

FACTS ABOUT NEW THEORY SECURED BY INTERVIEWS

People Tell the Reason for Their Faith in Cooper's Belief.

An article from the Nashville, Tenn. Banner, published during L. T. Cooper's visit to that city, throws some light on the remarkable success of the young man's theories and medicines in various cities visited by him during the past year. The article is as follows: "In view of the enormous sale of Cooper's preparations now going on in this city and the intense interest which Mr. Cooper has stirred up since his arrival, a representative of the Banner spent Thursday afternoon at the young man's headquarters, watching the swarm of humanity come and go. "During the afternoon the reporter interviewed many of the callers and obtained statements from all who cared to give them as to their experience with Cooper and his preparations. "The following are selected from those statements as being typical of the general expression of the people here: "Mr. B. B. Laster, living at 1224 North Fourth avenue, when interviewed, said: 'I have been troubled with my stomach for the past two years, and have had rheumatism for more than five years. Sometimes I could not walk, and there were times when I could not even move in bed. Hard knots would form on my muscles, which caused me intense pain. Gas formed on my stomach after eating, which gave me much pain and distress, and often I was restless and tossed all night, losing much sleep and weight. "Hearing of Mr. Cooper and the great work his medicine was accom-

THE NEGRO AND HIS FRIENDS.

Senator Foraker's Activity Political and Personal—Conduct of Negroes in Senate Chamber.

No man of sense is to be deceived by Senator Foraker's activity in behalf of the negroes who shot up Brownsville. His purposes are political and personal: (1) to attract the negro vote of the country—the balance of power in several of the States of the North—to himself; and (2) to alienate it from the President and Secretary Taft, both of whom stand in the way of his ambition and both of whom he therefore hates. Taking for its subject his latest performance, The Louisville Courier-Journal well remarks: "It was peculiarly appropriate that Senator Foraker's Brownsville speech was made to a large audience of negroes in the galleries. Mr. Foraker is distinctly a gallery god in the present campaign. Since the Brownsville incident he has waved the administration in the faces of the negroes, and it has proven as potent for promoting violent emotions as a red rag waved in the face of a bull. The negroes have not yet learned, and perhaps will never learn, to know their friends and to distinguish their enemies in politics. "In the Brownsville affair President Roosevelt seemed clearly to be right. By a stretch of the imagination it might be assumed that he was wrong, but in no event can it be sincerely contended that he drew a color line. He merely meted out what seemed to be merited punishment to soldiers who had disgraced their uniform. Had the soldiers been white the 'hallabalo' would never have occurred. Because they were black the incident furnished ammunition for Mr. Foraker, who already had his war paint on. "Charitarty usually finds a following in politics. A pink whiskey blossom upon the nose of a seeker for office and emolument does not prevent him from being effective as a champion of prohibition. A Jack Cade who promises two loaves for the price of one loaf never wants an audience, notwithstanding the fact that his theories of government will not bear analysis and his motives will not stand the test of inspection. A demagogue who berates the rich, not because they are rich, but because they are rich, and who shouts empty protestations of affection for the poor, not because they are poor, but because they are numerous and can vote, never lacks support, and not infrequently defied by the unthinking. Perhaps it would be expecting too much of the negro, with only a scant half century of freedom and citizenship behind him to be more discerning than members of the superior race. The hatred of many of the negroes for

NO FENCE LAW.

Collector of Customs Keith, of Wilmington Gives Strong Reasons Why Such a Law Should be Enacted by the Legislature Counties Which Have Tried It Would Not Go Back to the Old Style of Letting Stock Run at Large.

Dear Sir: Pardon me for calling the attention of the farmers and well wishers of the progress of our State to the importance of the stock or no fence law, as it will soon be time to begin to make selections for our representatives. Our State will be advanced or retarded just in proportion to the class of men whom we send to represent us. If we are wise in making our selection, we will prosper in proportion. If we leave this important matter to the ringsters and peanut politicians, we will suffer as we have in the past. What we need is men who are honest and will dare to do their duty and there is nothing that they can do to advance the interest of our State more than to give us a stock or no fence law for the entire State. It is a well known fact that the scrubby cattle, and the piney woods rooster in those counties which they are permitted to run at large, do bring in revenue enough to their owners to pay for keeping up their fences around their farms to say nothing of the timber, the young forest that is destroyed, besides when they are ready to fatten it is worth one of them to get it so it can be put upon the market, then they bring the lowest price. You will not find any milk and butter in the territory where the stock is permitted to run at large and with few exceptions you will find that the so-called farmers rarely make enough meat for their own use, while you will find in the section where they have stock law, almost every farmer with his one or two selected cows supplied with milk and butter his hogs in his pasture or lot keeping fat as little as it would take to keep them from dying if they were allowed to run in the woods. The former without disease, the latter the distributors of disease, destroying his neighbors stock without reward or profit to his owner. One of the greatest drawbacks we are confronted with today is securing immigrants from the Northwest in our present mode of letting our stock run at large. I have had some of the best farmers to say that they would not have a farm at any price where the stock is permitted to run at large as the expense of keeping up his fence and waste of timber with his stock liable to catch disease from those running at large made the expense too great for farming to be profitable. It is only an imaginary evil in the thoughts of those who think it would work a hardship upon poor man. To prove this let any of those who doubt it go into a territory where they have the stock law and see if they can find any one who would go back to the old style of letting the stock run at large and I am sure they will be convinced that it is all imagination when they thoroughly investigate for themselves. If we are given the no-fence law in ten years you will see all of our waste places in the sandy belt of our State with a growth of long leaf pine that will be capable of producing turpentine and resin by the patent box system that would bring the owners more revenue each year than the land would bring today upon the market, besides it will restore our seasons which are becoming a serious problem owing to the fact that it is either too wet or too dry, caused by careless timbermen, often followed by fire for the benefit of a few cattle that are not worth what is destroyed by such abuse on a few acres of land, then comes the woods rooster to nip in the bud as well as root up and eat the tap root of young pine which completely destroyed it. As it is at present those counties that have the no fence law are discriminated against and are put to expense to keep up the fence between adjoining counties and if they wish to ship out any beef cattle they have to overcome opposition because they come from a section where the stock is permitted to run at large and to avoid this discrimination it is to every county's interest in the State to work for a general no-fence law throughout the entire length and breadth of North Carolina. Respectfully, B. F. KEITH.

