SELECTIVE DRAFT AND VOLUNTEER PLANS

President Insists Upon Selective Draft Plan for Raising Large Army—Opportunity Will be Given for 500,000 Men to Volunteer for Service During the War

Washington Dispatch, Apr. 11. President Wilson, in a conference with Speaker Champ Clark and Majority Leader Kitchin at the Capitol today insisted on the terms of the administration plan for raising a large army on the principle of selective draft. At the same time, it was learned that the War Department virtually had decided on plans under which opportunity would be given for approximately 500,000 men to volunteer for service for the term of the war.

The net result of the new plans would be to make the total National Guard and regular force to be organized first independently of the selective draft plan, approximately 724,000 men, making room for the absorption of half a million volunteers. No attempt to enlist men to accompany this will be made until Congress has acted, and authority is granted to enlist such volunteers for the duration of the war only.

SUPERIOR COURT

County Commissioners Must Pay Overdraft of Chain Gang Fund Out of General County Funds—Court Will Adjourne Today or Tomorrow

The second week of Superior court for the trial of civil cases has been in session since Tuesday. Only two jury trials had been completed up to noon today. These were:

W. O. Edmund vs. L. C. Myers. Case commenced after evidence had been taken.

J. A. McKay vs. A. C. L. Ry. Co. Judgment for plaintiff in the sum of \$60. McKay was suing for damages to a buggy.

The matter as to whether the board of county commissioners or the board of road commissioners should be responsible for the \$9,876.31 the chain gang fund was overdrawn on the first Monday in March was argued before Judge Connor and he ruled that the board of county commissioners should pay the overdraft out of the general county funds.

It is expected that court will adjourn this afternoon or tomorrow.

TO DISCUSS SCHOOL BONDS

Citizens of Ten-Mile-Barker District Will Meet Saturday

A meeting of the citizens of the Ten Mile-Barker school district will be held at the Ten Mile school house Saturday afternoon of this week at 2 o'clock for the purpose of discussing the school house bond election. As has been stated in The Robesonian, an election will be held in that district on May 7 to determine whether or not \$8,000 bonds shall be voted for the purpose of building a new and up-to-date school building. The Ten Mile and Barkers school districts were consolidated several months ago. All the voters in the district are urged to attend the meeting Saturday.

House Will Pass War Finance Bill at Once—Kitchin Gets in Line

It is expected that the House of Congress will pass, not later than Friday night, the administration's war financial program calling for a \$5,000,000,000 bond issue of which \$3,000,000,000 will be used as the basis of loans to the Allies. With the approval of the Ways and Means committee Chairman Kitchin, who has indicated a willingness to push the measure through the House notwithstanding his opposition to the war, introduced the bill yesterday. In order to prevent any possible financial handicap to the military needs of the country through delay in raising the \$1,750,000,000 proposed as the amount to be obtained by taxation, the Ways and Means committee decided to embody in the bond issue authorization to the Secretary of the Treasury to issue as needed \$2,000,000,000 in one-year Treasury notes to anticipate the tax received which will result from the war revenue bill.

Brazil Breaks With Germany

Rio Janeiro Dispatch, April 11. The Brazilian government has handed the German minister his passports. This action was due to the recent destruction of the Brazilian steamer Parana by a German submarine.

It is expected in diplomatic circles here that other South American nations will soon follow the example of Brazil in severing relations with Germany. The Chilean minister is continuing his conferences with Dr. Laura Muller, the Brazilian foreign minister.

Spain will take charge of German interests in Brazil.

Enlisted for Soldiers

Messrs. Ben and Wm. Collins of East Lumberton joined Uncle Sam's army at the local recruiting station Tuesday and left Tuesday afternoon for Raleigh.

Mr. R. E. Medlin of Rockingham joined the army at the local recruiting station yesterday and left for Raleigh. From Raleigh he will be transferred to Cincinnati, Ohio.

American Flag at French Front

Paris Dispatch, April 11. It was decided today that the Lafayette flying squadron, composed of Americans who have distinguished themselves at the front, will change from the French to the American uniform, and hereafter carry the American flag at the French front.

MUNITIONS-LADEN SHIP CAPTURED BY U. S. TORPEDO BOAT DESTROYERS

Ship Was Bound for Mexican West Coast Port—Ship Was Fired Upon When it Attempted to Escape and Then Beached

San Diego, Cal., Dispatch, April 10. A munitions carrying schooner, bound for a Mexican west coast port, was fired upon and captured by two United States torpedo boat destroyers, it was learned tonight from authoritative sources. Five shots were fired at the vessel when it attempted to escape and the ship was then beached. Several thousand rounds of rifle and machine gun munition were taken aboard the destroyers and landed at a Pacific coast port.

