Come to see us early in the **SPRING TIME**, and start business with your friends,

CALDWELL & CARLYLE. LUMBERTON, N. CAROLINA.

March 2nd, 1906.

A. C. L. SURGEONS MEET AT TAMPA.

Dr. and Mrs. Brown, of Ashpole Among Those Who Attend.

Special of The Robesonian:
Ashe, Sunday March 18th. Off and away via Atlantic Coast Line for Tampa, Florida, to attend the A. C. L. Surgeons' Meeting. First a disappointment as Mr. and Mrs. White, of Lumberton, who were to be with us, were not to be found aboard. Doctors and doctors' wives in plenty and everybody in a good humor.

We slept in a box on the shelf last night, but are right side up and hungry bright and early. Waycross, the well known, the first place we view.

Of Jacksonville nothing was seen but distant views. We hope to take it all in later.

Dr. Law has recently given such entertaining descriptions of Florida, we can not undertake to do so. There is one thing which must be said of Florida though. She is strictly on the level. Mile after mile of hammock land covered with scrub palmetto passes before our eyes, but occasionally come glimpses of the royal St. John and lovely blue lakes smiling in Southern sunshine, which repay for all. The dust and heat are but incidentals, by the way.

Three Pullman cars full of doctors and wives and daughters, and it is really remarkable what an extremely fine looking, intelligent crowd we are (with exceptions.)

The Doctors talk "shop" in the intervals of admiring looks from the windows, while the wives silently admire their wise partners, or gather in clans to discuss numerous affairs. Dress seems scarcely interesting perhaps, because most of us have a few more gray hairs than we really desire.

The train is, as usual, badly behind, and the day passes by. We view many pretty towns. Kissimmee City being to our eyes the prettiest. The lake, with the sunset shining on it, being a glimpse of Paradise.

The perfume of the orange blossoms creeps through the windows and looking out we see bushels of the golden balls on the trees and ground, making us all hungry to try them.

It is 10:30 p. m. by our time, 9:30 by Southern time. We reach the hotel, brilliantly lighted, with heavenly music, pretty girls dressed in white. What more can a man want? Some of the Doctors begin to wish they had

left their wives at home! A deliciously comfortable nights rest and we are ready for the meeting which opens at 10 a. m., with handsome Southgate Leigh, M. D., of Norfolk, Va., in the chair.

Dr. G. G. Thomas, of Wilmington, being the head and moving spirit of this association it can but be a success.

The address of welcome by W. R. Fuller, president of Tampa Board of Trade, and the president's address are much enjoyed by all and especially the ladies who have gathered in to hear. In fact the ladies are much in evidence. We were presented with pretty badges and are invited to join the trolley ride this afternoon and the Bay excursion tomorrow.

The Robeson county contingent are enjoying it all. They are Doctors Frank and Luther McMillan, of Red Springs, and J. P. Brown, of Ashpole, and Doctors Hall, of Boardman, and Withers, of Chadbourne, representing Columbus, all their wives being present.

Tampa Bay Hotel we cannot undertake to describe this, the finest hotel we ever saw. Everything a guest may need, or think he needs, seems provided for, and the grounds are superb. Plants, herbs and flowers from all over the world are growing with neighborly friendliness by the side of towering palmettos which look centuries old. Nasturtiums, flox, roses and other summer flowers are in full bloom.

And now one last thing to tell you. Amid all this grandeur we don't feel near as green as we expected, which goes to show that Robeson folks have plenty of "grit and gumption," and are not to be overpowered by the splendors of the mighty rich.

Wednesday, March 21.—A beautiful morning, and we've been out walking and selecting a few souvenirs. The meetings are proving very interesting and helpful to the doctors. I wish we were wise enough to write them up for you. The discussions are open and free and all seem pleased. Dr. Estes, a noted surgeon of Bethlehem, Penn., gave a splendid address on cranial fractures. Dr. Taylor, of New York, is also a visitor. Dr. Thomas, chief surgeon, is here, there, everywhere, looking after the pleasure and comfort of everyone.

Tampa is treating us royally. The trolley ride yesterday afternoon was delightful. Two cars full and over were taken all over the line. We stopped at the largest cigar factory and saw hundreds of Cuban young people at work. Such a chatter of Spanish! I concluded not to air my knowledge of the language to them.

We saw also the Cuban park of palmetto groves and dancing pa-

villions where their pleasures are spent. The girl from Wilmington almost decided she would take a Cuban baby home with her as a souvenir, but concluded he would be a rather lively one. They are pretty little yellow things with such beautiful black eyes.

I always thought a little darkey lying in the sunshine a perfect picture of content until I saw the little alligators in the pool of the fountain here at Tampa Bay Hotel. Did you ever hear the expression, "Wouldn't give a darn?" Well, I'm not at all in the habit of "cussin," but actually that is what came into my mind as I saw them stretched out in the warm, sunny water. I had a little boy poke one of the little rascals with a stick, and he stalked off into deeper water with the most disgusted expression on his face? that was ever seen.

We are having some of the finest music I ever heard. The orchestra of seven pieces is worth the trip to hear. Tomorrow night Nordica, the world famous singer, will appear here. The opera house is connected with the hotel. I would give much to hear her, but that Doctor of mine would rather hear me, so we'll not stay for it.

