BIG BADEN AND WHITNEY PLANTS SOLD

Aluminum Co. of America Buys Properties at Narrows of Yadkin and Will Resume Development. Charlotte Observer.

Perhaps the biggest single deal ever negotiated in North Carolina property is that which has just been concluded whereby the Southern Aluminum Company has transferred title to its Baden and Whitney holding to the Aluminum Company of America, with headquarters in Pittsburgh, Pa., the amount involved in the transaction, it is understood, approximating \$10,000,000. The negotiations were concluded at a conference participated in by officials of the French Syndicate and the Aluminum Company of America at the Ritz Carlton hotel in New York on Saturday, October 23, and definite information is just transpiring. It is stated that the development work will move rapidly ahead and that the plans of the original designers will be carried out with only very slight modifications. The outstanding feature of this announcement is that the several thousand employes formerly given work on this development will be returned just as soon as the details of transfer can be consummated and arrangements perfected for the resumption of operations. This will probably require several weeks and maybe a month but it will be forthcoming within the very near future. The announcement of this transfer and the information that work will be resumed within a short time is one of the most important to the business and commercial interests of this section that has been made in a long time. The Aluminum Company of America is a monster corporation with big plants at Massena, N. Y., Pittsburgh and various other places throughout the country. The Tennessee plant is the one that is nearest to the latest acquisition of the company.

The work at Baden and Whitney was undertaken several years ago when the French Syndicate acquired the holdings of the original Whitney company, then owned by Pittsburgh interests. The plans of the original company were changed and a new development mapped out, the power site being located nearer the foot of the narrows of the Yadkin river and a great aluminum plant being proposed for Baden the new town to be built. The money was provided by French bankers and was moving splendidly ahead when the great war came on. A magnificent little city had been almost finished, the immense buildings to house the

THE WEARY WAY

Daily Becoming Less Wearisome to Many in Lumberton. With a back that aches all day, With rest disturbed at night, Annoying urinary disorders, 'Tis a weary way, indeed. Doan's Kidney Pills are especially for kidney trouble. Are endorsed by Lumberton citizens. Joseph Prevatt, retired farmer, 400 Third St. Lumberton, says: "I used to be bothered a great deal by sharp pains through my back and at times I was laid up for several days. Mornings I could hardly get out of bed, my back felt so lame and stiff. Hearing Doan's Kidney Pills highly recommended, I got a box at McMillan & Sen's Drug Store. They relieved me from the first; my back became stronger and my kidneys acted regularly. Since then I have always taken Doan's Kidney Pills whenever I have noticed that my kidneys have not been acting just right and a few doses is all I need."

Price, 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Prevatt had. Foster-Milburn Co., Props., Buffalo, N. Y.

aluminum works, of steel, concrete and the very best material, were well on their way to completion and the great hydro-electric development where approximately 100,000 of electrical horsepower was to be generated, was being vigorously prosecuted. Just at this moment, the work had to be suspended on account of the convulsion abroad in which France was so deeply involved. There were conferences at which the arrangements were perfected for the holding in suspense of the work and this has been the status ever since. No active work has been prosecuted since the war broke out save such as was necessary to prevent any depreciation of the property.

Fayetteville dispatch, 1st: Revenue Officers Smith and Tomlinson and Deputy Sheriff Monaghan this afternoon raided a moonshine still near Spout Springs, north of Fayetteville. Several men about the plant were off. One negro advanced on Tomlinson and was in the act of branding him with a large lightwood knot when another officer shot the negro in the back on the right side, inflicting a dangerous wound from which he may die. The officers captured a still of one hundred gallons capacity and three gallons of whiskey and brought the still and negro to Fayetteville. The negro was placed in a hospital.

Beware of Cheap Substitutes
In these days of keen competition it is important that the public should see that they get Chamberlain's Cough Remedy and not take substitutes sold for the sake of extra profit. Chamberlain's Cough Remedy has stood the test and been approved for more than forty years. Obtainable everywhere.

ALLENTON NEWS NOTES

School Begins—Plant Less Cotton and More Foodstuffs—Bountiful Crop of Potatoes—Good Crop of Corn—Butters Lumber Co. Starts Work—Everybody Should Take The Robesonian—Personal.

Correspondence of The Robesonian. Allenton, Nov. 2—School opened at Antioch yesterday with Miss Gussie Cameron and Miss Ethel Covington as teachers.

Everybody seems to be busy picking cotton. They are in a rush to get it out and get it on the market while the price is up. People are making ready to plant more cotton than ever before another year. But that is where they are making a great mistake. They should plant less cotton and more corn, peas and potatoes than ever before.

Glad to report Mr. J. A. Taylor, who was taken sick Sunday night, able to be out again.—Mr. I. F. Taylor and family spent Sunday at the Jennings cotton mill visiting relatives.

According to all reports there must be a bountiful potato crop this year. A certain man in this community stated the other day that he only dug a row about 50 or 75 yards long and got a whole peck of potatoes. That's what I call digging them some. If he has many rows and they come like that he will get a bushel.

Mr. George Smith of East Lumberton has accepted a position with Mr. Arella Smith—Miss Effie Phillips and Miss Bertha Phillips of the Globe Swamp section were visitors at the home of Mr. J. F. Taylor Sunday.

Rev. W. R. Davis filled his regular appointment at Antioch Sunday. Mr. Johnnie Baxley of Chadbourne came over Saturday to spend a few days visiting Mr. W. F. Baxley.—Mr. Frank McLean of Lumberton spent Sunday night at the home of Mr. J. A. Taylor.

People are having fine weather to gather their crops which most of them are making use of. There must be a good crop of corn, from the cornshuckings there has been in this community for the past three or four weeks. I know those chickens have been faring bad during this time. To hear tell of so many corn shuckings indicates that the panic must be about over, which I hope it is.

The Butters Lumber Co. has started up its logging again for the first time in several months, which means that there will be work for a good many men to do.

Everybody should take The Robesonian. It gives more news than any other paper in the county. Once any one ever takes it it is hard for him to get along without it; in fact, I don't understand how he does get along without it. CASEY JONES.

GIRLS! HAVE WAVY, THICK, GLOSSY HAIR FREE FROM DANDRUFF

Save Your Hair! Double Its Beauty In a Few Moments—Try This!

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots fashish, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scaggy or too oily, get a 25-cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?

SMYRNA NEWS NOTES

School Begins—Wedding Expected—Mary Had a Piece of Gum—Personal

Correspondence of The Robesonian. Smyrna (Lumberton, R. 4), Nov. 2—Our school opened yesterday with Miss Lucy Stephens of near Fairmont as principal and Miss Dora McCormick of Rowland assistant.

Mr. C. L. Lamb spent last Sunday visiting his aunt Mrs. John Calk down on Big swamp.—Mr. Dave Cox spent Saturday night visiting friends and relatives of Lumberton, route 1.—Messrs. Edmund Rowan and S. D. Lamb spent last Tuesday at Hamer, S. C., on business.—Mr. and Mrs. J. R. M'White and two children, Wilma and Jess Willard, of Lumberton, route 1, spent last Saturday night and Sunday visiting in this community.—Messrs. Francis M'White of Lumberton, route 6, and Henry Mc Natt of Maxton were pleasant callers here Sunday p. m.

It was reported that there was to be a wedding pulled off somewhere near here last Sunday, but it did not happen; but it may be expected at any time.

Mary had a piece of gum. She chewed it loud and slow. And every place Mary went. The gum was sure to go. It followed her to school one day. Which was against the rule; The teacher took it away from her. And chewed it after school.
