MILLINERY OPENINGS.

Newest Styles in Headgear Being Displayed at the Stores of Messrs. Caldwell & Carlyle and Miss Josephine Breece.

Millinery and more millinery, eadgear of all shapes and sizes, Il beautiful, is claiming the atention of the feminine portion of the population to the exclusion of all less important matters like the YorthPole controversy, the Hudson-Fulton celebration, the nearness of the planet Mars or the approach of Halley's comet. No exverior influences are needed to ause the desire of the ladies to rn to the beautiful creations ring displayed at the stores of Messrs, Caldwell & Carlyle and Miss Josephine Breece, but the earness of the aforesaid planet and the approach of the aforesaid comet, if they are responsible, as some opine, for the cold weather, may increase the inclinng of hearts unto the visions and dreams that have been created under the touch of deft fingers to gladden for a season.

Miss Josephine Breece's opening began yesterday and coninues through today; Messrs. Caldwell & Carlyle's began this morning and continues through morrow. One is told that the hats are prettier than ever, and before your eyes is exhibited the proof. They are of various sizes. some larger than ever, some smaller:you pays your money and takes your choice. And the range of choice is unlimited. One gazes at the displays and marvels at the skill which has taken bare shapes and made each into what style demands, and yet has made no two alike.New shades are merle green, catawba, mustard, raisin and black and white are very popular. Heavy Russian turbans and Colonial shapes are among the most popular hats; and plush, leaver, scratch felts and moire are especially good; also jet and silver and gold. White kid and planes. chamois are also in vogue. And plumes and fancy feathers?Don't say a word! You will see some of the snatchingest-outsnatchingest-ever.
