State Board of Elections Names County Boards—Rules on Senatorial Candidates and on Expense—State Board Will Meet in Raleigh June 6 and Get Presidential Vote by Wire

The State Board of Elections met in Raleigh Saturday for the purpose of making certain regulations in regard to the holding of primaries, the canvassing of the vote, and appointing election boards for the 100 counties of the State.

As regards candidates for the State Senate, the board ruled that when a senatorial district comprises a single county the candidates shall file their notices and statements of expenses as all other county officers are required to do. When the district is composed of two or more counties, the candidate for the Senate will run only in the county entitled to name the candidate. If there is dispute as to which county is entitled to name the candidate, then candidates shall run in the whole district and notices and statements of money spent in each county shall be filed as required of other county officers.

The board also decided to meet in Raleigh again June 6 to canvass the vote for presidential candidates voted on in the primaries. The county boards will be required to canvass the votes for President and Vice President first and wire the results to the State board.

The board passed resolutions regretting the loss of services of Secretary J. B. Underwood of Fayetteville, who retired because he has been appointed postmaster at Fayetteville. W. J. Davis, Republican of the board from Henderson, retired because of ill health and like resolutions were passed relative to his retirement.

Another resolution that will interest all candidates was one that candidates must report in their expense accounts all of the money that they or their friends have spent for them, whether the money was spent before or after the said candidates file notices of candidacy with the State Board of Election.

Three men were named to constitute the boards of elections in every county, two Democrats and one Republican. The following boards were appointed for Robeson and some other counties in this section of the State, the two first named being Democrats and the third a Republican:

VETERANS REUNION

26th Annual Reunion Will be Held in Birmingham May 16, 17 and 18. Maj. Gen. James I. Metts, commander of the North Carolina Division of the United Confederate Veterans, has issued general orders pertaining to the 26th reunion of the veterans which will take place in Birmingham, Ala., May 16, 17 and 18, and which many Wilmington and North Carolina veterans are expected to attend.

It is stated in the order that the railroads will give the usual rate of one cent per mile to all persons, whether veterans or other visitors, who may attend the reunion. The local agents will advise as to the fare from each station. This is the third time the citizens of Birmingham have had the pleasure of entertaining the men who wore the gray during the conflict.

No camp will have a vote or voice in the meetings of the reunion unless their annual dues are paid before the first of April and each veteran who has not paid up is urged to send his per capita to Col. H. A. London, at Pittsboro, N. C.

Details of the arrangements for free entertainment, for horses, etc., will be given out by the various committees in Birmingham later.

Godwin Will Devote Month of May to Campaigning. Washington Dispatch.

Congressman Hannibal L. Godwin, who has five or six candidates working actively in his district to defeat his renomination does not expect to be able to get to his district to lay his own claims before his folks until about the first of May.

He will go to his district then, however, unless conditions in Congress are such as to make his presence here an absolute necessity and campaign right up until the primary on June 3.

"I expect them to go all through the district," said Mr. Godwin today, "making four or five speeches in each county."

"CASCARETS" BEST IF HEADACHY, BILIOUS, SICK, CONSTIPATED

Best for Liver and Bowels, Bad Breath, Bad Colds, Sour Stomach

Get a 10-cent box. Sick headache, biliousness, coated tongue, head and nose clogged up with a cold—always trace this to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach. Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache. Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet, breath right, complexion rosy and your liver and bowels regular for months.

INDIAN MASS MEETING AT PEMBROKE APRIL 15

Indians Requested to Meet and Draw Up Plans for the Erection of a Suitable Monument to the Memory of the Late Col. Hamilton McMillan

Correspondence of The Robesonian. The Indians of every township of Robeson county are requested to meet or send a committee to represent them at a meeting to be held at the Normal school building, Pembroke, Saturday, April 15. The purpose of the meeting will be to draw up plans for the erection of a suitable monument to the memory of our late friend and benefactor, Col. Hamilton McMillan.

It is hoped that the Indians of the county will be well represented on that day.

One Small Notice Exhausted the Supply

Seed all gone. A week ago Monday in The Robesonian an item was published to the effect that Senator F. M. Simmons had sent a quantity of vegetable seed for distribution among its subscribers. Many folks came in person to get a supply and numerous were the requests that came through the mail for the seed. The calls have been so numerous that all who have not already called are too late. When a thing is advertised in The Robesonian, it moves. The last package was called for Monday, exacted one week from the day the notice was published.

NOT ENOUGH CHILDREN

ever receive the proper balance of food to sufficiently nourish both body and brain during the growing period when nature's demands are greater than in mature life. This is shown in so many pale faces, lean bodies, frequent colds, and lack of ambition.

For all such children we say with unmistakable earnestness: They need Scott's Emulsion, and need it now. It possesses in concentrated form the very food elements to enrich their blood. It changes weakness to strength; it makes them sturdy and strong. No alcohol.

Facts

GET the facts on the operating cost before you buy any automobile. Find out the truth before—not after. And don't be satisfied with hearsay or a salesman's claims. The price of gasoline is high; so is oil and there is sure to be an increase in the cost of all tires.

So, what you want is the car that will give you most miles per gallon of gasoline, per gallon of oil and per set of tires.

Here are the facts proved by the Maxwell stock touring car that recently set the World's Motor Non-Stop Record:

Maxwell World's Non-Stop Record Facts

Miles without a motor stop.....	22,023
Average miles per day (44 days).....	500.6
Miles per gallon of gasoline.....	21.88
Miles per gallon of oil.....	400
Average miles per tire.....	9,871

Remember that this was a Non-Stop Endurance Record—in order to prove that the Maxwell car was exceedingly sturdy, reliable and trouble proof.

No attempt was made or could be made to save gasoline, oil or tires. So these figures merely indicate what would be possible under ordinary driving conditions.

Right now we have a Maxwell we can deliver to you, and if you don't want to pay cash, make a deposit and pay the balance as you use the car. *But don't put it off.* We know the Maxwell factory can't get half enough freight cars to carry their doubled output. Later on we may not be able to supply you. But we can NOW. Better phone us for a demonstration today.

FERTILIZER

The best you can get is what you want, and while there is no potash to be obtained at prices that would justify farmers paying, you get a small amount of potash in all mixtures made by us without the cost. There is from one-half to three-fourths of one per cent of potash in our 8-4 and 9-3 mixtures, and we also give in these mixtures 12 per cent lime, which is so highly recommended by the Agricultural Department. The prices for these mixtures are the same as others that have no potash and lime.

In addition to these regular mixtures, we are making 6-4, which is recommended by the State Agricultural Department for cotton.

We are manufacturing a top dresser that will meet the needs this season. Owing to the scarcity of Nitrate of Soda, you will need to get the next best top dresses at a reasonable price. This is our 1916 Top Dresser, 3 per cent Phosphoric Acid, 8 per cent Ammonia.

Ask your dealer to furnish you these mixtures for making your 1916 crop.
