Special Collection Sunday for New Church at East Lumberton

The opening service will be held in the new Methodist church at East Lumberton the third Sunday in May. It is expected that the building will be completed and paid for by that time, when the church will be dedicated. Rev. E. M. Eure of Red Springs will preach the dedicatory sermon and Mr. Geo. F. Brietz of Selma will make an address. Mr. Brietz is well remembered here, having formerly been superintendent of the Dresden cotton mill. Mr. Brietz was the first to make a contribution towards building the church. A special collection will be taken next Sunday afternoon at the regular Sunday school hour, at which time it is hoped enough money will be contributed to pay the balance due on the building. All who feel disposed to do so are requested to bring or send in their contributions at that time. It will be necessary for a few friends to the cause to send in as much as \$5 and \$10. All who possibly can do so are urged to attend the Sunday school next Sunday afternoon. Rev. N. L. Seabolt, pastor of the church, who has spent so much time and energy in building the church, will be glad to acknowledge receipt of any amount sent in.

Reliability

OUR absolute faith in the Maxwell car is due to two reasons: First, we have known that the Maxwell Company uses nothing in the entire car but the very best that money can buy. We have known that the steel is scientifically heat treated, that the car is built under the supervision of able engineers, that every car is rigidly tested many times before it leaves the factory.

Second, we have known that the big and well established company behind the car is building for the future, that they value a satisfied owner above everything else.

Now that the Maxwell has set the World's Motor Non-Stop Mileage Record, by travelling continuously for 44 days and nights—averaging 500 miles per day—you will understand the benefits you personally may derive from the Maxwell policy. Did you ever hear of any car going 22,000 miles without once stopping the engine, without any repairs or readjustments, with only one gallon of gasoline to every 22 miles?

There is no reason why you shouldn't have a reliable, serviceable and economical Maxwell car. The first cost is low, the operating cost is low and our pay-as-you-ride plan makes the purchase easy for everyone.

Let us see you about this now, before our allotment is exhausted.
