EDITORIAL NOTES.

The Synod of the Presbyterian Church in North Carolina met in Wilmington last week. It was said while its work was coming to an end that it had been the most enjoyable meeting the body had ever had. There were more good speeches and there were more short speeches. A committee on rules limited the talkers in the explanation given for so many thrilling and moving addresses. There were more evidences of progress than usual. Few very sad notes were sounded. Larger plans and larger apportionments were made for the work of the next year. All workers in mission fields had been paid off and there was a balance in the treasury. The famed hospitality of Wilmington furnished delightful entertainment. The body would have been glad of the opportunity to accept an invitation to meet in hues of the rarest leveliness ere that city next year. Durham's graceful invitation, however, was accepted and Synod will meet there Monday, November 14, 1904.

The educational leaders in the State are sharpening a dangerous weapon for trouble in the future. The training of the mind to do more and greater things without any right heart education is a fearful piece of work to do for a people. The pace is set for the churches of the State. The good people among us are urged by the great school work going on in and by the State to teach the negro and others out of the schools of the State and there is no way to teach sound morals and develop the character the State must have in its citizenship if it is to be great and prosbegin to organize Sunday and other schools to teach the rising generation of the negro race the word of God.

We have been out of the current of events, buried but not dead, and hence did not have the opportunity to write a word about the Bassett article. We must have our say. It deserves all the condemnation we see it has gotten. We are surprised that any man with such opportunity to know existing conditions should have written such things. Such invidious comparisons are always met by covert or overt condemnation. It looks to us like the stir that the article has wrought was the thing simed at. Certainly it is not easy to see how any other thing could have effected it so completely." A little learning often makes folks mad. L. Rheumatism Is Not a Skin Disease.

Most people have an idea that rheumatism is contracted like a cold, that the damp, chilly air penetrates the muscles and joints and causes the terrible aches and pains, or that it is something like a skin disease to be rubbed away with liniment or drawn out with plasters; but Rhuematism originates in the blood and is caused by Urea, or Uric Acid, an irritating, corroding poison that settles in muscles, joints and nerves, producing inflammation and soreness and the sharp, cutting pains peculiar to this distressing disease. Bowling Green, Ky.

Exposure to bad weather or sudden chilling of the body will hasten an attack of Rheumatism after the blood and system are in the right condition for it to develop, but have nothing to do with the real true causes of Rheumatism, which are internal and not external.

Liniments, plasters and rubbing will sometimes reduce the inflammation and swelling and ease the pain for a time, but fail to relieve permanently because they do not reach the seat of the trouble. S. S. S. cures Rheumatism because it attacks it in the blood and

the trouble. S. S. S. cures Rheumatism because it attacks it in the blood, and the Uric Acid poison is neutralized, the sluggish cir-culation stimulated and quickened, and soon the sys-tem is purified and cleansed, the aching muscles and joints are relieved of all irritating matter and a lasting cure of this most painful disease effected.
