

## Success depends largely upon Good Health

In your race for success don't lose sight of the fact that only through good health can you attain success. The tension you must necessarily place upon your nerves, and the sacrifice of proper exercise you have to make at times must be balanced in some way.

### Dr. Pierce's Golden Medical Discovery

is the balancing power—a vitalizing power. It acts on the stomach and organs of digestion and nutrition, thus purifying the blood and giving strength to the nerves, indirectly aiding the liver to perform its very important work. Dr. Pierce's Golden Medical Discovery has been successful for a generation as a tonic and body builder. Sold by medicine dealers in liquid or tablet form—trial box of "Tablets" mailed on receipt of 50 one-cent stamps.

If in failing health write Dr. R. V. Pierce's faculty at Invalids' Hotel, Buffalo, New York.

**DR. PIERCE'S GREAT FAMILY DOCTOR BOOK.**  
The People's Common Sense Medical Advisor—now revised up-to-date edition—of 1008 pages, answers hosts of delicate questions which every woman, single or married, ought to know. Sent FREE in cloth binding to any address on receipt of 31 one-cent stamps, to cover cost of wrapping and mailing only.

Greensboro Daily News: Within a few months Greensboro is to have the distinction of possessing the first modern indigo dye and printing establishment in the South, according to plans announced yesterday by Caesar Cone, of the Proximity Manufacturing Company. Orders have already been placed for the machinery, which is promised within four months, and the plant will be in operation in from four to six months.

Dr. F. F. Friedmann of Berlin, whose claim to have discovered a cure for tuberculosis has attracted wide attention recently, visited the White House Monday after holding a clinic at George Washington University.

**Get More Eggs**

"Money back if it fails." The extra ones you all profit. The regular use of Pratts Poultry Regulator will keep you, hens busy shelling out eggs. Get Pratts' Profit-sharing Booklet.

Sold by all dealers everywhere.

### PARKTON PARAGRAPHS.

**Fine Potato Crop Prospects—Improved Methods of Farming—Plowing Into Roads—New Houses Being Built—Who Will Be Mayor—Personal Mention.**

Correspondence of The Robesonian. Parkton, April 14—Another week has elapsed since our last letter—so very many changes and events since—we just can't keep up with them.

We have lost from our town M. J. McJuffie and family, who have moved back to Fayetteville. We regret to lose them, while we have gained one large and interesting family, Mr. and Mrs. Inman and children, who have moved here from Lumberton and have charge of the Parkton hotel. They are experienced hotel people and no doubt will serve the public satisfactorily. Mr. A. A. Wright has moved back to his farm near town.

Since the splendid rain the potato crop has greatly improved and the prospect is for a record breaker as there are more than 100 acres growing in and around Parkton and Lumber Bridge and Rex. Parkton is headquarters, as the barrel factory is here and several car loads of material are ready for putting up the barrel. The factory is in the old school building.

The farmers are very busy planting cotton. Not much planted so far. We observe that the method of farming is more of the "demonstration" this year than ever. Nearly every farmer is scientific.

I want to mention something in regard to the roads. You hear about the new road law and that it will go into effect the first of June. What is the use of legislation when every farmer is allowed to plow up the roads when the road has been put in first class condition? I know whereof I speak. I have known many miles of roads in different parts of the country where the sandy roads have been clayed and just as good road as could be wished for, and since then the same roads have been plowed up and the sand washed back on the road that today you can't tell it was even clayed. Is this right and just? Everybody will say no, but if you speak to them about ploughing up the road they are liable to get offended. I say the road law should be carried out in this particular respect; if not, you had just as well stop working them. I think I am entitled to mention some parties, especially in St. Paul's township. Look at the public road leading by Joe Waters and son, where the road today is obstructed, and if you should meet an automobile for a few hundred yards, you would have a breakdown sure, as there is nowhere to turn off at all. The piece of road I mention is a disgrace to Robeson county, much less to St. Paul's township. I can't say who is to blame, but I guess things will change soon. Look at the old plankroad in Parkton township, you will almost get lost. The road is plowed so it looks like a road through some individual's field. Instead of being 30 feet broad it is hardly 12 feet. I could mention several other places, but your readers all know this is true. I am heartily in favor of carrying out the new road law with regard to ploughing in the bounds of the road, which forbids plowing more than 10 feet from the center of the road. I just feel that when our new road supervisors, Messrs. E. K. Campbell, P. H. Fisher and J. D. McArthur, get in authority over Parkton township that the road law will be observed. I could fill more space on this important subject but will have to close for the present.

Mr. J. D. McArthur has purchased some fancy lots and is having some houses built.

Mr. J. C. Webb says he will soon be manufacturing shingles in town.

Mr. Leo Johnson come up from Herance, S. C., Sunday and was shaking hands with his many friends.

Miss Flora Currie from Maxton is spending a few days with her brother Dr. D. S. Currie—Miss Bessie Gaskwell, who has been teaching near Winson Salera came home Saturday.

Mrs. Henry Welch from McColl, S. C., is on a visit to her daughter Mrs. T. W. Thompson.

Mr. and Mrs. W. H. Biddell and children of Red Springs spent Sunday

visiting friends in town.—Miss Ethel Williamson spent Saturday and Sunday with home folks returning Sunday p. m. to her school at Allenton. Prof R. A. Pope went to Red Springs Friday night and returned Sunday night.

The Parkton school baseball team will go to Fairmont Thursday p. m. to play three games.

Mrs. H. C. Jones, who has been in a hospital for several weeks returned home Sunday night to the delight of her husband and her many friends. Mr. H. C. Jones has been quite sick for some days but we are glad to report him somewhat better and trust he may soon be able to be at his post of duty at the drug store.

It is of much interest to our town citizens who will be our next mayor, as the election draws near and as our present mayor says he will not run again. We must have a good man for this all-important place.

Mrs. Jane McCall is quite ill.

We are glad to report Mr. A. Farham somewhat better. We greatly miss his presence from us while he has been absent. We trust he may soon be able to be out again.

Rev. E. L. Stack preached to a large congregation Sunday night, as there was no preaching at the Baptist church. He gave us a fine and interesting sermon. The choir was strong and inspiring. There was a fine male quartet by Messrs McCormick, Williamson, Stubbs and Hodges. Why not have them often?

Space will not permit of mention of Mr. J. B. McCormick's fine Jersey milk cows, but he has one, especially the finest in the county, without a doubt, and pigeons by the hundreds.
