Amatite ROOFING

Better than Shingles

THOUSANDS of people buy shingles for their roofs rather than face the prospect of painting a ready roofing every year or two.

Shingles are expensive, but they are actually cheaper during ten years than a ready roofing which needs frequent painting to keep it free from leaks.

Amatite roofing costs less than half as much as shingles and does not need painting either. It is easier to lay and will give years of long hard service without any care.

Amatite has a real mineral surface. That's why it needs no painting. Once laid on your roof your building has real protection. Amatite is easier to lay than ever this year. The liquid cement for the laps does not require heating before use. A three-inch smooth margin is left at the edge of the sheet so that the laps will be tight fitting and easily cemented. The large headed nails which we furnish save fussing with caps, which rust easily.

Amatite is up to date. Send for a Sample and look it over. You'll never buy any other.

Children's Day—Mr. Foster Bullard—An Accomplished Mule—Some Kinds of Farming—Sunday School Organized.

Correspondence of The Roblesomian.

Mr. and Mrs. I. V. Britt went to Orum yesterday.

Mr. E. B. Stone went to Lumberton Sunday.

Children's Day will be observed here the 4th Sunday in June in the evening. The public is most cordially invited. We will extend a special invitation to the editor of the beloved Roblesomian.

Mr. John Britt visited his mother, Mrs. Jacob Britt, at Kingsdale Saturday. Mrs. Britt is very ill.

"Happy Jack" attended an ice cream supper at the hospitable home of Mr. English Nye, near Proctorville, Saturday evening. It was an enjoyable occasion.

Mr. Homer Stephens has accepted a position with the Evergreen Lumber Co. at Dillon.

There is the greatest number of acres of tobacco planted in Robeson that ever has been in the history of the county's tobacco industry, but the farmers are crying that only a half a crop will be made; which is the best of all, for better prices.

Mr. Foster Bullard died Friday night, June 4th. He had fever. Mr. Bullard was a member of the Big Branch Baptist church, was well educated, and was just in the prime of life. I knew him as a friend and school mate, and I never saw a man who came as near living an ideal Christian life. Foster was a model boy in every way. He leaves to mourn his death a father and two brothers. One brother, Mr. Frank Bullard, of Paris, Tenn., arrived just before he died. His body was laid to rest in the Britt cemetery, near Orum, Saturday afternoon. Rev. I. P. Hedgpeth, of Lumberton, conducted the services.

The mule "Maud", owned by Mr. June Ivey, is a peculiar mule. It was reported last week that she would do some tricks not common for mules, and I'll tell what I saw her do myself. I saw her hitched to a buggy like she should have been and she turned around between the shafts and remained hitched to the buggy, and never broke anything, and pulled backwards. She is a large mule, too. I cannot tell how she did it, though I saw her turn around and pull. "Maud is a rouser."

Mr. Archie Britt continues unimproved.

There is some kind of a model farm here, or near here. Will tell the amount of fertilizers used and what the harvest was on one acre (of course some did some better): 800 pounds 8-2-2 cost \$10; product, 25 pounds cotton, \$2.50. This is a great mistake made by many farmers using so much 8-2-2 "humbug." It they were hauling "humbug" it would do much and lasting good, but the "humbug" does only a little good for one year. It's the only way the poor land of our county will ever be worked to any benefit.

The people who live on the Broad Ridge organized a Sunday school last Sunday at the Broad Ridge school house. Mr. W. H. Bullard is superintendent. The house would not hold the number present Sunday afternoon. Our wishes are that the Sunday school may grow and do good.

Mr. Leonard Britt went to Orum Thursday on business.

The worms are chewing the tobacco before it is manufactured. Most every man has a stemmy of his own, but it doesn't work to his advantage.

Glad to report Mrs. Holmes Britt improving.

We heard of one "dude" from the city who met more than he could handle well. He passed a little boy hoeing corn and said, "Your corn looks yellow, don't it budde?" "Why certainly," the little boy said, "it's the kind we planted." Then said the dude, "You won't get more than a half a crop, will you?" "Nope," replied the boy, "the landlord will get the other half." The dude was vexed by that time and said, "You are not far from a fool, are you?" and the boy said, "Nope, not more than ten steps."

Cutting oats is the order of the day here.

It seems as if the fishers are living high. I heard of one having so many he could feed his hogs on them. It may be one of Col. McLean's fish stories.

DANIELS-GLENN IDEA.

The Coming Conflict of Political Forces in North Carolina.

Washington Cor. Charlotte Observer.

The Democratic situation down in North Carolina is becoming interesting. There is much talk here of what has become known as "the Daniels-GleNN movement," which is said to contemplate the retirement of Senators Overman and Simmons and six of the North Carolina House delegation and to elect Joseph Daniels, editor of The News and Observer, at Raleigh, now national Democratic committeeman from the State, to succeed Simmons, and former Governor Robert B. Glenn to succeed Overman. In this scheme Daniels is to do the writing and Glenn the speaking.

