Receiver For Odell Manufacturing Company.

Concord Special, 14th, to Charlotte Observer.

The announcement of the appointment of Mr. Caesar Cone, of Greensboro, as receiver for the Odell Manufacturing Company, of this city, came as a shock to those on the outside of the individual interests, and the failure of the big mill has been the theme of conversation today in all circles and much speculation as to the consequences has been indulged in.

The Observer's correspondent, in an interview with Mr. J. M. Odell on his arrival from Greensboro tonight, was given the following information concerning the affairs of the concern:

The Odell Manufacturing Company comprises the Odell Mills Numbers 1, 2, 3, 4 and 5, and the Buffalo Thread Mills, located at this place. For sometime past the mills have not been making the profits necessary to conduct a successful business, and on account of the stringency of the money market they were forced to the wall. The mills operate 240,000 spindles and 800 looms. The capital stock is \$597,500. Liabilities, \$600,000, with assets amounting to more than \$1,200,000. Quick assets are said to be about \$280,000. It takes \$3,000 a day to run these mills. The J. M. Odell Manufacturing Company (the Bleachery), and Magnolia Mills Nos. 1 and 2, at this

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Pills is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

place, are separate and distinct organizations, and are not in the least affected.

The failure of the Southern Cotton Mills and the Vermont Mill, at Bessemer City, is not responsible for the closing of the affairs of the Odell Manufacturing Company at this place. The J. M. Odell Manufacturing Company, of Chatham, is capitalized at \$67,500; the Kerr Bag Manufacturing Company at \$124,000, and the Magnolia Mills at \$25,000.

Mr. Odell applied to Judge Boyd at Greensboro today, praying for a receiver, and the prayer was granted in the person of Mr. Cone.

Mr. Odell stated that it is not likely that the mills affected will close down at all, and if at all, only temporarily. The annual meeting of stockholders will be held here next Saturday, the 17th, when it is expected that plans for the reorganization of the company will be formulated. The mills have a supply of 700 bales of cotton on hand, and unlimited coal.

Resolutions of Respect.

The Maxton division of the Robeson county division of the Southern Cotton Growers' Association adopted the following resolutions at a meeting held Dec. 29, 1906:

Whereas our association has been called upon to mourn the loss of one of its most active and worthy members by death on Nov. 23, 1906, of Edward McRae Esq.

Resolved 1st. That while we bow in humble submission to the allwise decree of our Heavenly Father, still it is human in us to mourn the loss of our departed associate and comrade who was ever prompt to promote the interest of our association—his neighbors and his country.

Resolved 2nd. That his place will be hard to fill as a citizen, neighbor and friend, yet we trust his laying aside the ploughshares and duties of this life has given him a coronet of celestial and eternal bliss.

Resolved 3rd. That a copy of these resolutions, be spread on our minutes to his memory—a copy be sent in condolence to his bereaved family—a copy be sent each to the Maxton Chief and The Robesonian for publication.