There is to be a river excursion tomorrow to see the Manatee river orange plantations, considered the finest in Florida. Many will stay for it, but we leave tonight for Jacksonville and hope to visit St. Augustine the next day.

It is late afternoon as I complete this. The Surgeons' meeting is about ready to adjourn. The election of officers makes president for next year Dr. Bullock, of Wilmington, well known and greatly beloved by Robesonians.

The roll complete makes more than one hundred and twenty-five doctors present, most of them accompanied by ladies, yet we are not crowded. This house contains about four hundred and fifty rooms, and really if I had "money to burn" I should select this as a very good place to burn it. There are a great many attractions, besides the alligator.

Mesdames McMillan, of Red Springs pass me often in the corridor with smiles as wide as mine and arms full of bundles. They are evidently taking it all in and getting a great deal of enjoyment out of the process.

Florida is fine but Robeson is better, for a steady stay, so we shall not be sorry to return.

F. S. B.

A Safe Cough Medicine for Children

In buying a cough medicine for children never be afraid to buy Chamberlain's Cough Remedy. There is no danger from it and relief is always sure to follow. It is especially valuable for colds, croup and whooping cough. For sale by Dr. E. F. Pope & Co., Dr. E. G. Senior, and E. B. Ward

Farms Awaiting the Farmer.

All over the country there are farms crying for tilling, and there are few responses. The lure of the city has absorbed thousands of the best young people of the agricultural district. If no plan is found for keeping young men and women on the farms, then a large scheme of emptying the cities of their poor and helpless should be evolved. It is one of the incomprehensible phases of the situation that, no matter how poor and suffering the average family of the city slums may be, it prefers to suffer the miseries of the tenements rather than go out into the country where healthful employment awaits all, and where the pure air will revive debilitated bodies and the sunshine win back the feeble tides of life.—Kansas City Journal.

Most men would rather have a measly political job and starve to death than to get a good living by work.

The Good Old Way.

A severe cold or attack of lagrippe is like a fire, the sooner you combat it the better your chances are to overpower it. But few mothers in this age are willing to do the necessary work required to give a good old-fashioned reliable treatment such as would be administered by their grandmothers, backed by Boschee's German Syrup, which was always liberally used in connection with the home treatment of colds and is still in greater household favor than any known remedy. But even without the application of the old-fashioned aids German Syrup will cure a severe cold in quick time. It will cure colds in children or grown people. It relieves the congested organs, allays the irritation, and effectively stops the cough. Any child will take it. It is invaluable in a household of children. Trial size bottle, 25c; regular size, 75c. For sale by Dr. J. D. McMillan

A tramp works hard trying to avoid work.

A little taffy is apt to make silly people appear stuck up.

If you are troubled with Piles and can't find a cure, try Witch Hazel Salve, but be sure you get that made by E. C. DeWitt & Co., Chicago. It is the Original. If you have used Witch Hazel Salve without being relieved it is probable that you got hold of one of the many worthless counterfeits that are sold on the reputation of the genuine DeWitt's Witch Hazel Salve. Dr. H. T. Pope

A woman hardly ever has to tell a fib twice to make herself believe it.

Don't frown—look pleasant If you are suffering from indigestion or sour stomach, take Kodol Dypepsia Cure. Hon. Jake Moore, of Atlanta, Ga., says: "I suffered more than 20 years with indigestion. A friend recommended Kodol. It relieved me in one day and I now enjoy better health than for many years." Kodol digests what you eat, relieves sour stomach, gas on the stomach, belching, etc. Sold by The Pope Drug Co.

Religion is a good thing, but it doesn't cut a very wide swath in a horse trade.

Starving to Death.

Because her stomach was so weakened by useless drugging that she could not eat, Mrs. Mary H. Waters, of St. Clair St., Columbus, O., was literally starving to death. She writes: "My stomach was so weak from useless drugs that I could not eat and my nerves so wretched that I could not sleep; and not before I was given up to die was I induced to try Electric Bitters; with the wonderful result that improvement began at once, and a complete cure followed." Best health Tonic on earth 50c Guaranteed by all druggist

Most people are two-faced and a few are three-faced.

One would think the Laxative idea in a cough syrup should have been advanced long before it was. It seems the only rational remedy for Coughs and Colds would be to move the bowels and clean the mucous membrane of the throat and lungs at the same time. Kennedy's Laxative Honey and Tar does this. It is the original Laxative Coughs, Croup, Whooping Coughs, etc. Tastes good and harmless. Sold by The Pope Drug Co.

The less a man knows the more suspicious he is.

can easily be raised with regular, even stands, and of the very best grade, for which the highest prices can be gotten at your warehouse, or from tobacco buyers if you will, a few weeks before planting, liberally use

Virginia-Carolina Fertilizers.

Use them again as a top dressing, or second application. These fertilizers are mixed by capable men, who have been making fertilizers all their lives, and contain phosphoric acid, potash and nitrogen, or ammonia in their proper proportions to return to your soil the elements of plant-life that have been taken from it by continual cultivation. Accept no substitute.
