USE "CASCARETS" FOR LIVER AND BOWELS WHEN CONSTIPATED

When Bilious, Headachy, Sick, for Sour Stomach, Bad Breath, Bad Colds Get a 10-cent box.

Your Liver, Stomach and Bowels and you will surely feel great by morning. You men and women who have headache, coated tongue, a bad cold, are bilious, nervous, upset, bothered with a sick, gassy, disordered stomach, or have backache and feel all worn out. Are you keeping your bowels clean with Cascarets—or merely forcing a passageway every few days with salts, cathartic pills or castor oil?

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels.

Remember, a Cascaret tonight will straighten you out by morning. A 10-cent box from your druggist means healthy bowel action; a clear head and cheerfulness for months. Don't forget the children.

AEROPLANE MAIL ROUTES

Plans Made and Mail-Aviators Could be Used in Case of War.

The work of planning and mapping the first aeroplane mail routes to be instituted by the United States Postoffice Department has been completed, according to Albert Bond Lambert, St. Louis aviator and balloon enthusiast, and ranking captain of the United States Aviation Corps, says a dispatch to the New York Times. Two routes of 60 miles each have been planned, one entirely in Missouri and the other taking in parts of both Missouri and Illinois. The inter-State route will start at Perdue, Mo., cross the Mississippi river to Gold Eagle and Brussels, Ill., detour westward to Beechville, on the Illinois shore, and thence back to Perdue. The Missouri route will cross a country without railways.

This plan, fathered by Postmaster General Burleson, now awaits congressional appropriation to put it into effect. The service is to be a peg upon which to hang aerial preparedness for war. It is planned to place in the government service between 200 and 300 aeroplanes in a short time after the aerial mail routes are started. The aviators will be trained by the government; all will be listed in the Aviation Reserve Corps and must serve in case of war.

It is planned to establish aerial mail routes in the Middle West, the West, and the East. A call to the colors would bring these men, trained to fly under all topographical and weather conditions, into the service of the country. The men are to be shifted from aerial routes to aerial routes in order to give them this experience.

Congress, according to Captain Lambert, will be asked for \$5,000,000 for the furtherance of these plans. The money is to be used in building up the aviation corps of the National Guard and extending national aerial preparedness in general. The aviators will carry the mails in peace and when not engaged in maneuvers.

A MONUMENTAL PROPOSITION

Daughters of Confederacy Propose to Convert Face of Stone Mountain in Georgia Into a Great Confederate Monument.

Charlotte Observer.

The Observer hopes the Daughters of the Confederacy will succeed in the proposition to transform the face of Stone Mountain, near Atlanta, into a great Confederate monument. Last week's issue of The Literary Digest copied from The Atlanta Constitution details of what may be considered the most daring departure in memorial work yet conceived. The proposition is to hew the mountain on the fact of the mountain, a unique geological structure, in itself a single, huge boulder with a perpendicular face 1,000 feet in height. The prospective plan is to transform this solid stone into a hall with columns hewn from the face without any resort to the builder's method of placing stone on stone. The facade will have three colossal figures, the central one being Gen. Robert E. Lee, who will be flanked by "Stonewall" Jackson and Josephus E. Johnston. Two wings of an army in action will come from the east and west, behind the two figures, making a splendid array of horse-and-foot-soldiers, exhibiting all the struggle, anguish, and death of battle. The curtain formed by the mountain is 3,000 feet across and over 1,000 in height, and on this will be depicted the story. The property, formerly owned by Mr. Sam Venable, has been donated to the Daughters of the Confederacy, and they have enlisted the services of Gutzon Borglum, the sculptor. His idea is to make the figures from 35 to 50 feet, and he is quite safe in the assertion that such a memorial "would stand alone in monumental work in the world." It would cost \$2,000,000 and Borglum says electrical machinery of the most modern type would have to be requisitioned, "the workmen hanging in steel cages from the brow of the cliff." As to the plans for raising the money, Borglum says each State in return for a column in the temple dedicated to it will be asked to subscribe \$25,000. The United States Government will be asked to donate a large sum to make a national park at the foot of the mountain. One man in New York has volunteered to subscribe \$10,000 and to find nine other men to do the same. The Daughters of the Confederacy, with subscriptions already in hand, are to undertake the completion of the sum. The Observer would throw out no hint calculated to jeopardize the success of this monumental Georgia plan, but somebody is sure to suggest that as this State has a Stone Mountain almost similar to that in Georgia, we might get a sculptor of our own and give to posterity a twin to the Georgia monument.

Herman Rider, former treasurer of the Democratic national committee and publisher of the New York States Zeitung, died of kidney trouble at his home in New York Monday. He was 65 years old. Mr. Rider was one of the most conspicuous German-American citizens of the United States in the newspaper publishing business and in politics.

HO, FOR CAROLINA!

Healthy Old Age Brings Happiness

Simple Remedy Promotes Health By Overcoming Tendency to Constipation

Advancing years impair the action of the vital organs. Old age should be the period of greatest happiness, but good health is necessary. Constipation should not be tolerated—it is often the direct cause of ill health. Headache, belching, biliousness, bloating, drowsiness after eating and other symptoms of constipation can be readily relieved by the use of a simple laxative compound sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin. Mr. J. H. Bristol, 1412 Geddes Ave., Ann Arbor, Mich., who is 83 years old, says "Dr. Caldwell's Syrup Pepsin is the best remedy I ever used for constipation and I always have a bottle of it in the house to use when I feel the need of it; it never disappoints."

