the sets have greened they will begin to start sprouts from the eyes. A little good soil should then be sprinkled over amongst them and the sprouts will soon start growth. These sprouted sets should then be planted in deeply opened rows and a light covering of soil be thrown on to them and as they come through the covering the soil should be worked to them until the rows are level and level cultivation should then be continued. These potatoes should mature just before frost.

Cucumbers for pickles should be planted in rows four feet apart and three feet apart in the rows. Have the land in a fine state of cultivation and well fertilized. Pick the cucumbers every day as they become large enough for pickles and pack away in barrels in brine and they can be shipped in winter as wanted by the picklers.

Successional crops of tomatoes may yet be set out.

Keep a good lookout for bugs, worms and fungus diseases attacking the crops and apply the remedies advised in the spray calendar to be found in the March issue. Keep the Irish potatoes well sprayed with Bordeaux mixture to prevent blight, and mix with it Paris green to kill the worms. It will always pay to spray Irish potatoes with Bordeaux, even though no blight is seen, as it keeps the vines healthy and ensures a good crop of tubers.

Sweet potatoes should be planted on good sandy loam soil not over rich or they will run largely to vines. If poor apply a fertilizer made up of 150 pounds of nitrate of soda, 350 pounds of acid phosphate, and 150 pounds of muriate of potash per

The Greatest Watch Offer Ever Presented In Eastern N. Carolina and Virginia.

FOWLER & CO.

BEGINNING JUNE 23, AT 10 A. M.

WE WILL sell a gentleman's open face, Thin model, Gold filled, Screw back and bezel, Dust proof watch with 7 Jewel, Lever Escapement, Nickle Damasked Movement, White Hard Enamelled Dial, Stem Wind and Stem Set at **\$3.95**
