

REDOLENT THINGS FROM RED SPRINGS

Does Anybody Enjoy the Sunrise?—Cause of Malaria—Germany and the South—How is Your Grass and Rain?—President Wilson a Remarkable Man

Red Springs, July 17—The infantile paralysis is beginning to paralyze New York. All children under 12 years are subject to it, although there are cases of older people who have been attacked with the disease.

Does anybody enjoy the early sunrise? People in town don't get up soon enough and those in the country get up soon enough but are too busy preparing for the day's work to appreciate the glories of a sunrise and are too tired in the evening to care anything about its setting.

We thought we had located the cause of malaria until another fellow comes along and says it is caused by the biting of a certain kind of mosquito called the anopholes. He describes it as a small delicate creature that stands on his hind legs when he bites and gets in his work between sunset and sunrise.

We are sometimes surprised at the persistency with which Germany looks to final success when all indications point out her final collapse. Yet such was the belief of the Southern people in the final success of our Confederacy, that even after Gen. Lee had surrendered at Appomattox, men of his army returning home from the surrender and stopping at homes for a night's lodging, were thought to be deserters; folks would not believe that Gen' Lee had surrendered.

Instead of accosting each other with the usual salutation of "How is your health?" etc., our usual salutation now is "How is your grass?" or "How is your rainfall today?" There was some talk here last week of running a ferry from the railroad crossing to the hotel, but the project was finally abandoned for want of the necessary capital.

We know of several men who have killed themselves by overwork and mental distress, when the use of a little common sense could have saved their lives and prolonged their usefulness. President Wilson is an example of a man who holds himself well in hand and knows how to utilize his forces. We know of no man who has gone through more in the last three years. He has schooled himself to throw off his responsibilities for the time and to take needed recreation and then return to his work with renewed vigor and strength.

That Game Between Pembroke and Saddle Tree To the Editor of The Robesonian: It seems like Saddle Tree and Pembroke ball players cannot agree on the game of ball played on Saddle Tree the other Saturday. I will try to tell to all Robesonian readers just how the game went.

TAKE A VACATION

State Board of Health. It is time to take a vacation. Everybody that works either mentally or physically needs a vacation sometime during the year.

Perhaps you think you can't afford a vacation this year. The fact is, in general you can't afford not to take one. You can't afford not to rest your mind and body and get away from routine work.

Perhaps you have not thought what a break-down or spell of sickness would cost you. The old adage, "A stitch in time saves nine," is applicable to our health as to our clothes.

You may not be able to afford an expensive trip to the seashore or to the mountains but you can afford a rest and a change of environment for at least a few days.

A few important points not to be overlooked in taking your vacation are:

First, go where your health will not be in jeopardy. Stay at no place where there are flies or mosquitoes.

Second, know that wherever you go there are sanitary means for the disposing of sewage. Third, know that the food served you is not fly-infected and that the milk is clean.

Fourth, know that your drinking water is pure. Fifth, be vaccinated against typhoid fever before leaving home, thereby reducing your chance of contracting typhoid fever 90 or 100 per cent.

A few don't will perhaps be in place before making the start. Don't take too much baggage. Don't take any cares or worries. Don't exercise too strenuously at first.

Don't eat injudiciously. Don't spend too much money. Don't forget that rest is what you are there for and that a vacation that does not give you new life and joy into your heart is a failure.
