SUMMARY OF THE WAR NEWS

United States Demands Prompt Action From Vienna—Greece's Attitude Remains Unknown—News From the Various Fronts.

The United States has demanded from Austria-Hungary a disavowal of the sinking by one of that Government's submarine boats of the Italian steamer Ancona, the punishment of the commander of the submarine and an indemnity for the American citizens killed or injured. British and French forces in southeastern Serbia are withdrawing successfully in the face of fierce Bulgarian attacks and have repulsed several of the attacks in rear-guard actions according to Paris. Berlin, however, says the Entente forces have suffered a decisive defeat and are retreating toward and over the Greek frontier. The British official communication admits casualties aggregating 1,500 and the loss of eight field guns in the retreat before overwhelming numbers of Bulgarians. Greece's attitude toward Entente troops if they are compelled to re-enter Greek territory is unknown. A dispatch from Saloniki, however, says the Greek Premier has informed the Entente Ministers that Greece is disposed to make every concession not incompatible with her sovereignty and the neutrality of the country. Meanwhile, fresh contingents of British troops have been landed at Saloniki.

In the northwest, along the Albanian frontier, and in Montenegro the Teutonic Allies continue to harass the Serbians and Montenegrins. In Montenegro and the capture of 6,000 prisoners and 40 Serb guns are reported in the Austrian official communication. At the other battle fronts the greater part of the fighting is being done by the artillery, with an occasional air raid.

Light and Water Improvements Delayed

There has been a hitch in the sale of light and water bonds of the town of Lumberton in the sum of \$25,000—\$15,000 for changing over the town light plant to the A. C. system to take current from the Yadkin River Power Co. and \$10,000 for a filter plant—those who proposed to purchase the bonds claiming that it will take a special act of the Legislature to allow the town to increase its indebtedness to the extent proposed. The town officials are working on the problem and it is expected that temporary arrangements may be made whereby the proposed improvements may be made in the near future. Meanwhile, through no fault of the town officials, the work of changing over to the alternating current system and installing a water filter will be delayed much longer than was expected when the bonds were voted.

Superior Court.

Only two jury trials were completed after the report of the court proceedings published Thursday were written before court adjourned for the week Friday afternoon. These were Locke McMillan vs. V. C. S. Ry. Co., judgment for plaintiff; Luke Galbreth vs. Jno. Galbreth, judgment for plaintiff.

Court opened up this morning about 10 o'clock and the case in re will of the late Miss Athesia Carlisle is being tried. There is something like \$30,000 involved in this case and the trial will last all day if not longer. Judge H. W. Whedbee, the judge presiding, spent the week end at his home in Greenville.

4,196 Pounds Seed Cotton On 1 1/4 Acres—30 Bales On 32 1/4 Acres

The farmers say this has not been a good year for growing cotton, but nevertheless Mr. L. H. Caldwell of Lumberton, one of the leading merchants and biggest farmers in the county, made 4,196 pounds of seed cotton on 1 1/4 acres. This turned out 1400 pounds of lint cotton. Not only did one acre of Mr. Caldwell's land turn out a good yield of cotton. On 23 1/4 acres he made 30 bales. The seed used were the Mexican Big Bolls. Mr. Caldwell had some of the seed on exhibition at the Farm Products, Live Stock and Poultry Exhibit recently held in Lumberton.

Cutting Down Fertilizer Bill.

Mr. F. A. Faulk of route 1 from Fairmont, who was among the callers at the Robesonian office Thursday of last week, told about cutting his fertilizer down from 9 1/2 tons in 1914 to 2 1/2 this year and says he made just as good a crop as ever. He says he didn't use any fertilizer of any kind under his corn and made a bumper crop. He declares he is tired of working for the fertilizer people and will buy but very little commercial fertilizer next year. However, he will use more home-made fertilizer next year.

Mail Christmas Packages Early

Postmaster D. D. French asks the Robesonian to urge patrons of the postoffice to mail Christmas packages as early as possible in order that they may be sure to reach their destination in due time. The rush is already on at the postoffice, and the earlier you get your packages ready and the more securely you fasten them the better it will be. Bear this in mind and don't wait till the last moment and then expect the same service that can be given now.

COTTON AND COTTON SEED

Middling cotton is selling on the local market today for 11 1/2 cents the pound; strict middling 11 3/4. Seed, 65 cents the bushel.

WILL REPLACE BUILDINGS

Colored School Taught by Rev. J. H. Hayswood Will be Provided With Buildings on Larger and Better Scale to Replace Those Recently Burned.

Robesonian readers are familiar with the loss sustained recently by the colored school taught by Rev. J. H. Hayswood and will be glad to learn that the buildings will be replaced on a larger and better scale. The following letter explains itself:

Pittsburg, Pa., Dec. 8, 1915.
"Mr. J. P. Russell,
Lumberton Chamber of Commerce,
Lumberton, N. C.

