Mr. Barker in Favor of Better not get any benefit of the corpo- at a reasonable cost. I have been Road Law For County.

To the Editor o. The in Bernell an As we are informed. The Robesonian has offered space for the to the task out will offer a few suggestions.

In the first place, we do not think the present may too high to grade, drain the grains, trans fer sand to clay and may to sand. That is to say to be enabled to do a great deal of permanent work. When the roads are worked as above sated there will be time enough occut down the taxes as it will not require so much then to keep them up I have in mind some townships in which the present tax is not more than sufficient to patch the roads An outlay of this kind is not economy. We want good roads all over Robeson county Some one will say high taxes but let's consider the enhancing in value of property when permanent work has been done. Some one has said that it would enhance the value of property at least 50 per cent. In what way could we enhance the value of our property 50 per cent., by an outlay of 25 cents on \$100 worth of prop ertv. We believe it would be a good idea to make, the township a unit and let the road tax be placed to the credit of each town ship or, as under the present law, and let the corporation tax be credited to the general road fund for general distribution to enable those townships which do

A Memorable Day.

One of the days we remember with pleasure as well as with profit to our health, is the one on which we became acquainted with Dr. King's New Life Pills, the painless purifiers that cure head. sche and biliousness, and ke-u the bowels right 25c. at all Drug

vise all roads of Robeson county, etc. as it now is, in many instances there are many unavoidable accidents for which our county is under the present law. The quired to approve all road claims him to inspect all work done. It commission be appointed or elected. I have also heard it sug-

gested that the chairman of the bard of county commissioners be made a salaried officer giving nis whole time, which, as I see it, would probably be a saving and convenience to the roads. The present road law needs to be revised or annulled. We are looking forward to our present representatives to have made into law such amendments of the present aw as will guarantee good roads