It is known that the destroyers have been scouting for a supposed munitions smuggling ship for more than a week. Morday the patrol boats sighted the schooner, which was southbound off the coast of California and following a course inshore. The warships gave chase and when the captain of the schooner saw that capture was inevitable he is reported to have attempted to destroy his vessel. The ammunition was taken off by motor launch from the destroyers. The identity of the captain and crew of the schooner has not been revealed.

SUSPECT LODGED IN JAIL

Suspicious Character Who Gave Several Different Names Was Arrested at Fairmont and Brought to Jail in Lumberton

Henry Billings, alias Henry Windlow, J. H. Winburn—and then some—was arrested at Fairmont Tuesday and is in jail here. The actions of the man, who gave his name different to at least three persons at Fairmont, were suspicious, and he was arrested upon suspicion of being a German spy or of trying to escape the authorities somewhere. After he was arrested he refused to talk. He looks to be about 30 years old and had with him a hack saw and some other tools. He is a foreigner, but his nationality has not been learned.

This man of many aliases was arrested by Chief of Police S. V. Stanley of Fairmont and Sheriff R. E. Lewis, Deputy Sheriff A. H. Prevatt and Rural Policeman Eli Phillips went to Fairmont and brought him to Lumberton Tuesday night. The authorities don't know what to do with the man but are sure he should be held in custody until something is learned about him. He laughs at questions and seems to give any old name that comes into his mind. It is thought that possibly he escaped from the Federal prison at Atlanta some time ago, as he somewhat resembles a picture and description of an escaped convict published in a recent issue of the Atlanta Journal.

Gov. Bickett Appoints Food Commissioner

Raleigh Dispatch, April 11. The first step toward conserving effectively the food supplies of North Carolina was taken late today when Governor T. W. Bickett appointed a food conservation commission and made preliminary plans for a campaign which will organize the hundred counties of the State into a food producing machine. No effort, under the plan, will be made to reduce the money crop, but the most vigorous action will be directed toward the mobilization and utilization of every available acre in the State.

The commission, of which Governor Bickett will be chairman, is composed of Major W. A. Graham, Commissioner of Agriculture; Dr. B. W. Kilford, director of the State Experiment Station; W. C. Riddick, president of the State Agricultural and Engineering College; Dr. H. Q. Alexander, president of the State Farmers' Union, and J. Paul Lucas, president of the State Farmers Convention. "In some of our most populous counties," said Governor Bickett, appointing the commission, "large farms are lying idle for lack of tenants. County chain gangs could rent these and easily produce their own food and feed. Every acre stubble land should be planted to peas and late corn. Every vacant lot in cities and towns should be drafted into the service of the State by making it produce for man and beast."

Civilian Training Camps for Officers to be Established

Washington Dispatch, April 10. Army building plans of the administration are to be supplemented at once by the establishment of civilian training camps for officers. The great need of the war army to be raised will be properly equipped officers and to aid in meeting the demand the War Department has decided to adopt the Plattsburg idea on a nation-wide scale. Civilians desirous of fitting themselves for commissions in the officers reserve corps may apply now to departmental commanders for assignment to them.

Argentina and Costa Rica Pledge Moral Support to U. S.

Washington Dispatch, April 11. Without formally announcing abandonment of their neutrality, two more Latin-American republics, Argentina and Costa Rica, have given assurances of their moral support for the United States in the war against Germany. Argentina, choosing a middle course between those of Brazil and Chile, her sister nations in the influential A. B. C. trio, has notified the State Department that she "recognizes the justice" of this country's stand against German aggression.

KEEP MONEY AT HOME

ALL ROBESONIANS SHOULD TRADE HERE

The Robesonian to put on Trade-at-Home Feature for Next Four Issues in Effort to More Forcefully Impress This Fact on Local People—Brings Expert Here to Carry on Campaign Just Prior to Coming of Campaign Crowd of Big Mail Order House

It is unnecessary for The Robesonian to tell its readers that it favors trading at home, first, last and all the time. This paper has advocated keeping our dollars sticking close to the home base ever since it was established. In season and out "Trade at Home" has been our slogan. That The Robesonian's efforts along this line have not been fruitless is the belief we hold. It is our purpose to continue to keep this slogan before Robeson county people all the time.

It is hardly necessary to take up space here in an endeavor to impress our readers with the fact that the dollar which goes away to the mail order house never comes back. All know that. It is generally known also that the mail order house pays no local taxes, contributes nothing to help maintain local institutions. What the mail order house gets goes down into the mail order house's jeans and there it stays, so far as the local merchant or citizen ever knows. Recently The Robesonian learned that one of the largest mail order houses in the country is planning to bring to Lumberton at an early date a big exhibit of its goods. It is a house which does a large coupon business. It is spending thousands of dollars to advertise, through exhibits and catalogs, its products.

