At their meeting Monday the county commissioners appropriated \$300 for canning club work in Rob-eson this year. This will give a fund of \$600, as a State fund duplicates what the county gives. Miss Nena Rhyne, teacher of domestic science and domestic art at the counside of these streets, and prohibits steps against allied interference with ty Farm-Life School, will devote 2 days of each week to this work, going about over the county and organizing canning clubs in every

community. This is a progressive step that no doubt will mean the saving of thousands of dollars to Robeson county. Mrs. Estelle Smith, county home demonstration agent of Wayne county, appeared before the commissioners in behalf of this work and was largely due to her persuasive

eloquence that the appropriation was made.

Care Necessary in Selecting Cotton Seed for Sowing

Judging from what those who have had cotton ginned this season say, it would be well for the farmers to be particular in selecting seed for sewing next year. Some say all the seed in the early cotton are sprouted, or have made a start to sprout. This was caused by the wet weather in July. It is not thought the late cotton seed will be affected.
