Cooks and Housekeepers Everywhere Admire and use the Celebrated Cameron Steel Range. Read this:

Cameron Steel Ranges are Built to last a life time and will do so, with ordinary care. They seldom ever need repairs.

The ovens are built larger than the ovens of any other steel range made, they bake and cook quicker, better and with less fuel than others. They burn any kind of fuel and the flues are so large that they do not "choke" up nor burn out.

A great feature is the warming closet that makes it easy for the housekeeper to keep the food warm as long as she wishes.

Ladies especially invited.
