

No man is Stronger Than his Stomach

The Medical Adviser by E. V. Pierce, M. D., Buffalo, N. Y. answers hosts of delicate questions about which every man or woman, single or married ought to know. Sent free on receipt of 31 one-cent stamps to pay for wrapping and mailing.

LET the greatest athlete have dyspepsia and his strength will soon fail. One's stamina—force, fullness and strength of mind or muscle depend upon the blood, and the blood in turn requires a healthy stomach, for the stomach is the laboratory where the food is digested and such elements are taken up—or assimilated—which make blood. In consequence all the organs of the body, such as heart, lungs, liver and kidneys, as well as the nervous system, feel the bad effect if the stomach is deranged.

Dr. Pierce's Golden Medical Discovery

helps the stomach to digest food properly, starts the liver into new activity, removing the poisons from the blood, and the various organs get rich, red blood, instead of being illly nourished. The refreshing influence of this extract of native medicinal plants has been favorably known for over 40 years. Everywhere some neighbor can tell you of the good it has done.

Sold by all medicine dealers in liquid or tablet form; or send 50 one-cent stamps to Dr. Pierce, Invalids' Hotel, Buffalo, and a trial box will be mailed you.

Forget Them Not—A Disgraceful Political Campaign—The Present Compared With the Past.

To the Editor of The Robesonian:

The agony is over, and we can all now take a long breath and return to our normal condition that pertained to us before the election. In the interest of morality and high thinking, it is to be hoped that not another campaign, either national, State or county, will be pulled off as was the late one. We are all losers in our moral and educational standards and it will take time for us to get back to our normal condition.

Just think over the past political situation, fellow citizens, and think how far we have fallen below the standards that we have heretofore erected as our shibboleth for free and untrammelled American citizenship. The slush into which some of our foremost national candidates descended is a disgrace to our nation, and their contamination spreads over to township constables in some instances. What a pitiful lesson does it present to our boys and young men who are entering the arena of politics! We've got to call a halt, or the signs that have led other nations to disruption and ruin are too plainly visible to be disregarded by any sane and thinking man or woman. The man who was the principle cause

of all of this civic demoralization, instead of regretting his past political sins, is out in a manifesto glorifying in his shame and threatening to follow up his past Bull Moose tactics four years from now. His most enthusiastic followers must admit that his aims are purely selfish, without any regard to the betterment of our country and who at last "will go down to the vile earth from whence he sprung, unwept, un-honored and unsung."

The Bull Moose supporters are so few in our county that it might seem superfluous to waste a line on such a demagogue, but for the fact that our young men, many of whom do not read up on politics, might be carried away by his specious pleadings. Our young men these days are not drilled in the ethics of manhood, honor and virtue as was taught their fathers, and are apt to fall away from the old landmarks that their fathers worshiped. The writer was interested in a speech made by Dr. Hill of the A. & M. College, at a reunion some time since of the members of a church in Mecklenburg county (I can't recall the church) in which he described those people in his boyhood days. He spoke of their high sense of honor and integrity. He said they might condone a duel or a fist fight, but never a lapse of honor or of truthfulness. In the writer's youth he well remembers that honor and truthfulness were the true criterion of a man's charac-

ter in the neighborhood in which he was raised. Since then, though, he has seen a great departure from that standard. They were indeed high thinkers and simple livers. It is good sometimes to return to the old landmarks of our fathers and compare the past with the present.

Good Farming Land for Sale

We own 900 acres of good farm land six miles from Lillington, on a new railroad with station in center, with 150 acres in cultivation. There are four good farm houses with out-buildings. The land is gray soil and does not require any ditching, and is fine for cotton, corn, tobacco, cantelopes, or any other crops. We will sell this tract for \$16.00 per acre, one-third cash and the remainder in two equal annual payments.

If any one is interested we will be glad to take up the matter with them by correspondence or in person.

Yours truly,
BAGGETT & BAGGETT,
Attorneys.
