Pigs Weighing 410 Pounds Dressed—How to Have Better Times.

The following was signed "A Friend," was sent in from Lumberton, R. F. D. 3, and it is published for what it is worth:

"Pirttie good. L. M. McDowell, colored, of Back Swamp township, he lives on a small one-horse farm of Mr. E. D. Pittman. He made a pirttie good crop, made 11 bales of cotton and about 275 bushels of corn and about 75 bushels of potatoes and other things accordin. He killed 2 little pigs was one year old the day he killed them on the 4 of December, that weighed 410 pounds dressed. Pirttie good for 1911 pigs.

"We all made a good crop but made the other man a present of it. If farmers hafter do that many more times we all will hafter go to the poor house. L. M. Mc said that this was his first year that he ever did farm and it had him stood. If we all make more of corn and raise more hogs and let more cotton alone and eat more home-raised meat and we will have better times in our homes."

Canary Birds Used to Rescue Miners.

Washington Dispatch, 12th.

Canary birds made possible the rescue alive of the five men who were taken from the Cross Mountain mine at Briceville, Tenn., last night, the bureau of mines here was informed today by Dr. Holmes, head of the bureau. This is the first big mine disaster in which these birds have played a saving role, although experiments had been made with them in a number of similar accidents.

The canaries, most sensitive to any atmosphere that will not support life, are carried into the mine by the helmeted rescuers for the purpose of detecting the first sign of poisonous gases. As soon as the canaries show symptoms of dizziness the volunteer rescuers with the helmeted workers are not allowed to go further and the latter proceed alone. Bodies found beyond this point are brought back as far as this danger line, when they are carried out by the volunteers.
