States of Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi and South Carolina combined cast 687,661 votes in 1900, or 1,114 less than would be cast if every registered voter in New York City were to go to the polls on election day, 1904. But, of course, there will be absentees for on cause or another—business, pleasure, sickness or death. Estimating the percentage of absenteeism at 10 per cent, the total vote would still be 620,000 in round numbers.—Charlotte Observer.