"Dear Sir:
"I am requested by the Board of Missions for Freedmen of the Presbyterian Church in the U. S. A., of which I am the Corresponding Secretary and Treasurer, to express to you and to the other members of the Lumberton Chamber of Commerce the great pleasure it gave us to receive a copy of the action adopted by your honorable body, on the occasion of the burning of the buildings connected with the school under our care in your town, of which Rev. J. H. Hayswood was the principal.

We were especially gratified to learn that the school has been so conducted as to win and earn the confidence of the best people of Lumberton in the honesty, integrity and efficiency of those having the school in charge, and we greatly appreciate the sympathy expressed for Rev. J. H. Hayswood and his family, in connection with the great loss which they have been so suddenly and completely.

Thank the good white friends of your community for the free will contribution they have already made toward the re-establishment of our school. This has had much to do with our decision to continue our work in your community, and at no distant date to replace the burned buildings on a larger and better scale.

"Thanking you again for the copy of the action of the Lumberton Chamber of Commerce, I remain,

Yours gratefully and sincerely,
"E. P. COWAN"

Grantham Brothers, who operate drug stores at Dunn, St. Pauls and Red Springs, have bought from Mr. T. A. McNeill, Jr., the stock and fixtures of the McDonald Drug Co. Work will be begun at once regarding the building, occupied by this company, Elm and Fourth streets. A new plate glass front, set in the corner, will be put in and the floor will be lowered.

Mr. P. R. Hamlet, a registered pharmacist who has been in charge of the McDonald Drug Co. for some time and who was made receiver, will work for the new company. Mr. J. I. Grantham, who has been at St. Pauls, will have charge of the store here.

FARMERS' UNION MEETING

Last Meeting for the Year Will be Held in Lumberton Dec. 15

The Robeson Division of the Farmers' Union will hold the last meeting for the year in the court house here Wednesday of this week. At this meeting officers will be elected for the ensuing year and other matters of importance will be considered. All members of the Union, whether delegates or not, are urged to attend this, the most important meeting of the year. The meeting will open at 10:30 a. m. The Union has been worth much to the agricultural class in Robeson and there is room for much more good to be accomplished by proper co-operation.

Lawyer Johnson of Course Had Nothing to Do With Alleged Frame-Up.

In Thursday's Robesonian mention was made of a strange trial before Recorder E. M. Britt Monday night of last week when one L. J. Lowrey of Pageland, S. C., blew into Lumberton and submitted to cursing and abusing Prof. J. F. Love on the streets some time ago. It was stated in that article that Lowrey submitted through his attorney, Mr. T. L. Johnson. Since a great many people seem to think this trial was merely a frame-up, as Prof. Love says Chief of Police H. H. Redfean is the man who assaulted him, it is proper to state that Mr. Johnson says he never saw or heard of Lowrey until perhaps five minutes before the trial, when Lowrey came to his office and employed him and that if there was a frame-up some one else was responsible for it, that he never counseled or knew of it. It never occurred to him that any one would suppose he was printing that Mr. Johnson was acting in the matter except in good faith, and The Robesonian does not believe now that any one so believes. But to make the matter entirely clear this statement is made. If the trial was a frame-up it was just as much a frame-up on Mr. Johnson as it was on the public.

Godwin Interested in Rural Credits, Also System for Warehousing Cotton.

Washington Cor. Charlotte Observer. Congressman Godwin of the sixth district today said he is greatly interested in seeing systems adopted for warehousing cotton and for rural credits at this session of Congress, two measures he considers of indispensable value to rural sections. Rural credits would be the salvation of the South, he said. He thinks it inconsistent that there should be no warehousing system for cotton while provisions have been made for so many other crops.

CHRISTMAS SAVINGS

\$5,000 Distributed By National Bank of Lumberton Saturday to Members of Christmas Savings Club.

Five thousand dollars was the amount of money turned loose in Lumberton Friday night by the National Bank of Lumberton. This was the amount paid out by the bank to members of the Christmas savings club. There were many wearing smiles hereabouts Saturday because of the fact that they had received a check for money they had saved by a little each week since last Christmas. By joining a savings club and saving a small amount each week one will receive a nice check just before Christmas. Almost like a present. This bank will open another club Monday, December 20. The First National Bank has also started a Christmas saving department.

Mushroom City of Hopewell, Va., Completely Destroyed by Fire

Hopewell, Va., Dispatch, Dec. 9. This mushroom town of 25,000 people, grown up since last summer with the great new gun cotton plant of the Dupont Powder Company, was completely destroyed by a fire which started in a restaurant and did property damage estimated at from one to three million dollars. The Dupont works outside of the settlement was undamaged, but was once seriously threatened. Villages A and B near Hopewell, built to house the families of married employees of the factory, also escaped.

Scenes of wild disorder accompanied the fire and citizens lynched a negro for looting. There was no loss of life otherwise and only a few minor injuries were reported.

