

"Credit Used, but not Abused, IS CAPITAL THAT NEVER MELTS AWAY."

ANYONE makes a great mistake by abusing their credit, which is done when proper attention is not given to paying accounts and other obligations at the time they are due. If conditions make it impossible to pay debts, in full, when due, satisfactory arrangements should be made for further indulgence.

Good Credit Is Worth more than Money.

It is a great loss when one loses credit. It takes a long time to establish credit--after it is once lost, and sometimes it cannot be regained. Everyone should make a great effort to keep good credit, as it will be needed in the trying times of the future as well as in the trying conditions of the present.

CANNOT FIGHT THE MEMORY

Real Reason Why Contributions to "Conscience Funds" Come in More or Less Regular.

Practically every government in this country, local, state or national, has what is known as a conscience fund. Contributions are continually being received for this fund from unknown sources. They dribble in day after day, sometimes in amounts of a few cents and sometimes in sums of substantial proportions.

Each contribution means that some person has found the memory of dishonesty so troublesome that he goes to considerable trouble to get rid of it. Of course, those who make restitution are probably far fewer than those who have taken what does not belong to them and escaped detection. The conscience fund is an illustration of the way in which a guilty memory must interfere with efficiency.

A memory which is what a distinguished psychologist has called "ingrowing" takes the mind off other subjects at great expense to the life. The ingrowing memory gradually becomes the central thought of the mind and the mental power is paralyzed. A bad conscience has often cost more their positions, simply because it diverts them from the duties assigned to them. It is usually far less expensive to get rid of a bad conscience than to keep it.

He Spoke the Language.

A daily newspaper tells of the arrival at San Francisco of Franklin Dalt, the eleven-year-old son of a Philippine head-hunter. The boy came in the care of an Episcopal missionary who has spent five years among the tribesmen of Luzon, and is in charge of the youngster's education.

The Filipino had remarked that he knew about the United States. He understood baseball, he said, although he called it "miki tula."
"So you know baseball?" one questioner remarked. "What do you call the umpire?"
"Tell him," the missionary prompted, when the youngster hesitated.
"Thief sometimes, but robber mostly," the boy answered.—Youth's Companion.

Too Dangerous.

Dr. Alexis Carrel, the famous surgeon of the Rockefeller Institute in New York, said the other day of an experiment that he deemed dangerous:

"An experiment of that nature reminds me of the Cinnamon carder. A Cinnamon carder shot a dog by accident. He went to show the owner how it happened, and in doing so shot him. When the police came to arrest him he attempted to show them how he had shot the owner, and in doing so shot a constable. Later, in showing the coroner how he had shot the constable, he shot the coroner."

FALLING HAIR MEANS DANDRUFF IS ACTIVE

Save Your Hair! Get a 25 Cent Bottle of Danderine Right Now—Also Stops Itching Scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application the hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance; an incomparable gloss and softness; but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—growing all over the scalp.

Wilmington dispatch, Oct. 30: The big Seaboard freight engine, No. 133, at 7 a. m. yesterday, in a thick fog quietly rolled up to the open draw in the Hilton bridge and went overboard. As it toppled into the stream it missed a large passing through the draw by a matter of six inches. The locomotive twisted itself from the train, and the 22 box cars came to a halt, with the tender hanging over the water. Engineer Bradshaw and Fireman Galloway both narrowly escaped with their lives.

HE SUFFERED TWENTY-ONE YEARS—FINALLY FOUND RELIEF

Having suffered for twenty-one years with a pain in my side, I finally found relief in Dr. Kilmer's Swamp-Root. Injections of morphine were my only relief for short periods of time. I became so sick that I had to undergo a surgical operation in New Orleans, which benefited me for two years. When the same pain came back one day I was so sick that I gave up hopes of living. A friend advised me to try your Swamp-Root and I at once commenced using it. The first bottle did me so much good that I purchased two more bottles. I am now on my second bottle and am feeling like a new woman. I passed a gravel stone as large as a big red bean and several smaller ones. I have not had the least feeling of pain since taking your Swamp Root and I feel it my duty to recommend this great medicine to all suffering humanity. Gratefully yours,
MRS. JOSEPH CONSTANCE,
Rapides Par. Echo, La.
Personally appeared before me, this 15th day of July, 1911, Mrs. Joseph Constance, who subscribed the above statement and made oath that the same is true in substance and in fact.
