### THE PROHIBITION QUESTION.

The Robesonian has refrained from saying anything on the question of State prohibition on which an election will be held on the 26 of next month because it has no seen no crying need for shouting itself hoarse about the matter. It besettle this question for itself, and it was opposed to the question being submitted to the people in this way, but when you cannot get a thing the way you want it you had best take it the way you can get it, and since the matter of how we get it is eliminated it narrows down to being for prohibition or against, and The Robesonian hopes that such a majority will be piled up for prohibition at this election that the question will never be agitated in this State again. Robeson county will past question do her part towards bringing about this devoutly-to-be-wished consummation. She has been dry for twenty years and it has proven there are some people who the latter part of April.
