#### UNION STATION ORDERED. CHAMBER OF COMMERCE MEETS

# Meeting at Court House Monday

Night Adopted By-Laws and Elected Executive Committee-Committee Appointed to Secure a Hotel Spite'n.

At a well-attended meeting of the Chamber of Commerce at the court house Monday night by-laws were siderable interest to Lumberton folk: adopted and an executive committee of seven was elected. The by laws provide that any citizen of Lumberton or this vicinity may become a member. There is no initiation fee and the annual dues are only \$1 per year. Regular meetings are to be held on the second Thurday in each months and special meetings may be called by the president at any time. The executive committee is composed of the president and secretary-treasurer, J. P. Russell ad J. A. Sharpe, members ex officio; K. M. Barnes, C. V. Brown, H. M. McAllister, R. C. Lawrence, K. M. Biggs.

President Russell reported that he went to Wilmington Saturday in the interest of the organization and learned somethings about a hotel. He told about interviews he had had with men who have had experience in promoting things of the kind, and was satisfied that Lumberton can and will build a hotel in the near future. Mr. Russell also suggested that the ministers of the town can help in the work the Chamber of Commerce wants to do by forming an organization of their own.

Supt. R. E. Sentelle, of the graded school, announced that he will have some matters of importance to bring before the organization at its next regular meeting.

Mr. C. M. Barker suggested that the Chamber of Commerce might properly interest itself in the danger that threatens every home, where colored cooks and nurses are employed, many of these women having contagious diseases of a loathsome nature that make their presence in any home dangerous. He suggested that every woman who is employed in homes in the capacity of cook or nurse ought to have a health certificate. Mr. J. A. McAllister and others expressed entire agreement with Mr. Barker and felt that he had brought up a most important matter, but that it would require a law and that the Chamber of Commerce would be powerless to do anything except agitate the matter.

It was good news that this matter, which has been hanging for some time, has been settled. The union station is needed badly. The Raleigh & Charleston has been using the Seaboard station all the while, and the order merely means that the V. & C. S. will have to build a track to the Seaboard depot. Nothing is said in the above about preparing the board station all the while, and the the above about preparing the Mr. Britt used as his theme "The grounds, which will require consider- Mission of the Sunday School." of the V. & C. S. says he has received no notice as yet in regard to the order of the Commission.