It will be recalled that it was frequently said in the last national campaign that both of these ambitious Tar Heels, Daniels and Glenn, expected Cabinet places in the case of the election of William Jennings Bryan. Being disappointed in their expectations they will now strike for the Senate. As Simmons' term expires first the guns are, for the present, leveled at him. Although Simmons is daily voting against protection rates in the Aldrich bill he is denounced as a protectionist and a Republican because he refuses to consent to discriminations against the products of his State and section.

The course of the wind is indicated by the clamor that is heard. The cry from certain quarters will be: "Down with Simmons and six lumber Representatives," and, secretly, this will be added: "Up with eight other good Democrats."

These are the reports that come to Washington from the Old North State. Senator Simmons is the target. His seat in the Senate is the first attractive thing in sight.

RAFT SWAMP NOTES.

Children's Day—Planning Another Picnic.

Correspondence of The Roblesomian.

Children's Day exercises will be held at Raft Swamp the third Sunday afternoon at four o'clock. The exercises will consist of a missionary address, recitations, solos, dialogues, etc. All are invited to come.

Mr. Teby M'White will leave this afternoon for his home at Wadesboro, after a most pleasant visit of several days with his many relatives in this section.

Messrs. Roland, Owen and Ira Davis went to Jackson Springs Friday on the excursion which ran on the V. & C. S. road, and report a grand time.

Mr. Alex. Sessions, of Lumberton, spent this afternoon in this section.

The farmers here are anticipating having another farmers' picnic in the near future, and the writer will take the liberty of extending a most cordial invitation to Editor Sharpe and Mr. Bethune. We would be very glad to have them both with us that day.

Mr. and Mrs. W. C. Powell and daughters, Misses Docia, Athesia and Quessie, of Orum, attended the funeral of the Helma, the little daughter and only child of Mr. and Mrs. M. R. Townsend.

Fires and Funerals Sometimes Helpful.

Statesville Landmark.

A fire is sometimes the best thing that can happen to a town—when old and decayed buildings are destroyed—and sometimes a funeral, or several of them, will help a town more than anything that could have happened. Here is the way The Lexington Dispatch finds it:

"Do you know that a funeral is often the best thing that can happen to a community?" asked a man. "Yes, sir," he continued, "time and again I have seen funerals that helped communities more than anything else could have possibly benefited them. Take some old skinkfin who has a town hemmed in, won't sell or improve property, lives only to make money for himself, opposes every move for improvement, is 'agin' schools, streets, water works, lights, good roads—when he dies and his hoarded wealth is distributed, the town he lived in is one hundred per cent. better off with him dead than it ever was with him alive and—kicking! Funerals are good things, man, and I guess there is hardly a town on earth that doesn't need a few. The best thing some men ever do for the world is to die."

A bolt of lightning from a clear sky killed a small colored girl near Mount Airy Friday.

Trouble Makers Ousted.

OUT SHANNON WAY.

Shipping Truck—Good Potato Crop—Among the Sick.

Correspondence of The Roblesomian.

Truckers are shipping beans, potatoes and corn from here. There have been about 150 barrels of potatoes shipped from here this week. Mr. J. E. Singleton dug fifty-eight or fifty-nine barrels of potatoes from a little over two acres of land. His was the best crop raised here this season.

Mr. Luther McIntyre, R. F. D. carrier on No. 2 from Rennett, was in our town this week.

Is there any penalty for plowing in the roads of our county?

Mrs. J. E. Singleton has not been well for some time and last Sunday Mr. Singleton took her to the home of her parents at Blenheim, S. C., and a doctor there pronounced the disease pellagra, the disease caused by eating food made from fermented Indian corn, and the doctor thinks that he will be able to cure her, as he has had some cases before. We hope he will succeed in restoring her health.

Mr. J. C. Conoly is on the sick list this week. Mrs. Conoly is not recovering from the effects of her recent fall as swiftly as we wished.

Master John Blount McLeod and sister, little Miss Isabel, are spending some time at the home of their grandmother, Mrs. R. J. Smith.

Mr. Angus D. Conoly is spending this week here with relatives.

Mr. A. H. McLeod and Misses Leslie Paocor and Irene McLeod made a flying trip to Mrs. R. J. Smith's one day this week.

For a Cleveland Monument.

Charlotte Observer.

