## WILL STAND BY RIGHTS

**N. W. Note Warns Germany That Further Violations of American Rights on High Seas Will be Regarded as Unfriendly—In Nature of Final Statement—Note Goes Forward Today.**

Washington Dispatch, July 21.

President Wilson and Secretary Lansing conferring at the White House tonight completed the new note to Germany warning her that the repetition of a disaster such as was visited upon the Lusitania and other violations of American rights on the high seas resulting in loss of American lives will be regarded as "unfriendly." It will be despatched tomorrow.

The note is in the nature of a final statement by the United States of the interpretation that would be placed by this Government on future transgressions of American rights and repeats that the American Government will leave nothing undone to stand by the position it has previously declared.

Among the points in the new note are:

1.—The assumption by the United States that Germany by declaring her submarine warfare to be a necessary measure against the alleged unlawful acts of her enemies, has admitted that the destruction of unresisting merchantmen without warning is illegal.

2.—German submarine commanders already have proven that they can sink the passengers and crews of vessels and can act in conformity with the laws of humanity in making war on enemy ships.

3.—The United States cannot allow the relations between the belligerents to operate in any way as a derogation of the rights of neutrals and therefore any violation of the principles for which the American Government contends, resulting in a loss of American lives will be viewed as "unfriendly."

4.—The representations which the American Government has made in previous notes for disavowal of the intention to sink the Lusitania with Americans aboard and the request for reparation are reiterated with renewed insistence.

5.—The American Government realizes the unusual and abnormal conditions which the present conflict has created in the conduct of maritime war and is willing to act as an intermediary as between the belligerents to arrange a modus vivendi or any other temporary arrangements which do not involve a surrender by the United States of its rights.

6.—The proposals made by Germany to give immunity to American ships not carrying contraband and to force belligerent ships under the American flag, are rejected, with the emphatic assertion that to accept such suggestion would be to admit Germany's right to set aside the American contention based on fundamental principles in international law—that neutrals may travel anywhere on the high seas on unresisting ships of any nationality even if carrying contraband.

The note is about 1,200 words long. While nowhere in it is there any direct intimation of the course which the United States will pursue in the event of another disaster similar to the Lusitania tragedy, there are emphatic statements throughout the communication pointing out that the discussion of the principles involved has been virtually concluded and that future conduct of German submarine commanders will determine the responsibility for the continuance of friendly relations between the two countries.

The statement that future transgressions will be regarded as "unfriendly" is taken in diplomatic usage to preface a break in friendly relations unless reparation and disavowal is forthcoming. President Wilson, it is understood, has considered fully and at length the construction which may be placed on the implications of the note and is prepared to deal with any new situation that may arise. He is hopeful and confident, however, it is said, that Germany having already modified to a great extent the practice of her submarine commanders, will now take such precautions as seem necessary to prevent any action that would endanger friendly relations with the United States.

From 6 o'clock this morning until late tonight the President with the exception of a few hours spent in recreation, was at work on a copy of the note. Secretary Lansing, who had drafted it, worked on the original and took it to the President tonight with several changes. The president agreed with Mr. Lansing's suggestions and tomorrow the document will be finally revised in phraseology before starting on its way to Berlin.

## OPENING SALE JULY 29

**Farmers' Tobacco Warehouse of Lumberton Will Have Its Opening Sale Thursday of Next Week—Prospects Encouraging—Mr. Bransford Expects to Make Lumberton Market One of Best in State.**

The Farmers' Tobacco Warehouse of Lumberton will have its opening sale Thursday, July 29. L. O. Bransford & Co. will have charge of the house, and Mr. E. O. Bransford, the man who made the Mullins, S. C., tobacco market, will be on the floor to look after the interests of the tobacco growers who bring tobacco here. Mr. Bransford has spent some time in the tobacco-growing section throughout this entire section and has made many friends for the Farmers' Warehouse. He thinks the prospects for a good opening are very encouraging. He thinks also that the prospect for a good crop is bright and is sure that with the good crops of buyers that will be on the Lumberton market he will be able to make the Lumberton market one of the best for the sale of leaf tobacco in the State. Mr. Bransford is well known to many tobacco growers throughout this section, being father of the Mullins market, which, while he was there, was considered one of the very best in the South Carolina belt.

Lumberton has one of the best-lighted warehouses in this section and no doubt will handle quite a bit of the tobacco crop this year. The doors are now open to any farmer wishing to do so can bring his tobacco along and it will be taken good care of till he sees fit to sell.

