ALCOHOL AND PNEUMONIA

The United States Public Health Service brands strong drink as the most efficient ally of pneumonia. It declares that alcohol is the handmaiden of the disease which produces ten per cent of the deaths in the United States. This is no exaggeration. We have known for a long time that indulgence in alcoholic li-

quors lowers the individual vitality, and that the man who drinks is peculiarly susceptible to pneumonia. The United States Public Health Service is a conservative body. It does not engage in alarmist propaganda. In following out the line of its official duties it has brought forcefully to the general public a fact which will bear endless repetition. The liberal and continuous user of alcoholic drinks will do well to heed this warning, particularly at this season of the year when the gruesome death toll from pneumonia is being doubled.

Keep Your Bowels Regular. As everyone knows, the bowels are the sewerage system of the body, and it is of the greatest importance that they move once each day. If your bowels become constipated, take a dose of Chamberlain's Tablets just after supper and they will correct the disorder. Obtainable everywhere.

The Court of Last Resort. Around the stove of the cross roads grocery is the real court of last resort, for it finally over-rules all others. Chamberlain's Cough Remedy has been brought before this court in almost every cross roads grocery in this country, and has always received a favorable verdict. It is in the country where man expects to receive full value for his money that this remedy is most appreciated. Obtainable everywhere.