Chicagoans have started a \$100,000 fund to erect a local monument to Grover Cleveland, Chicago, where the dead President strongly upheld law and order against anarchy, might well hasten with a Cleveland monument of its own, but the chief Cleveland monument belongs elsewhere. It was for the whole country that Grover Cleveland upheld law against formidable attack, preserved credit against attack still more formidable, and in all matters pursued the statesmanlike course without regard either to popular outcry or to party defection. Grover Cleveland, cursed for a panic wherein he had not the slightest share, laid broad the foundations of future prosperity. Grover Cleveland began that war on predatory wealth which Theodore Roosevelt, with much less temperateness and sanity, revived later. Grover Cleveland broke down sectional boundaries and restored to the South—the South thanklessly and unwisely deserted him when his need was extreme—its ancient power at the council table. Grover Cleveland stood four-square against temporary delusions most dangerous in their nature and proved himself equal to one of the gravest crises which American history has known. Well said Senator Hoar, a partisan who placed truth before partisanship, that "we thank God for Grover Cleveland. The country owes him dead more gratitude and amends than it did or could pay him living. In the national capital there should rise to his memory a truly national memorial."

A Valuable Bird and a Law That Should be Enforced.

Lexington Dispatch.

By enforcing that law which prohibits bird dogs running at large until September 1st game wardens will render great service. Those who know of such things tell us that bird dogs destroy large numbers of eggs and young quail during the summer. We like the law and hope that it will be observed to the letter. We have no more valuable bird than the quail. It furnishes legitimate sport for the real sportsman, and is a great friend of the farmer because it destroys insect pests. The Statesville Landmark and The Asheville Courier publish stories showing that the bird eats potato bugs whose insects, to say nothing of other insects that are destructive. An Iredell farmer who grows many potatoes will not allow a bird killed on his place since he discovered that the quail helps him fight potato bugs. The bird needs especial protection this summer because there are fewer quail now than in years.

Killed for Criticizing Woman's Ability to Make Coffee.

Birmingham, Ala. Dispatch, 12th.

Resenting the imputation of C. H. Carper that Mrs. Kelley could not make good coffee, W. T. Kelley and his brother-in-law, Will Sparks, this morning met Carper at Boyle, a suburb of Birmingham and proceeded to "settle" the matter. As a result of the affair, Carper is dead, Sparks is fatally injured and Kelley is wounded in the arm and leg. It is said that Kelley attacked Carper with a club, whereupon Carper drew a pistol, two other pistols being immediately produced by the brothers-in-law, and a general fusillade of shots followed with the above result.

At a meeting in Greenville Friday of the board of trustees of the Eastern Carolina Teachers' Training School, Prof. Robert H. Wright, formerly of Coharie, Sampson county, but for the past several years principal of the City High Schools of Baltimore, Md., was elected president of the college and arrangements were made for the opening of the institution early in September.

A Thrilling Rescue.

How Bert R. Lean, of Cheny, Wash. was saved from a frightful death is a story to thrill the world. "A hard cold," he writes, "brought on a desperate lung trouble that baffled an expert doctor here. Then I paid \$10 to \$15 a visit to a lung specialist in Spokane, who did not help me. Then I went to California, but without benefit. At last used Dr. King's New Discovery, which completely cured me and now I am as well as ever." For Lung Trouble, Bronchitis, Coughs and Colds, Asthma, Whooping Cough it's a supreme. 50c and \$1.00. Trial bottle free. 50c and \$1.00. Trial bottle free.

Women Who Are Envid

Those attractive women who are lovely in face, form and temper are the envy of many, who might be like them. A weak, sickly woman will be nervous and irritable. Constipation or Kidney position shows in pimples, blotches, skin eruptions and a wretched complexion. For all such, Electric Bitters work wonders. They regulate Stomach, Liver and Kidneys, purify the blood, give strength, nerves, bright eyes, pure breath, smooth, lovely skin, lovely complexion. Many young women owe their health and beauty to them. 50c at all druggists.

LIBERTY POINT DAY.

Anniversary of Adoption of "Liberty Point Resolutions" to be Celebrated Attraction to 'Pleasant Visitors

To the Editor of The Roblesomian:

The people of Fayetteville and the upper Cape Fear section purpose this year to anticipate the usual Fourth of July celebration by celebrating on Monday, June 21, the 134th anniversary of the adoption of the famous "Liberty Point Resolutions" by the Cape Fear patriots on June 20, 1775.

I write to ask the courtesy of your columns to extend a most cordial invitation to every Confederate veteran in your section to attend and dine with their Cumberland comrades on that day. A similar invitation has been extended to veterans in all adjoining counties. Military companies from Raleigh, Wilmington, Clinton, Lumber Bridge and Bennettsville have also been invited. Invitations have been and are also hereby extended to every automobile owner in 100 miles around to join in our Auto parade and speed contests.

