FOR THE GRIP

Peruna is Sometimes Used With Good Results

A great many people use Peruna for the grip. Some use it as soon as the grip begins, taking it during the acute stage of the disease, and especially in shortening the disease, and especially in shortening the after stages.

Mrs. Jane Gift. Many people take it after they have had the grip. Their convalescence is slow. They have suffered along for a month or two, without any signs of complete recovery. Then they resort to Peruna as a tonic, with splendid results.

Mrs. Jane Gift, R. F. D. 1, Athens, Ohio, whose portrait appears above, writes: "I think I would have been dead long ago if it had not been for Peruna. Six years ago I had a gripe me every day, but I gradually grew worse. I told my husband I thought I would surely die if I did not get relief soon."

"One day I picked up the newspaper and accidentally found a testimonial of a woman who had been cured of gripe by Peruna. I told my husband I wanted to try it. He went directly to the drug store and got a bottle of Peruna. I could see the improvement in a very short time and was soon able to do my work. I continued using it until I was entirely cured."

Mr. Victor Patneade, 328 Madison St., Topeka, Kas., writes: "Twelve years ago I had a severe attack of la gripe and I never really recovered my health and strength, but grew weaker every year, until I was unable to work."

"Two years ago I began using Peruna and it built up my strength so that in a couple of months I was able to go to work again. This winter I had another attack of la gripe, but Peruna soon drove it out of my system. My wife and I consider it a household remedy."

Those who object to liquid medicines can now obtain Peruna Tablets.

Gov. Craig Friday commuted to life imprisonment the death sentence of James Bolejack, who killed his wife in Charlotte. The date set for the electrocution was April 4. The Governor gives as his reasons that the man is old and broken in mind and body and did not fully realize what he was doing, that the jury recommended mercy, and that the judge, solicitor and other good citizens recommended commutation.

Words of Praise

For Mayr's Wonderful Stomach Remedy

"How thankful we are to you for giving a hold of your Wonderful Remedy. My wife could not have had but a short time to live if she had not taken your Wonderful Remedy when she died. One more of those paroxysm pains she was having would have killed her without a doubt. Now she is free from all pain, free from heart trouble and free from that disturbing Neurogia—all the results of five treatments—and the expulsion of five or six hundred Gall Stones. Now she is able to eat anything she wants and her appetite is good and before taking your medicine she had no appetite and when she ate anything she would suffer death for so doing and could not sleep at night since taking your treatment she sleeps well all night long. T. A. Neall, Roanoke, Texas."

The above letter should convince you more than anything we could say in behalf of Mayr's Wonderful Stomach Remedy. Sufferers should try one dose of this Remedy—one dose should convince them that they can be restored to health. Nearly all Stomach Ailments are caused by the clogging of the intestinal tract with mucoid and catarrhal secretions—allowing poisonous fluids into the Stomach and otherwise deranging the digestive system. Mayr's Wonderful Stomach Remedy painlessly removes these secretions without a surgical operation and puts an end to Colic Attacks, Gases in the Stomach and Intestines and all of the usual symptoms of Stomach, Liver and Intestinal Ailments. Ask your druggist about Mayr's Wonderful Stomach Remedy or send to Geo. H. Mayr, Mfg. Chemist, 154 Whiting St., Chicago, Ill., for free booklet on Stomach Ailments and many grateful letters from people who have been restored.

HERO OF THE DURHAM FIRE

Trinity College Student Risked Life to Rescue Others From Burning Building.

The following story of heroic work of a student at Trinity during the recent disastrous fire at Durham is told in a special to the Greensboro News: F. A. Whitesides, a Trinity College senior, was the hero of the fierce fire which destroyed more than \$600,000 worth of property here last night, and his daring possibly saved the lives of six or eight persons who had been asleep on the fourth and fifth floors of the Brodie L. Duke building.

Jumping into an elevator that had been deserted by the operator this colleg youth ran it up and down its shaft through heat and smok until th last prson was down and until there was nothing left for the elevator to move on. The last time, indeed, he could only go to the fourth floor—to go higher he would have been compelled to run into flaming air. When he came down this last trip the elevator wavered and shook with the rumblings of the flames, and when within eight feet of the bottom the car had practically nothing to move on, part of the woodwork having been burned and charred, and it all but fell with a crash. But on this last trip made through smoke and flame, with death playing in lurid form all about, risking his life to death as the solemn reward, with his nose and mouth covered by one hand and with the other hand piloting the elevator upward, the new elevator boy found one last man, the only man left in the building, and brought him to the cherished earth.

Thus he became a hero and after his duty was done he slipped away. Few people knew of his experience until late this morning. It was known that some one had run the elevator until the last man was out, but who it was for several hours proved a mystery.

When finally discovered he pleaded an engagement and hurried off thru a crowd. Finding this was useless he admitted he had run the elevator but didn't know how many times.

"I was just passing, and the elevator was not running," he said.

The information was finally pulled from him that he had never run an elevator before; that he asked the elevator boy for the light to see better, that he ran the elevator up to one floor and back down to make sure how the business was done. Then he went up to the top and repeated it as long as the elevator would run. At times, under his inspiration others went up with him.

The last trip he had considerable trouble in reaching the fourth floor. Unable to go higher, he called up to learn if anyone was waiting, and then rescued the nearly suffocated man on the fourth floor.