To counteract the influence that such an exhibit might have toward inducing Robeson people to send their money away from home and to forestall as far as possible the advertising campaign that this house expects to put on here, The Robesonian secured the services of Mr. William London, an experienced newspaper man and an expert in handling "Trade-at-Home" advertising, to put on a campaign in Lumberton for the next two weeks. The campaign will consist of a page of "trade-at-home" advertising by local merchants together with editorial and news articles fostering the trade-at-home idea. Mr. London will call on the merchants of the city during the next few days and lay the matter fully before them. We bespeak for him an open ear.

To make this campaign the more interesting a missing-letter contest will be conducted during the two weeks and the winner will receive as a reward a \$5 gold piece. In some of the advertisements in each issue of The Robesonian there will be missing letters. These letters, when located and properly arranged, will form the title, name and country of some prominent military man connected with the European war. The last of the missing letters will not be available until the last issue of the page is published and the prize will go to the first person sending in the correct answer following the appearance of the last page advertisement. The Robesonian believes that the merchants not only of Lumberton but of every town in the county will appreciate the service we are thus trying to render in shutting off the mail order business and impressing the people with the necessity of doing their trading at home.

Lumberton Rifle Club Re-organizes and Prepares for Practice

The Lumberton Rifle club met Monday evening in the commissioners' room at the court house and elected the following officers for the year: president, T. A. McNeill, Jr., succeeding A. T. McLean, who requested that some one else be elected; vice president, R. H. Crichton; secretary, Jno. S. McNeill; treasurer, J. Robt. Prevatt (the two last-named being re-elected); executive officer, C. V. Brown. Six new members were taken in. A resolution was passed directing that a fine of 25 cents be imposed upon each member who fails, without a valid excuse, to attend rifle practice when notified by the executive officer. Messrs. R. H. Crichton, W. W. Davis and F. F. Wetmore were appointed a committee to select a suitable place for range, the location of the present range being unsatisfactory. Secretary McNeill is a member of this committee ex officio. Messrs. J. B. Bowen, Jno. S. McNeill and C. V. Brown were appointed a committee to provide for an indoor range. The tobacco warehouse is considered suitable for this purpose. Messrs. J. B. Bowen and Gerald Pitman and Dr. W. W. Parker were appointed a committee to get a place to drill and a drill master with a view to drilling all who will volunteer for home guard.

BUIE NEWS BATCH

Progress Shown by County Commencement—Scotland Commencement—Personal Mention

Correspondence of The Robesonian. Buie, April 11—The crowd that attended the Robeson county school commencement Friday showed the progress Robeson is making in training and equipping her young men and women in the higher walks of life. We see in the last issue of The Robesonian that East Lumberton won the prize offered by Mr. H. E. Stacy for the school making the best appearance in the parade. Others were good, but no doubt this one made the best appearance.

Miss Vera Britt, daughter of Mr. A. Britt, who was taken to a hospital at Fayetteville last Thursday to be operated on for appendicitis is much improved.—Mr. James McLeod spent Sunday near Maxton.

By chance we happened to be at the Buie county commencement which was held at Raeford March 30. It was a grand success for this small county. Many people were there.

We spent the first of the week in Scotland county, accompanied by Fred Brown and stopped over one night at the home of Dr. and Mrs. Shaw. Dr. Shaw is one of Scotland's foremost doctors and besides owns and operates one of the largest farms in Scotland. From there we went to Laurinburg and had the pleasure of dining there with Mr. and Mrs. James Ray, who used to live in our midst but of late years are making their abode in Laurinburg and getting on nicely.

Mr. R. A. Melvin is adding to his already well-equipped store a new coat of paint which adds much to the appearance.

Mr. H. B. Ashley, Jr., one of Buie's most up-to-date farmers, has purchased a new Ford car. Mr. Willie McKay has also bought one.

The cold weather of Monday night killed out most of the little plants that were up and growing. Hope the fruit is not all killed, as this writer loves huckleberries.

DOWN BOARDMAN WAY

Death of Mr. Geo. W. Kelly—Setting Tobacco Plants—Personal

Correspondence of The Robesonian. Boardman, R. F. D., Apr. 10—The wind today feels more like November than April. We trust, however, that it will not harm the fruit.

Mr. and Mrs. Roy Hester and children, accompanied by Mr. Hester's mother, Mrs. E. T. Hester of Richardson, R. F. D., visited relatives and friends Sunday p. m.—Mr. and Mrs. L. W. Edwards attended the county commencement in Whiteville Friday.