Chief Justice Walter Clark will deliver the address. The day will be full of attractions to please the visitors—firemen's exhibition, league baseball (Raleigh and Fayetteville), military parade, automobile and floral parade, fireworks, etc., etc.

Let everybody come to Fayetteville June 21.

Resolutions Passed by the CAPE FEAR PATRIOTS AT "LIBERTY POINT," FAYETTEVILLE, JUNE 20th, 1775.

"The actual commencement of hostilities against the Continent, by the British troops, in the bloody scene on the 19th of April last, near Boston, the increase of arbitrary impositions from a wicked and despotic Ministry, and the dread of instigated insurrections in the colonies, are causes sufficient to drive an oppressed people to the use of arms. We, therefore, the subscribers, of Cumberland county, holding ourselves bound by the most sacred of all obligations, the duty of good citizens towards an injured country, and thoroughly convinced, that, under our distressed circumstances, we shall be justified in resisting force by force, do unite ourselves under every tie of religion and honor, and associate as a band in her defence against every foe, hereby solemnly engaging, that whenever our Continental or Provincial Councils shall decree it necessary, we will go forth and be ready to sacrifice our lives and fortunes to secure her freedom and safety. This obligation to continue in full force until a reconciliation shall take place between Great Britain and America, upon constitutional principles, an event we most ardently desire; and we will hold all those persons inimical to the liberty of the colonies, who shall refuse to subscribe to this Association; and we will in all things follow the advice of our General Committee respecting the purposes aforesaid, the preservation of peace and good order, and the safety of individual and private property."

More Trouble Over Early.

Washington Dispatch, 12th.

Unless the New York City health authorities advise the District health department that they are unwilling to have John R. Early, the leper, come to that city, the latter probably will have to remain in quarantine here. Early came here last fall from North Carolina.

Replying to a statement attributed to Dr. Bulkeley, the New York leprosy expert, in which he says that Early is not a leper and that he needs sure that he will be taken to New York within a few days for treatment there, Dr. Woodward, health officer of the District, today declared that he has received no evidence that Early would be permitted to enter New York City.

"Even if satisfactory evidence were presented," added Dr. Woodward, "to show that the authorities of the State and city of New York were willing that Early should come here, I would have to insist that he submit to examination by disinterested physicians before being a party to the transfer."

Senator Clay, of Georgia, expressed the opinion Monday that Congress will be in session until August 1 and probably until September.

WHO WILL BE GOVERNOR?

Rumors Afloat State Library use Next Gubernatorial Campaign—Generally Understood That Mr. Locke Craig Will Run Again—Talk of Mr. C. W. Tillet, of Charlotte.

Charlotte Observer.

Recently there have been various and sundry rumors about relative to the gubernatorial campaign three years hence. This is a little early for such things to be talked about but nevertheless already several reports are in circulation. That Mr. Locke Craig, of Asheville, will be a candidate is little doubted by the better posted observers. It is understood that he has given his friends in the 11th district to understand that he will suggest his name for Congress for the reason that it might embarrass him in his future plans. This is construed to mean that he himself has decided to enter the lists again three years hence for the highest office in the gift of the people in the State.

It will be recalled that many of the opposing forces in the notable Kitchin-Craig-Horne fight last spring pledged their support to the candidate from the extreme west should he offer himself again. Mr. Craig has been one of the most indefatigable workers for the party in the State, has never received recognition in any substantial manner at the hands of his colleagues, is the idol of a great section of the country and richly deserves the honor. Few will forget the wonderful address delivered by him before the convention when Mr. Kitchin was nominated.

From several sources and on several occasions, the name of Mr. Charles W. Tillet, of this city, has been mentioned for the gubernatorial honors three years hence. The suggestions have never come from Mr. Tillet himself but numbers of his staunch friends are talking among themselves with the view to nominating him in the primaries. Mr. Tillet is easily one of the foremost lawyers in the State, an orator of unquestioned parts and a man who would grace the executive chair as would few other men in the Commonwealth. He is widely known, popular with all classes and conditions, and a hard worker. Charlotte and Mecklenburg county, in fact this section of the State, has been given little recognition of his party and there are many who hold that the time has come and that Mr. Tillet is the man.

An Observer man called on Mr. Tillet yesterday to tell him of the rumors in circulation. He found him in his shirt sleeves in his office in the Law Building hard at work on some legal matter and striving the best he could to keep comfortable.

"And what about it?" asked the newspaper man.

"I haven't given the matter serious thought," replied Mr. Tillet in substance, in the greatest good humor, "and hence I cannot give you an answer. Yes, it is true that I have heard some of the talk that is going on but it hasn't bothered me in the least. I have my practice to look after, you know, and other things."

There are many in Charlotte who would like to see Mr. Tillet offer himself. It is generally conceded that he would make an admirable candidate and an even more admirable Governor.