Young Whitesides is barely over five feet nine inches in height and weighs about 130 pounds. His eyes are blue and his hair is light. The steady gleam of his eye, the quickness of his voice and a sprightly step mark him as a man of the nerve and decision he displayed last night.

The April American Magazine

The April American Magazine contains the first installment of a new serial story entitled "Bamby," by Majorie Benton Cooke. No country but America could produce a girl like Bamby—a creature of buoyant splendid spirit and ingenious wit. "Bamby" starts out like a real story—a captivating love story full of comedy and adventure. A remarkable contribution to the new issue of the American is Mary Antin's article "They who knock at our Gates." Mary Antin is a brilliant young Russian Jewess who has only been in this country a few years. She gives in this article a wonderful presentation of the idea that our immigrants have courage and faith of pioneers and they are in many ways the best part of our population—an infusion of new blood of inestimable value to America.

Other articles are "American Gambling and Gamblers," by Hugh S. Fullerton; "Seeing America," by Ray Stannard Baker; "An Adventure in Education," by Albert Jay Nock; and "The Slump in the Theatrical Business," by Walter Prichard Eaton. Edna Ferber tells a new Emma McChesney story; Brand Whitlock, formerly mayor of Toledo, Ohio, tells a golf story; and other fiction is contributed by Clarence B. Kelland, Philip Curtiss and Maravene Thompson. James Montgomery Flagg contributes an amusing piece in words and pictures entitled "The Care and Feeding of Husbands," and prize-winning letters are published in the contest entitled "What I Would Do With a Million Dollars." The "Interesting People" department completes a lively number.

Floating Churches.
Four corporage automobiles are now carrying religion to the homes in outlying districts in the West. Many people on the Pacific Coast can be reached for the present only by water transportation. A cruiser was built of sufficient size to accommodate a missionary and his family, and if necessary to provide a chapel sufficiently large to accommodate an audience of fifty people. The first of these boats were assigned to the Coos Bay region of Western Oregon and was named the Life Line; the second is known as the Osceola and operates in the waterways of San Francisco Bay and the dike region of the Sacramento and San Joaquin rivers. Another boat is now being built for service in Puget Sound, and will serve 75,000 people along 2,000 miles of shore line.—The World's Work.

YOUR MONEY BACK IF YOU WANT IT

Leading Druggist Will Refund Purchase Price of Dodson's Liver Tonic if You're Dissatisfied

J. D. McMillan & Son may not be willing to guarantee the safety and reliability of calomel for constipation and sluggish liver, but this store will and does stand back of Dodson's Liver Tonic with an unconditional guarantee to refund the full purchase price (50c.) instantly without question if you are not satisfied in every way with Liver Tonic and its results.

If you take calomel, perhaps you will seem to get temporary relief, but it often happens that the after-effects are at least unpleasant and sometimes dangerous. Calomel in large doses is a poison and actually deadly to some—perhaps to you—and hence its use means taking chances.

With Dodson's Liver Tonic you are always safe. Its reliability is so certain that it can be sold with the money back guarantee. It is a vegetable liquid pleasant to take, and it cannot harm. It clears up the dulled and aching head and cleans out the clogged system in what many have found to be a wonderful way. Dodson's Liver Tonic will do for you what it has done for thousands—and you run no risk in trying it. Ask J. D. McMillan & Son about Dodson's and the guarantee.

A MESSAGE TO BOYS AND GIRLS

School Children Urged to Help Protect Forests and Protect Birds.

I would like to visit the schools and see every boy and girl in the State. Since I cannot do this, I am sending each of you a message I trust you will remember. I want all the school children to help Governor Craig and all good citizens to preserve our forests and protect our birds. How helpful our teachers could be if they would plan to observe "Arbor Day" and organize Audubon Clubs in every school. If every boy and girl would plant a tree and protect a bird, lumber would be cheaper and homes less expensive and our little feathered family will again form th rainbow colors in our forests.

It is claimed by those who are in a position to know that fire is the worst enemy to our North Carolina forests, and that the largest part of these fires are caused by carelessness. Our children must not only be taught the value and beauty of forests, but also must be trained to be more careful about the use of matches and fires. A most helpful and impressive illustrated leaflet, enforcing just these points, in language which the children can understand is being distributed by the Carolina Forestry Association free of charge to all schools, in sufficient quantities for every child to have one. A simple application to the secretary of the Association at Chapel Hill, N. C., will secure these.

The Best Security.

Greensboro News.
Morgan said that he had loaned a million dollars at a time to men who to his certain knowledge did not have a cent. But for all that the banker felt that he had a surety better than government bonds—he had his debtor's character to secure him. That the financier's rule may work both ways is graphically illustrated by the affair at Goldsboro, where a cashier defalcated with \$70,000, and far from wrecking the bank, appeared hardly to cause a ripple of uneasiness among the depositors; those depositors had a man of character to fall back on. Indeed before the news of the shortage had reached the public, the president of the bank had put up the money to guarantee the depositors against any loss. People learned that George Norwood was on the job and went about their business, perfectly satisfied. In all likelihood Mr. Norwood will get his money back and even if he should lose every cent of it we hazard the assertion that the time will come when he will find that the confidence and esteem of his fellow-townsmen are worth every cent of the \$50,000 he put up.