Mr. J. H. Bristol

Dr. Caldwell's Syrup Pepsin is a mild laxative preparation, positive in its effect, acting easily and naturally without griping or other pain or discomfort. For over a quarter of a century it has been the standard household remedy in thousands of homes. Druggists everywhere sell it for fifty cents a bottle. A trial bottle of Dr. Caldwell's Syrup Pepsin can be obtained, free of charge, by writing to Dr. W. B. Caldwell, 454 Washington St., Monticello, Ill.

WHEREIN NORTH CAROLINA LEADS ALL THE STATES.

Greensboro News.

North Carolina leads all the States in the number of cotton mills and factories; in the amount of raw cotton consumed; and in the manufacture of chewing and smoking tobacco.

Our State ranks below Massachusetts alone in the value of manufactured cotton products. In the number of spindles, the State is outranked by Massachusetts and South Carolina.

North Carolina ranks second in lumber, timber and wood-working establishments.

North Carolina is the best developed industrial State in the South, in number of plants, in variety of manufactures, in the distribution of capital employed, and in the use of home-produced raw material.

Our rank in the census year in the old South, 13 States including Oklahoma, was first in the number of establishments, first in the number of persons engaged, first in primary horsepower employed, first in total electric power used, first in number of females over 16 and children under 16 engaged, first in the value of cotton mill products, first in furniture making and in wood-working industries. We are second in total horsepower used, second in total capital employed, second in the value added by manufacture, second in the number of producing spindles, and fifth in the total value of manufactured products.

Wisconsin on 8,555,000 acres produces crops worth \$135,000,000, but North Carolina on 5,737,000 acres produces crops worth \$128,000,000; which is to say, on an average of one-third smaller, we produce crop values nearly as great.

These facts and figures are compiled from the 1910 census reports for the North Carolina club, by M. H. Randolph of Mecklenburg. A proud exhibit in the main. The University News Letter adds that the corn crop of the State was worth \$5,560,000 more than Wisconsin's crop. The corn growing records of our corn club boys and demonstration farmers cannot be equalled in Wisconsin with any kind of high-bred seed or any kind of cultivation.

"Wisconsin's leading crop is hay, and her ten-year average is 1.49 tons per acre; but North Carolina's ten-year average is 1.38 tons per acre, even with the trifling attention we give to this crop.

"When we really try out the hay possibilities of our soils and seasons, we raise from five to six tons per acre, as eight farmers have done this year in Forsyth, Rowan and Wilkes.

"Wisconsin in 1910 had 4 million fawns on her farms more than we had in North Carolina; but in North Carolina we raised from our poultry stock nearly 5 million fowls more than Wisconsin raised and sold nearly a million more."

Heavy, impure blood makes a muddy, pimply complexion, headaches, nausea, indigestion. Thin blood makes you weak, pale and sickly. For pure blood, sound digestion, use Burdock Blood Bitters, \$1.00 at all stores.

HOW TO AVOID PNEUMONIA

Principles of Right Living Highly Recommended.

Bulletin State Board of Health.

"I am an old man and much afraid of pneumonia. How can I avoid this disease this winter?"

Reply: Pneumonia is a germ disease and is usually brought on by the lodgment of pneumococcus germs in the membranous tissues of the throat or lungs. If a person is well and strong these germs are not likely to hurt him seriously. A slight cold may be the result. But if he is run down, dissipated, or if he in any way has a weak constitution, his chances are not so slight.

It is not difficult to guard against pneumonia if one will avoid unreasonable exposure and at the same time will practice the rules of personal hygiene or right living.

Working too hard or excessive exercise with extreme exposure is a common factor in preparing the way for pneumonia.

Overeating, particularly if there is an excess of meat in the diet, is another thing which often injures the body and lowers its vital resistance to disease.

Alcohol, in whiskey, patent medicines or otherwise, is one of the most powerful allies of the pneumonia germ and even moderate drinkers show a much higher death rate from this disease than abstainers do.

But bad air is, of all bad influences, perhaps the most important in its effect on colds and pneumonia. People who live much in the open air, who never close the windows of their sleeping rooms in winter, and who bathe daily, almost never catch colds, or if they do, the colds are slight ones and do not run into pneumonia.

WINSTON-SALEM MAN SAVED FROM DEATH

J. E. Erwin Says Wonderful Remedy Brought Him Astounding Relief

J. E. Erwin of Winston-Salem, N. C., was for a long time the victim of serious disorders of the stomach. He tried all kinds of treatment and had many doctors.

One day he took a dose of Mayr's Wonderful Remedy and was astonished at the results. The help he sought had come. He wrote:

"I am satisfied through personal use of the life-saving powers of your Wonderful Remedy. You have saved my life. I could have lived but a few weeks more had it not been for your remedy. I am inclosing a list of friend sufferers who ought to have some of your remedy."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

People who use Peruna

Mrs. T. Frech, R. R. 1, Hickory Point, Tenn., writes: "I am happy to tell you that I am cured of catarrh. Having been afflicted with catarrh and stomach trouble for seven years, and after having tried four different doctors, who only relieved me for a little while, I gave up all hope of being cured. I was induced to try Peruna, and to my great surprise I am now entirely well. My health never was better."

FOR INDIGESTION

Mrs. W. R. Whitehead, R. R. 1, Pryor, Oklahoma, writes: "I am happy to tell you that I keep free from my old stomach trouble; feel no catarrhal symptoms at all. I am able to do my work, eat and drink what I want, and rejoice to know that I found a sure cure in your valuable medicine. I think it saved my life. By beginning in time with Peruna I was cured sound and well."

Are Strong and Happy

The Peruna Company, Columbus, Ohio. Those who object to liquid medicines can now procure Peruna in tablet form.
