

COTTON STORAGE

Plans Perfected to Relieve Cotton Storage Situation in South. Washington Dispatch.

Arrangements were perfected today by the Interstate Commerce Commission in connection with the Treasury Department and the Federal Reserve Board to relieve the cotton storage situation in the South.

These branches of the Government have joined in assisting cotton planters and railways of the South in meeting the extraordinary demand for the storage of cotton occasioned by the European war.

The commission in an announcement of new tariff and transportation regulations made today, says that "for the purpose of providing temporary warehousing space for the storage of cotton, under arrangements approved by the Secretary of the Treasury and the Federal Reserve Board; and for the purpose of permitting the carriers to recognize the warehouses as points for the storage of cotton, in order that such points should be given the benefit of transit privileges the Interstate Commerce Commission has authorized the carriers of the South to publish and file tariffs establishing on their lines rules, regulations and charges governing the storage of cotton during the year ending August 31, 1915."

The new regulations are expected not only to relieve the situation, but more importantly, the financial situation which, to cotton planters, has become serious on account of the difficulty in marketing the cotton crop. With warehouse receipts for their cotton the planters will be able to realize at once upon it and then may await a favorable time for forwarding the crop to final destinations. The expense of the shipments and warehousing has been fixed at a minimum.

Following are the commission's regulations, which the railways are authorized to put into effect immediately upon filing of the tariffs: "1. Cotton shipped for warehousing and reshipment must be consigned to the warehousing point and freight paid on basis of the full local rate, upon which the delivery agent will give paid freight receipt, which the holder of the cotton should retain for the purpose of securing reshipping privileges.

"2. Upon reshipment from the warehousing point, the shipper will be required to surrender to the agent of the line bringing the cotton into the warehousing point the paid freight bill covering that identical cotton. The number of bales, marks and weights of cotton, as forwarded from the warehousing point, must conform to the paid freight bill, and in addition the shipper will be required to certify on the back of the paid freight bill that the cotton tendered is the identical cotton received hereunder. The shipper will also be required to surrender to the railway agent at the time of reshipment the bill of lading covering the movement of the cotton of the cotton in to the warehousing point unless the bill of lading for such shipment shall have been previously surrendered to the railway. Reshipping Rules.

"3. Thereupon the agent will issue a through bill of lading to the further final destination at the through rate from the point of origin to such further final destination in effect at the time of the original shipment into the warehousing point, plus three cents a hundred pounds, provided such further final destination is a point to which there are established through rates in effect from the original point of shipment via the warehousing point via the warehousing point (provided, that at the option of any interested line the minimum through rate will be that from the warehousing point plus the stoppage charge of three cents a hundred pounds.) Where the rate from the original point of shipment to such further destination is less than the rate from the original point of shipment to the warehousing point, plus the stoppage charge of three cents a hundred pounds will be charged as a minimum.

"4. Shipments will be way-billed out of the warehousing point at the balance of the rate, plus the stoppage charge of three cents a hundred pounds. The distribution of revenue between connecting lines shall be on basis of through rates and division, except that the three cent stoppage charge shall accrue to the line bringing the cotton into the warehousing point, it being a condition of this privilege the line issuing the bill of lading out of the warehousing point shall be the line bringing the cotton into the warehousing point.

"5. All connecting line switching charges will be in addition to the through rates, and in addition to the three cent stoppage charge and where the cotton is delivered to a car storage warehouse, for the point in the same instance, the established through rates shall apply.

SAYS SULPHUR WILL DRIVE ECZEMA FROM THE SKIN AT ONCE

Use Like Cold Cream to Instantly Stop Itching and Clear the Skin.

Sulphur, says a renowned dermatologist, just common bold-sulphur made into a thick cream will soothe and heal the skin when irritated and broken out with Eczema or any form of eruption. The moment it is applied all itching ceases and after two or three applications the Eczema disappears, leaving the skin clear and smooth.

He tells Eczema sufferers to get from any good pharmacy an ounce of bold-sulphur cream and apply it to the irritated parts the same as you would any cold cream. For many years common bold-sulphur has occupied a secure position in the practice of dermatology and cutaneous affections by reason of its parasitic destroying property. It is not only parasiticidal, but also antipruritic, antiseptic and remarkably healing in all irritable and inflammatory conditions of the skin. While not always effecting a permanent cure it never fails to instantly subdue the angry itching and irritation and heal the Eczema right up and it is often years later before any eruption again appears on the skin.

Fertilizer Concerns Cannot Take Cotton On Bills. Raleigh Cor., 24th, Greensboro News. Maj. W. A. Graham, commissioner of agriculture, who recently undertook to help the cotton situation by getting fertilizer companies to agree to take cotton at 10 cents in payment of fertilizer bills, receives answers from the Virginia-Carolina Chemical Co., and the Royster Co., declaring it impossible to do as he requests.

The Virginia-Carolina Company writes its utter impossibility to entertain the idea. "If 99 per cent of our total amount sold on credit last year is collected," it writes, "the profits will net us less than 80 cents a ton, though we did more than a million ton business. Suppose we take cotton at \$50 a bale and had to market this cotton at \$40 a bale, it would entail a loss as you see, of \$10 a bale." Declaring that it costs \$5 a ton to collect fertilizer and the sale price is \$20 a ton, two tons of guano would amount to one bale of cotton. If we did all of our business along this line, on the amount of goods sold last year, we should lose \$5,000,000 as against a net profit of \$800,000" the writer says. The V.C. company then suggests that each cotton grower pay a liberal per cent of his debt and the company will carry him with cotton as collateral.