Closing Exercises.

The Antioch high school, which has been successfully taught the past term by Miss Rebecca Russell, will close for the term on Tuesday, May 5th. As an appropriate closing of the school, there will be a big educational rally in the interest of a special tax. It is hoped that Hon. Locke Craig, our next Governor, and Col. N. A. McLean, our ex-Senator, and also our next Senator, will be present and address the people. The public is cordially invited to be present. We hope to give you the programme for the day in next issue. F. B. Red Springs, N. C., April 27, 1908.

STAR OF OHIO, CITY OF TOLEDO.

Frank J. Cheney makes oath that he is partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, Ohio, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh of the Bladder cured by the use of Hall's Catarrh Cure. F. J. CHENEY, Sworn to before me and subscribed in my presence, this 5th day of December, A. D. 1908. Notary Public, A. W. GILBERTON, Toledo, Ohio.

SOUTHERN STATESMEN.

Larger and More Independent Views on National Questions.

From the New York Age. It leaves upon the mind a wholesome impression of growth in statesmanship to hear a Southern Senator like Senator Simmons, of North Carolina, ably advocating an ocean subsidy for the mails and the merchant marine or on our Pacific coast, and to hear other Southern Senators, like Bacon, of Georgia, interspersing their argument with keen and intelligent comment. For the South, whose interest is so tremendous in this policy, has been heretofore especially handicapped in its consideration of blind and virulent partisans. This absolute inconsistency of attitude is unworthy of a great section which has been so prolific in time past of the highest and most honest statesmanship. It suggests, then, a return to the larger and more independent statesmanship of the South when a Senator from the Carolinas, rising above the traditional prejudices of party and section, frankly and ably champions a broad national policy which looks clearly to the welfare and growth of interests common to all the States. We welcome the sanity and independence of Senator Simmons' speech on the ocean mail service and we hail it as a sign of the increasing liberty and individuality which is coming to the Southern people in their political life. For now, if ever in their history, these gulf and southeastern States need independence in their political policies and alignments. Mt. Elian News. Correspondence of The Robesonian. Sporting is the order of the day with the young folks. Mr. Rowland Stone made a flying trip to Boardman Saturday. Mr. Jas. Stone went to Boardman Saturday on business. Messrs. Frank Branch, Mike Lawson and Nona Shepherd went to Lumberton Saturday on business. Mr. and Mrs. Jas. W. Branch spent Saturday with relatives at Lumberton. Miss Lillie Mercer, who has been spending several days with her sister, Mrs. Oliver Britt, has returned to her home at Bellamy. The writer had the pleasure of attending the Commencement at Orrum and enjoyed it fine. Messrs. Mike Lawson and Thad Stone went to Boardman Monday on business. Mr. Everett Britt, of Lumberton, spent Monday here on business. We have been listening for the wedding bells, but have not heard them recently. Hurrah! Mr. Boardman and don't let Mr. Orrum beat your time. Messrs. Berry and Bert Ivey, of Orrum, were the guests of Misses Katie and Nora Stone Sunday evening. We are sorry to report the death of Mrs. Mary Watts, which occurred Saturday. She died suddenly. It seems that there is a certain berry that some of the girls would like to pluck. There will be a prohibition rally at Mt. Elian church Saturday night 25th inst. Ex-Sheriff G. B. McLeod and Rev. R. E. McCuller will make speeches on the occasion. Everybody is invited to attend. Mr. Brack Stephens, of Stephens' town, came up this way Sunday night and it seemed as if Mr. Stephens wanted to go one way and his horse another way. When Mr. Stephens got to his stopping place, hitched his horse and went in the house, the horse went on to his, which was in a back-yard way down the road and was found there drinking water from a tub. Guess Mr. Stephens will hereafter water his horse before leaving home. Miss Dolar Stephens is spending a few days with her sister, Mrs. R. A. Stone, at Cerro Gordo. We think it would be best to have Mr. Rowland Stone for our next President, as he likes to stay at the White House so well. J. W. vice. Mt. Elian, N. C., April 22, 1908.

Death Was On His Heels.

Jesse P. Morris, of Skippers, Va., had a close call in the spring of 1906. He says: "An attack of pneumonia left me so weak and with such a fearful cough that my friends declared consumption had me, and death was on my heels. Then I was persuaded to try Dr. King's New Discovery. It helped me immediately, and after taking two and a half bottles I was a well man again. I found out that New Discovery is the best remedy for cough and lung disease in all the world." Sold under guarantee at all drug stores. 50c and \$1.00—Trial bottle free.
