family virtues.

said he, "when disease will be considcred a disgrace and the cause of illness will have to be personally accounted for. In other words, God is ne longer going to be blamed for; sickness when it is simply the result of our ignorance, indifference or wrong way of living."

Our Wealth in Forest Products.

University News Letter. At the North Carolina Club session the other night Mr. J. H. Lassiter of Northampton county briefly detail-ed the forest wealth of the State as follows:

Nearly twenty million acres of * woodland, containing 430 billion board . feet of standing timber. In which . particular North Carolina ranks . among the first four States of the . Union.

An annual timber cut of 4 billion board . feet. Lumber and timber products . worth \$34,000,000 a year, ranking . next to cotton and tobacco manufacture as a source of annual wealth.

Our farm wood-lot products, mainly firewood, were worth \$11,000,000 * in . in the census year; in • which particular North Carolina cutranked every other State in the • Union.

The annual firewood cut is some 5.720,060 cords per year, equal to three billion feel of lumber; which easily accounts of the fact that nowas ever known to freeze to body death in North Carolina.

We have 33,000 saw mills, 117 fur. niture and refrigerator factories, 138 * carriage and wagon works, 12 car and general construction shops. If . we count the lumber and timber in- * dustries, they employed 44,000 people and turned out products worth \$50,- * 000,000 in the census year.

Our own wood-working establishments consume nearly a third of our lumber a diimber products, cr around \$11,000,000 worth of them annually.

For a mild, easy action of the * bowels try Doan's Regulet's a mod- * ern laxative. 25c at all stores.

How to Prevent Croup

It may be a surprise to you to learn that in many cases croup can be prevented. Mrs. H. M. Johns, Elida, Ohio, relates her ex.perience as follows: "My little boy is subject to croup. During the past winter I kept a bottle of Chamberlain's Cough Remedy in the house, and when he began having that croupy cough I would give him one or two doses of it and it would break the attack. I like it better for children than any other cought medicine because chil. dren take it willingly, and it is safe and reliable." Obtainable everywhere

BARGAIN IN REAL ESTATE

THE ROBESONIAN THURSDAY, NOVEMBER 4, 1915

Fine Tract of Land Near Fairmont Offered for Sale at Attractive Price -Another 960.Acre Tract-Cotton Mill and Bank Stocks.

The A. K. J. W. Company of Lumberton is offering for sale a piece of real estate near Fairmont which will be of interest to any one who may be interested in the purchase of some fine land at a reasonable price. The property is located two and one half miles south of Fairmont. Two public roads run through it. The tract contains 300 acres 100 being under cultivation. It is excellent tobacco land and grows fine cotton. Will make bale cotton to the acre. The tract of land can be bought as a whole or in part. There are dwellings and out house on property. Land adjoining this, two years ago, sold for \$75 the acre. This can be had for about half that amount. If this land is not sold within the next few weeks ar-

rangements will be made to take it off the market and then it cannot be had for \$60 the acre. This is a fine poportunity for the man who has a little money to invest in real estate. The property can be had on easy terms.

This company has something interesting in a 900-acre tract of land. It also has something interesting in cotton mill and bank stocks. It will be well for the man who wants to buy something in real estate or stocks or who has something to sell to com. municate with The A. K. J. Company, Lumberton, N. C. w ady

They said to have been implicated by Flores.

noon hour, and it is remarkable to cerations. relate, we are told by an eye wit-

ness that the people took great interest in these exercises and heard hem gladly. The Ministers' Union also had an exhibit in the floral hall -tracts and Bibles to sell at actus cost. Did you ever hear of such a thing at a fair in North Carolina before? It is an innovation, with a moral up lift that is commendable, and we desire to call it to the attention of our thousands of readers as something refreshingly unique. Catch the moral, invigorating breez-iness of it? All honor to Caldwell!

Her example should electrify the State. The fair was not devoid of attractions along educatioal lines and innocent amusements. A great people have pulled off a great fair -great in aims; accomplishments in industry and agricultural pursuits, and an interesting uplift.

Price-Fixing Fixed

Statesville Landmark. The attempt to fix prices and prevent rate cutting, which is a form of trust in restrain of trade, is more common than is generally supposed. A recent instance in Charlotte: A local garage had been buying gasoline from the Gulf Refining Company at, 15 1.2 cents wholesale. The prevailing retail price was 17 1-2 cents. This particular garage cut the retail price to 16 1-2 cents. Other garages complained and the intimation was that they would cease to buy gasoline from the Gulf company unless the price-cutter was disciplined. The Gulf company notified the of-

fending garage that unless it put the retail price back to 17 1-2 they would charge it that figure for gasoline wholesale, thus forcing it to sell at 17 1-2 without profit. The garage folks got busy with lawyers and no. tified the Gulf company to go ahead. Fannie Fulmore, Paul Hines, Miss Mora Herring, Miss Annie Hinson, ing and got off their high horse. The garage was notified that it could

> Not only does the State law prohibit price-fixing by manufacturers and wholesale concerns but the Feder al law also. Only a few days ago the Federal court permanently enjoined the Kellogg company of Battle Creek, Mich., from fixing the price of its products.

Distress in the Stomach There are many people who have a distress in the stomach after meals. gan taking Chamberlain's Tablets. Obtainable everywhere.

WE DO JOB PRINTING.

PELLAGRA TESTS

lests Said to Prove Theory Correct That Disease is Caused by Unbalanced Diet.

Jackson, Miss., Dispatch, Nov. 1.

Twelve convicts at the Rankin State farm, seven of whom were serving life sentences, were pardoned by Governor Brewer today as a reward for having risked their lives in what is said by public health officers to have been a successful experiment to icarn the cause of pellagra. Dr. Joscph Goldberger, of the United States Health Service, said today that the tests had proved the correciness of his theory that the disease is caused by an unbalanced diet and that he is convinced it can be cured by a balanced ration.

The experiment was begun February 15 with 12 prisoners, each of whom was promised a pardon if he would strictly follow the diet Dr. Goldberger prescribed. The diet ex. cluded milk, fresh lean meat, eggs, peas and beans. A diagnosis today by Dr. Goldberger and four Jackson physicians showed, it was said, that six of the prisoners had developed pellagra in a pronounced form and that two others showed symptoms of the disease. They will be placed unoer treatment with a balanced raticn, Governor Brewer having urged them to remain at the prison to be nursed back to health.

Cotton Seed Oil Ice Cream Textile Manufacturer.

Strange things are happening these days. Chemistry is developing such heretofore unheard of products that one is in a constant state of surprise. The latest food product to be sprung onto an unsuspected public is cotton seed oil ice cream.

Think of it! Even the greatest of American delicacies has at last come to pay its

tribute to King Cotton. It is claimed by food authorities that cotton seed oil ice cream has been secretly on the market for three years and so popular has it become that it promises to be made and sold openly.

The oil is so scientifically blended with the milk that a delicious cream of exceptional quality and flavor is, said to result. The oil is so wholesome and nutritious that it is declar. ed by many to not come under the head of an adulterant in connection with ice cream. When properly re-fined, it is claimed to be an aid to digestion; although the pure food law will quickly interfere with any extensive selling of it as a genuine milk cream.

Made Over Again

Mrs. Jennie Miner, Davidson, Ind., writes: "I can truthfully say Foley They are so mild in acer used. anish constipation, indigestion, bil. iousness, sick headache. Sold everywhere.