Mrs. Joe Person's Wash should be used in connection with the remedy for the cure of sores and the relief of inflamed and congested surfaces. It is especially valuable for women, and should always be used for ulcerations.

The Aberdeen Plan. Charlotte Observer. Mr. Claude Hafer of Aberdeen writes The Manufacturers' Record a little story of how the Sand Hills Board of Trade, with the aid of the Page Trust Company, met the cotton emergency in the Aberdeen section which deserves to be passed along. In short, it is to the effect that the two organizations negotiated a loan of \$100,000 from the Shawmut National Bank of Boston. This money is being disbursed by the Page Trust Company without charge. It is available to farmers on six months loans, or longer as desired and is apportioned at the rate of \$25 a bale. By this method of distribution the money will be made to do the greatest amount of good to the greatest number of farmers. It is co-operative work of this character which brings the bank into appreciation of the people.

ACT QUICKLY.

Delay Has Been Dangerous in Lumberton.

Do the right thing at the right time. Act quickly in time of danger. In time of kidney danger Doan's Kidney Pills are most effective. Plenty of evidence of their worth. J. T. Williams, Garden St., Marion, N. C. says: "I became all run down as the result of kidney trouble and the best doctor in the State held out no hope for my recovery. I suffered from rheumatic twinges throughout my body, and was nervous and didn't sleep well. The kidney secretions were acrid and scalding in passage and caused a great distress. A friend finally advised me to try Doan's Kidney Pills and although I had but little faith in them I began using them. In a few days I felt better. I was soon on the road to recovery and can now say that my cure is permanent. I have never had the slightest return of kidney complaint since using Doan's Kidney Pills." Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the remedy that has cured thousands. Write to J. C. Williams, Garden St., Marion, N. C.

Use "Gets-It," Corns Shivel, Vanish!

It's the New Way, and You'll Forget You Ever Had Corns.

"It drops put on in 2 seconds, corn shrivels, comes clean off!" That's the marvelous story of "GETS-IT," the new-plan corn cure. Nothing can be simpler for the cure of corns—and it never fails.

No Corns to Pump, No Pain, If You Use "GETS-IT."

never fails. That's why millions of people are using "GETS-IT" today and throwing away their fussy plasters, sticky taps, toe-eating salves, and "wrapping outfits" that make a bundle around the toe and choke it to pain by pressing either on or around the corn. There is nothing to stick to your stocking, nothing to cause inflammation or rawness, nothing to press or crowd the corn. You apply it in 2 seconds. No more knives, razors, scissors or files, with their blood-poisoning dangers. Try "GETS-IT" for that old corn, wart or bunion. "GETS-IT" is sold by druggists everywhere, 25c a bottle, or sent direct by E. F. Lawrence & Co., Chicago. "GETS-IT" is sold in Lumberton by Rope Drug Company.

Dyspepsia is America's curse. To restore digestion, normal weight, good health and purify the blood, use Burdock Blood Bitters. Sold at all drug stores. Price, \$1.00.

CENTER DOTS.

Correspondence of The Robesonian. Lumberton, R. F. D. 3; Sept. 26—Picking cotton is the order of the day in this section. We feared of one man who said he had planned for 70 bales but wouldn't get but 60.

Mr. Jim Spivey of Lumberton spent Sunday visiting his parents, Mr. and Mrs. Chas. Spivey.—Miss Thelus McKethen spent Sunday with her sister Mrs. Chas. Spivey.—Mr. and Mrs. A. E. Spivey of Lumberton attended preaching here Sunday.—Mr. Charlie Bullock has entered school at Fairmont.

Our much-loved pastor, Rev. W. R. Davis, filled his regular appointment Saturday and Sunday. He preached an able sermon Saturday, as usual Sunday he told us about his trip to Northfield, where he attended the Bible school. His talk was immensely enjoyed.

IMPORTANT TO ALL WOMEN READERS OF THIS PAPER.

Thousands upon thousands of women have kidney or bladder trouble and never suspect it.

Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased. You may suffer a great deal with pain in the back, bearing-down feelings, headache and loss of ambition. Poor health makes you nervous, irritable and may be dependent; it makes any one so.

But hundreds of women claim that Dr. Kilmer's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions.

A good kidney medicine, possessing real healing and curative value, should be a blessing to thousands of nervous, over-worked women. Many send for a sample bottle to see what Swamp-Root, the great Kidney Liver and Bladder Remedy will do for them. Every reader of this paper, who has not already tried it, by enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y., may receive sample size bottle by Parcel Post. You can purchase the regular fifty-cent and one-dollar size bottles at all drug stores.

SUCCESSFUL MEN

THOMAS ALVA EDISON

"My own experience," says Edison, "is that if you get something for nothing, you may be sure you are on the wrong road. If you get the result without strenuous effort, there is only one rule, apparently, to follow, and that is to cast it aside and begin all over again." And to accomplish what he has it has been necessary for him to practice what he preaches. All of his life he has been strenuous not only with his head but with his hand.

As a new-boy at twelve, a telegraph operator at fifteen, and then an inventor, he attributes all of his great achievements to his unceasing labor. The carbonized bamboo which finally made the incandescent electric light a success, was the result of years of research and experimenting with other materials. The phonograph was perfected at equally as great an expenditure of labor. To the uninitiated his great workshop and laboratory in East Orange, N. J., the greatest in the world, is a temple of mystery, where magicians turn everything into gold, but to Edison it is simply a place of work.

Getting Something For Nothing Edison says it can't be done. Live men do not attempt it. Lazy men and criminals try it and fail.