Our hearts were made sad on the 7th when we learned of the death of Mr. Geo. W. Kelly. He was operated on in Hamlet for appendicitis a little more than two weeks before and was seemingly getting on nicely until Wednesday, when he began sinking. The end came about 10 a. m. Saturday. He was a carpenter by trade. He had been a member of the Presbyterian church at Bladenboro for many years. He was in his fortieth year. He is survived by his wife, one daughter, 5 brothers, 4 sisters, and a host of relatives and friends. Interment was made in the family burying ground Sunday at 2 p. m. An unusually large crowd attended.

Our assistant mail carrier, Mr. Charlie Covington, is on duty for a few days this week.

Some few of our farmers have set some tobacco already. Many others intend setting this week if the weather permits.

Easter Egg Hunt at Tolarsville

Correspondence of The Robesonian. Tolarsville, April 12—Miss Lillie Lewis, Surbeam leader, gave the Sunbeam band an egg hunt Tuesday, April 10. There were 20 Sunbeams present. Every Sunbeam seemed to enjoy it fine. Several games were played, each one taking part in it. Then Miss Lillie Lewis, Theresa Broadwell and Cleve Martin hid the eggs. There were 63 eggs hidden. There was one blue egg. The one that found it was to receive a prize. Little Miss Lutie Hall received the prize.

HOME FROM WAR ZONE

Robeson County Man Just Home From Paris and London Says Germany Has No Chance to Starve England

Mr. B. F. McLean of Maxton was a Lumberton visitor Tuesday. Dr. Frank McLean of New York, a son of Mr. McLean, spent last Thursday visiting his father at Maxton. Dr. McLean was on his way back home from Paris, France. He made the trip through the war zone without any mishap. He came by way of Spain and Cuba. Dr. McLean carried a patient to France about the middle of January and was in Europe when Germany declared her ruthless submarine warfare. He spent three weeks in London and three and a half weeks in Paris. Speaking of food conditions in England and France, Dr. McLean told his father that there was no scarcity of food there. The only two things which are liable to give out soon are potatoes and sugar, said Mr. McLean. He also said that Great Britain was building ships faster than they are being destroyed by German submarines. His opinion is that Germany could not starve England with her submarine blockade in 50 years.

Man Murdered and Woman Assaulted in Wilmington Last Night

Neal Walton, a young white man employed as chauffeur by Mr. Lyman Delano, was shot and killed near Bellevue cemetery in East Wilmington last night and his companion, Florence Davidson, a maid in the Delano home, was dragged into the bushes and criminally assaulted, according to her story. She says Walton was shot without warning by a negro man with a mustache and that the negro immediately dragged her into the bushes, later driving her back to the road with the threat that he would kill her if she screamed. She made her escape by jumping to the running board of a passing auto and the negro fired at the auto as it sped away. The negro had not been found when the Wilmington Star printed its story of the affair this morning.

IT IS A CRYING SHAME

Tired Mother Laid Children Down on Sidewalk to Sleep Because There Was No Rest Room

"I think it a great shame that Lumberton has no place for ladies who come to town to rest and lay their little children down to rest," was the remark of a Lumberton lady Friday after seeing how one mother from the country who had brought her three little children to the county commencement had to lay two of them down on the hard pavement to sleep. The woman who had the three children—all of them too small to look out for themselves—sat down on the curbing on the sidewalk of one of the principal streets of the town and held the smallest in her weary arms, while she let the other two take a nap on the hard sidewalk. The Lumberton lady who observed the condition of the visiting lady was almost in a weeping mood when she called this reporter's attention to the scene and he took a look. Much has been said about a rest room for visiting ladies in Lumberton and it seems that something should be done about providing such a place here.

They Throw Kisses at Old Glory

Throwing kisses at the United States flag! Beautiful sight! That was what a number of very small Lumberton girls were seen doing by a Robesonian reporter recently. Little folks who have that sort of feeling for Old Glory have been trained to love their country.

Munitions Plant Wrecked—Women and Children Killed

Chester, Pa., April 10. One hundred and 12 persons most of them women and girls, are known to have lost their lives and 121 were injured by a series of terrific explosions today in the shrapnel building of the Eddystone Ammunition Corporation, at Eddystone, one mile from this city. Many of the injured were mortally hurt and it is feared the final death list will reach 150, while others, probably will be maimed for life.

There was scarcely a fragment of the structure left intact. Fire added to the horror and most of the bodies were so badly charred that identification was impossible.

The cause of the disaster is being investigated. A high official of the company is quoted in a dispatch of the 11th as saying that it was the result of a plot.

Lumberton is Dandy Place for a Munitions Plant

Mr. J. W. H. Fuchs of Wilmington, proprietor of the Lumberton Bargain House, spent Tuesday night in Lumberton on business. Mr. Fuchs thinks Lumberton would be an ideal location for a munitions plant. He thinks also that as a number of plants will probably be built in the near future and that Lumberton has some citizens who have enough pull with the government to get a plant here.
