January 1, 1907 to October 1, 1907, 3,263,750.00.

January 1, 1906 to October 1, 1906, \$55,600.00,
January 1, 1907 to October 1, 1907, 140,308.00.

Mr. Hector McLean, District Manager,
Maxton, N. C.

Parkton, N. C., Sept. 16, 1907.

Dear Sir:-

I am pleased to receive at your hands check for \$1000 from "The Southern Life" in payment of policy on the life of R. T. McRaney. The fact that the check was sent from the Home Office on the day after the death proofs were forwarded and the promptness with which this claim has been settled, attests the excellence of the Southern's business methods and shows how the splendid home Company is keeping up its record for prompt payment of claims.

I thank you and congratulate the people of this section in having started a good strong Company here at home, that we can all patronize with perfect confidence.

Yours very truly,
(Signed) Z. T. McMILLAN,
Administrator.

Every Policy-Holder in "The Southern Life" is Protected, Secured and Made Absolutely Safe by Securities Deposited with the Insurance Department of the State of North Carolina. This fact is evidenced by the following certificate made a part of each policy:

Notice.

NOTICE In the Superior Court, Robeson County.
W. J. Blackburn, Plaintiff,
vs.
Mary L. Blackburn, Defendant.
To Mary L. Blackburn, the defendant above named:
You will take notice that an action entitled as above has been commenced in the Superior Court of Robeson County for the purpose of obtaining a divorce from the bonds of matrimony existing between the plaintiff and the defendant, and you will further take notice that you are required to appear at the next term of the Superior Court of Robeson County to be held on the 10th Monday after the 1st Monday in September, 1907, (it being the 2nd day of December, 1907), at the court house in said county and answer or demur to the complaint in said action or the relief demanded in this complaint.
This 2nd day of November, 1907.
W. H. HUMPHREY,
Clerk Superior Court.
W. H. Kinlaw, Attorney for Plaintiff.

GEORGIA TO MAKE A TEST.

A Leading Atlanta Republican Would Find out How Georgia Republicans Stand.
Washington Correspondence of The Chicago Observer.
If those people who have been babbling so much about the growing popularity of President Roosevelt in the South really want some facts upon which to base their statements, they should go about it in a sane way. Let them follow the example of a leading Republican of Georgia, the Hon. T. M. Blodgett, of Atlanta. He proposes to settle this momentous question as to who is the more beloved among Georgia Republicans, Theodor Roosevelt or Joseph Benson Forsaker, in single combat. To this end he has sent a formal challenge to the Hon. Francis H. Hitchcock, First Assistant Postmaster General and general pulse-feeler for the administration, to a joint debate to be held at Macon November 20th to decide then and there whether Georgia Republicans are for the President or whether they are for Forsaker. Mr. Hitchcock has been making some remarks to the effect that Roosevelt is popular among Georgia Republicans, and Mr. Blodgett wants him to meet him in mortal combat at which the question which is agitating the entire country could be finally determined. In his letter of challenge, the Georgia champion declared:
"And regardless of what my brother, Edwin F. Blodgett, of Atlanta, and Harry Stillwell Edwards, of Macon, may tell you about the Roosevelt and Taft sentiment in Georgia, I will demonstrate to you an entire satisfaction that no men in America are so universally despised by the Republicans of Georgia as Roosevelt and Taft."
"If you will not take part in the discussion, I invite you to come and see that when I poll the house on Roosevelt and Taft, then see how spontaneous is the response given to the name of Joseph Benson Forsaker, of Ohio."

My Best Friend.

Alexander Benton, who lives on Rural Route 1, Fort Edward, N. Y., says: "Dr. King's New Discovery is my best earthly friend. It cured me of asthma six years ago. It has also performed a wonderful cure of indolent consumption for my son's wife. The first bottle ended the terrible cough and this accomplished the other symptoms left one-by-one, until she was perfectly well. Dr. King's New Discovery's power over coughs and colds is simply marvellous. No other remedy has ever cured it. Fully guaranteed by all Druggists, 50c and \$1.00. Trial bottles free."

Constipation, indigestion, drive away appetite and make you weak and sick.

Hallister's Rocky Mountain Tea restores the appetite, drives away disease, builds up the system. 25 cents. Tea or Tablets.
J. D. McMillan, Sec.

AN AGE OF WONDERS.