Martial Law was Proclaimed

to-night with the arrival of six militia companies, rushed from Richmond by order of Governor Stuart. The thousands of homeless men, women and children had been sent to Petersburg and Richmond, but many men remained to guard what little property they had been able to save.

The fire was said to have been caused by the overturning of an oil stove, though there were rumors that it had been incendiary. These rumors first were given credence in many quarters because of the arrest last night at the gun cotton factory of a man whom factory officials said had attempted to put a charge of nitroglycerin in one of the heater houses and had been under surveillance for several days.

State Asks Payment of Claims of War of 1812

Washington Cor., 9th, Charlotte Observer.

After 100 years an effort will be made before Congress to secure for North Carolina payment of certain expenses incurred by the State in fitting out and furnishing troops for the War of 1812. Congressman Robert N. Page will introduce a bill tomorrow calling for an audit of the claim. The amount due is supposed to be from \$150,000 to \$200,000.

When troops were called for that war money was advanced by the States for equipping them, and at various times they have presented claims to the Federal Government and received payment. It is understood North Carolina's claim never has been presented. South Carolina was the last State which received payment, her claim being met 15 years ago. Maryland's claim was paid 50 years ago. Interest will not be allowed.

France Violates American Rights

Washington Dispatch, 11th. The State Department announced today the stopping and searching of the vessels of the New York and Porto Rico Line by the French cruiser Decourtes would be made subject of diplomatic representations to France. The Department received official advice today from San Juan of the incidents.

The note will contend that removal of citizens of any nation from an American vessel on the high seas is without legal justification. It will assert as was done a year ago in a protest to France in the case of August Pionchik that the men removed were not embodied "in the armed forces of the enemy" in the sense of that term in established international law.

Mr. and Mrs. C. R. Townsend and daughter Miss Violet, returned Thursday night from Charlotte where they spent several days. While in Charlotte Mrs. Townsend was taken ill with a severe cold and was taken to the Presbyterian hospital, where she remained till she started home. Her condition is greatly improved, to the delight of her many friends.

11,161,000 BALES COTTON

Government's Final Estimate—Small Crop Worth About \$78,000,000 More Than Last Year's Great Crop

Washington Dispatch, Dec. 10. The 1915 cotton crop amounts to 5,338,588,000 pounds, exclusive of linters, and is equivalent to 11,161,000 500-pound bales, the Department of Agriculture announced today in its final estimate of the season.

That is 2,300,000,000 pounds less than last year's crop. The value of the lint this year, however, is approximately \$78,000,000 more than last year's.

Cotton was being sold by farmers on December 1 at 11.3 cents a pound, while last year on that date they were getting 6.8 a pound. At the higher price this year the crop is worth \$603,260,000, while last year's lint was worth \$525,264,000.

Wants Mr. Caldwell to Tell How He Did It

In a recent issue of The Robesonian a news item appeared saying that Mr. L. H. Caldwell of Lumberton made 112 bushels of fine Irish potatoes on one acre after an oat crop. This interesting story was copied by papers throughout the land and recently Mr. Caldwell received a letter from Mr. L. A. Niven, editor of Southern Farming, published in Atlanta, Ga. in which he says: "I was very much interested in reading recently about the good yield of Irish potatoes you made the past season." Mr. Niven is so much interested in this report that he offers to pay Mr. Caldwell for an article for his paper, telling all about his methods of growing them.

New Railroad for Swain County

The State chartered last week the Alaska Valley Railroad Company, having its home office in Bryson City. The corporation has for its special purpose the construction and operation of a railroad to extend from Bryson City, on the Murphy branch of the Southern, to the Falls, on the Alaska Creek, a distance of 12 miles. The road will be entirely in Swain county. The capital is \$150,000 authorized, and \$12,000 subscribed, with the understanding that the paid-in capital will be brought up to \$60,000 soon after the work begins. The stock is in shares of \$10 each.

Plenty to Live On

"I have not got much money, but I'm glad to say I have got plenty of wheat to make my flour and corn to feed my stock and family for twelve months and plenty of meat, vegetables, etc., to last me a year," was the way a farmer put it up to this reporter Saturday. That is the life and who has more right to be happy than that man?

A social meeting of the local camp of the Woodmen of the World was held Thursday evening. A big oyster supper was given by State Senator Geo. B. McLeod, who was also orator of the evening, several other members and visitors making short talks. About 65 were present and the evening was one of enjoyment.

Lumberton graded school boys 40 or 50 strong marched down Elm street Friday night cheering for the graded school, Supt. R. E. Sentelle and Principal J. L. Love. The boys took this method of dispelling in no uncertain terms any mistaken idea that any one might have gotten from recent unpleasant events that they are not loyal to their school and teachers. The boys are standing where the majority of the best people in Lumberton are standing—squarely with the graded school faculty.

A party of Wilmington people went to Washington Thursday to get the War Department to establish an army training camp at Southport.