## WARNING TO AUTOISTS

**Speed Limit Must be Observed—Chief and Recorder on Job—Recorder's Court.**

The following cases have been disposed of in Recorder E. M. Britt's court this week:

Jimmie McDowell and Jno. McMillan, both colored, jumping board bill; judgment suspended on payment of cost.

H. B. Jennings and Ertel Carlyle, breaking speed limit in town with automobiles; submitted and judgment suspended on payment of cost.

The town commissioners, realizing the danger to lives caused by fast auto driving on the streets, have provided the chief of police with a stop watch and instructed him to arrest all caught in the act. Recorder Britt says these were the first speed cases to come up before him, and those who come after these, the first cases, may expect something more than the cost. A word to the automobile drivers should be sufficient.

We are planning to go again before the summer is over. The fishing, boating and bathing are all good, but I think the Elrod crowd enjoyed the bathing most of all.

## DRAWING CLOSER TO WARSAW

**Russians Withdrawing Before Advancing Germans—Severe Fighting in Lublin Region.**

Press Summary, July 22.

The Austro-German forces continue to draw closer to Warsaw while the Germans in the far Northwest are making steady progress toward their objective—the port of Riga.

In the Baltic region the Russians are withdrawing before the advancing Germans. The last entrenchments of the Russians to the west of Shavli, in the province of Kovno, have been captured. In the Kovno district a number of Russian positions, lying one behind the other, have been taken.

Further south, along the Narew, near Novogrod and at Rozan, the German attacks have been successful and the Teutons have captured positions, men and guns. There was, however, a desperate Russian counter-attack on the Bridgehead position of Rozan-Pultusk-Novo Georgievsk to the north of Warsaw, but this according to Berlin, failed with heavy casualties and a loss of a thousand prisoners.

Just to the west of the Polish Capital, the Germans heavily reinforced, have driven the Russians further eastward toward Warsaw from the Blonie-Grojec line; southeast of the Capital, the army of General von Woyrsch has advanced to the bridgehead positions south of the great fortress of Ivang. A Russian port near Wladislawa, Poland, are in progress for the adjoining positions.

Probably the most severe fighting anywhere around the eastern line is between the Vistula and Bug rivers and in the Lublin region. The Russians between the Vistula and the Bug again have thrown down the gauge of battle to Field Marshal von Mackensen's army, while in the Lublin district Austro-Hungarian troops under Archduke Joseph Ferdinand are meeting with strong opposition.

Very heavy fighting is in progress on the Austro-Italian frontier, the center of the struggle being around Gorizia. The Austrian War office tells of the capture of Monte San Michele by the Italians but adds that the Austrian reserves were brought up and they regained the heights.

There have been heavy losses on both sides, and the full force of Austrian resistance has evidently been brought into play.

## TOBACCO MARKET OPENS

**Fairmont Market Opened With About 100,000 Pounds of the Weed on 3 Warehouse Floors—Managers Pleased.**

The Fairmont tobacco market opened today with something like 100,000 pounds of the "weed" on the floors of the three warehouses there. Prices ranged from 1 to 8 cents per pound. There was not much tobacco on the floors except primings. While the farmers were not so well pleased with the prices on the opening day, it is thought generally that when all the stronger companies place buyers on the market the price will get better. The managers of the warehouses were well pleased with the amount of tobacco brought in, and had they not advised the farmers to wait till after the 28th inst. to sell no doubt the opening would have been a record-breaker so far as pounds go. The managers of the warehouses at Fairmont think that the farmers who have good tobacco will receive a fair price this season.

—Mr. E. E. Page went Tuesday to LaGrange to visit his daughter, Edna, who, as stated in The Robesonian, has been confined to the home of her mother there for some time with typhoid fever. She has about recovered and it is expected that she will return home at an early date.

Taylor, who also lives out East Lumberton way, was in town this morning with some excellent cantaloupes and left a couple of good ones at the home of the editor. If there is anything the editor and his family like better than a muskmelon, a tomato and a cantaloupe it is more of them, so it is needless to say that these things were highly appreciated.

**Good Rain—Electric Lights Put Out of Commission.**

During the wind, rain and electric storm which visited this section Tuesday afternoon quite a number of electric lights were burned out in the northern part of town. Tuesday's rain will mean much to the corn crop in Robeson county, as well as other crops. With it the rain brought colder weather to take the place of the extreme hot wave that had held on well for several days.
