"Under Two Flags." A strange story as that constituting the plot of any novel will be told to Governor Hugiuis, of New York, by a New York city lawyer when he endeavors to secure the pardon of a man who chose to serve a sentence of three years' imprisonment in Sing Sing prison, for theft, of which he was innocent, to shield the name of a woman from scandal. Carl Fisher Hansen, the lawyer, said today that he would at once appeal for the pardon of the prisoner, whose name he would not reveal, at the request of the woman whose reputation the prisoner had saved at an expense of his own liberty. The woman, Mr. Fisher Hansen said, had visited his office within a few days and said that her husband had just died and that she now wanted to do justice to the prisoner. They had been friends for more than a year ago, when her husband returned unexpectedly, he caught the other running away. To save her from scandal, the man confessed that he had broken into her home to steal. Whereupon he was arrested and is now in Sing Sing.

The prisoner, said Mr. Fisher Hansen, was a young college student who disappeared from one of the colleges when he was arrested. "I will not say whether it was Harvard, Yale or Princeton," said the lawyer. No one has ever known what became of him and he was tried and sentenced under an assumed name.

The woman in the case has also paid a penalty for her indiscretion as a servant who knew of the affair has collected \$38,000 in blackmail from her within a few years. She is a member of one of the best of the old families in New York and her late husband owned several factories in New Jersey.

The lawyer added that he expected a signed statement from the woman and would then investigate the case.

Like Finding Money. Finding health is like finding money—so think those who are sick. When you have a cough, cold, sore throat, or chest irritation, better act promptly like W. C. Barber, of Sandy Level, Va. He says: "I had a terrible chest trouble, caused by smoke and coal dust on my lungs; but, after finding no relief in other remedies, I was cured by Dr. King's New Discovery for Consumption, Coughs and Colds." Greatest sale of any cough or lung medicine in the world. At all drug stores; 50c and \$1; guaranteed. Trial bottle free.

The Example of Japan. The progress of Japan carries with it a lesson which the other powers of the world will do well to learn. Without the believed advantages of Western civilization, the land of the mikado has made her way silently, without pomp and announcement, in the family of nations. Hardly three decades ago Japan laid aside her samurai—her traditions of the past—and began her lesson as a pupil of the Western nations, retaining, however, the diplomacy and strategy of the Orient, until now she presents perhaps the strongest sight of the composite picture of development of physical and intellectual power. Now, after her success in her struggle with Russia, she has already aroused a feeling of fear and suspicion among the other powers.—Atlanta Journal.

Got off Cheap. He may well think, he has got off cheap, who, after having contracted constipation or indigestion, is still able to perfectly restore his health. Nothing will do this but Dr. King's New Life Pills. A quick, pleasant and certain cure for headache, constipation, etc. 25c at all drug stores; guaranteed.

Two Lads of Nettie. Those two Yale students who started out for a tramp last week are showing a lot of the spirit which is known to be continually on tap in New Haven. First they got "broke" and blistered their hands in milking and pitching hay. Then they went in swimming and a steamer's swell washed away their clothes, which, however, were fortunately recovered. Their next peril was a visit to Vassar College, where they were received by the few girl students remaining like Christians at the house of the comforter. A Baptist church, taking them for genuine tramps, tried to offer them salvation—the only free thing they had thus far met with—and at last accounts they are working on John Jacob Astor's farm for a modest wage per diem. All this will have done them no harm when they get back to college next fall, brown, alert, and more resourceful for their little journey into the world.—Boston Herald.

The Good Old Way. A severe cold or attack of la grippe is like a fire, the sooner you combat it the better your chances are to overpower it. But few mothers in this age are willing to do the necessary work required to give a good old-fashioned reliable treatment such as would be administered by their grandmothers, backed by Boschee's German Syrup, which was always liberally used in connection with the home treatment of colds and is still in greater household favor than any known remedy. But even without the application of the old-fashioned aids German Syrup will cure a severe cold in quick time. It will cure colds in children or grown people. It relieves the congested organs, allays the irritation, and effectively stops the cough. Any child will take it. It is invaluable in a household of children. Trial size bottle, 25c; regular size, 75c. For sale by Dr. J. D. McMillan.

Success Thoughts. The best in others will only come out to meet the best in you. The man with an idea has ever changed the face of the world. One reason why we do not make the most of the winning material in ourselves is because of a magnified idea of the great superiority of others who do things in the world.

As a rule no good comes from criticizing others. Anybody can do that, but the man who can accept his own honest estimate of himself and resolve to profit by it has achieved something.

No matter what you are doing, think your way. Don't go without thinking. Think everything out. Don't run without a schedule. Have a programme and go by it. Think! Think! Think!—Success.

The following, headed "A Sane Magazine," is a recent editorial from the Emporia Gazette, whose editor, William Allen White, is well known to every reader of contemporary periodical literature: "Between the magazines that are using the lever of their circulation to pry up the world, and those which have nothing of current interest later than 1812, there lies a fine pathway for some Magazines, for people who are now on earth who are not excited about the proximity of the demitition bow-wows to the orbit of this sad old earth and in that path Scribner's Magazine seems to be walking in solitary state. Its fiction is particularly sane and wholesome. It lacks the Miss Nancy pucker of the fiction of the magazines of prunes and prisms, and holds the vigor of the fiction of the more strenuous magazines without the slightest rawness. Scribner's is a great and good magazine, and should be in every American home."

Good advice to women. If you want a beautiful complexion, clear skin, bright eyes, red lips, good health, take Hollister's Rocky Mountain Tea. There is nothing like it. 35 cents, Tea or Tablets. Ask your druggist.

In the Beginning. Adam hung his hat on the nail. "Oh, Adam," cried his frightened spouse, "there was such a queer looking man came and insisted on kissing little Cain." With bitter tears they realized the office-seeker was abroad in the land.—News.