The Twentieth Century to Be Marked by Most Remarkable Events.
From the Boston Globe.
The present population of the world is living in a wonderful age. The history of the nineteenth century is full of events which caused astonishment, yet things of an equally remarkable nature appear destined to mark even the first twenty-five years of the twentieth century. A few wonderful achievements in this century are worthy of consideration.
A few weeks ago the residents of London were gazing in admiration at the movement of an aerial ship which floated gracefully over the thousands of buildings in that great metropolis, propelled at the rate of twenty miles an hour; but its voyage was limited to a total of about fifty-two miles. This aerial ship was constructed and owned by the government, and Londoners probably felt that in time of war they would be provided with enough of such air craft for the purpose of observing the forces of an enemy, as well as to drop explosives therefrom.
Paris has been experimenting successfully for several years with similar airships, and the Frenchmen are far in advance of the Britishers in this class of experiments.
And now the United States comes to the front with balloons that are making record flights throughout the West, soaring over the Great Lakes, and even venturing as far as Canadian territory. Flights of hundreds of miles of these American balloons are becoming common now by real "sky pilots."
Our War Department officials are excusable for feeling highly elated over the remarkable success of these American balloon pilots; for it means that in time of war the United States will be up to date with any other power in this particular line.
In the last century ballooning was looked upon as merely a fascinating and dangerous amusement; now it is being utilized for very important purposes.
Aerial navigation may be in its infancy, but its progress is destined to be so very rapid that the present generation will witness wonderful achievements in it.
How many individuals of the last century would have believed it possible for many thousands of words to be sent across the Atlantic Ocean by wireless telegraphy in the early years of this century? Yet this has been accomplished.
In this electrical world the number of inventions is unlimited and the most distinguished electrician does not dare to prophesy any limit to them. In fact, it is felt that this century will witness even more marvellous achievements through the aid of electricity than any yet known. Even Edison, in spite of his phenomenal success, is still so fascinated with the possibilities of new discoveries that he cannot retire permanently from the field. There is scarcely a leading industry in the land that has not experienced a benefit from some species of electrical equipment in recent years.
The list of extraordinary events and inventions during the first years of this century is a long one, but the slightest consideration of it will convince any one that he is living in a wonderful age.
Radium Effaces Birthmarks.
New York Times.
Two of the foremost physicians of Paris, Drs. Wickham and Degrais, have created a sensation at the Academy of Medicine by a report on their discovery of a method of removing birthmarks by the action of radium. Such marks have hitherto been believed to be indelible. The new method has proved equally successful in the case of adults and children. A simple application of a plain surface covered with varnish containing radium. The action is regulated by the length and frequency of the application.
A series of watercolors exhibited at the academy showed the gradual disappearance of birthmarks subjected to the treatment until not the slightest trace of the disfigurement remained. The applications are absolutely painless. The treatment may be applied to an infant during sleep.
The finest Coffee Substitute ever made has recently been produced by Dr. Shoop of Racine Wis. You don't have to boil it twenty or thirty minutes. "Milk" in a minute! See the doctor. "Health Coffee" is really the finest Coffee imitation ever yet produced. Not a grain of real Coffee in it either. Health Coffee imitation is made from pure (not) red-corn-cob or grain, with milk, sugar, etc. Really it would fool an expert—there is no unconquerably drink it. See Coffee, J. H. Wickham.

GENERAL NEWS.

Chas. Tracy Barney, the deposed president of the Knickerbocker Trust Co. and until recently a power in the financial world, shot and killed himself at his home in New York on the 14th.
The directors of the Jamestown Ter-Centennial Company decided on the night of the 14th in favor of running the Exposition next summer, provided \$200,000 can be raised by popular subscription in tide-water Virginia to tide over the winter, for exploitation and to provide operating expenses.
The Hercules Nitroglycerin factory, a mile and a half east of Bradner, O., blew up with terrific force Wednesday. Only three employees were in the neighborhood when the explosion occurred. W. Cison was burned to death, John Washburn was blown to fragments and Henry Easton, superintendent of the factory, was probably fatally injured. Nothing remains of the factory. A large pit in the earth shows where it was located.
I ain't feeling right today. Something wrong I must say. Come to think of it, that's right. I forgot my Rocky Mountain Tea last night.
J. D. McMillan & Son.

MT. ELIAM MATTERS.

Bad Roads and Bridges Mentioned Again—School Begin Monday.
Mr. C. R. Tatum, of Fair Bluff, visited friends here yesterday.
Mr. S. E. Martin has returned to his work at St. Paul's.
Mr. Fuller Walters, of Boardman, attended Sunday school Sunday.
I want to say a few words about the roads. I want to tell the man who wrote concerning bad roads that I can show him some bad bridges without going to Sap Suck, if he will come around. The trouble in this section is there aren't any bridges at all—nothing there but the place where the bridges should be.
Sorry to hear of the death of Mrs. Brower, of Boardman.
I think there will be another wedding soon, from the looks of a bouquet I saw.
The school here will start Monday, the 18th. Messrs. Sam Graham and Thaddeus Stone will teach.
Mt. Eliam, N. C., Nov. 13, 1907.
