"RAISE MORE FOODSTUFFS"

This stirring, martial appeal is made to farmers of the South by our President. The Progressive Farmer is the South's leading agricultural weekly and gives better information on diversified crop growing than any other publication. For this reason we have made an arrangement by which every reader of The Robesonian may also receive The Progressive Farmer.

SEND US \$2.50 FOR RENEWAL OR NEW SUBSCRIPTION ONE YEAR EACH FOR THE ROBESONIAN AND THE PROGRESSIVE FARMER

Never has attention been so forcibly directed to agriculture in the South and never have you needed The Progressive Farmer as now. Note:—Orders must be sent to

THE ROBESONIAN

the only twice a week newspaper in Robeson county. It gives all the news twice a week. It is \$2.00 the year and worth it. You can't afford to be without your county paper now.

Send money order, check or cash or call at the office of

THE ROBESONIAN, Lumberton, N. C.

PROSPERITY OF U. S. WILL BE GREATER THAN EVER BEFORE

Ten Billion Dollars to be Spent for Products of American Farms, Mines and Factories—Can't Stop This Prosperity Except by Refusal of People to Support Reasonable Measures of Taxation and to Buy Liberty Bonds

Ten billion dollars to be spent during the coming year by the United States and the Allied governments for the products of American farms, mines and factories, Secretary McAdoo declared in New York Monday night, will bring to the country the greatest prosperity in its history.

"Some people profess apprehension about the future of business," said Mr. McAdoo. "Why gentlemen, prosperity in the next twelve months will be greater than it ever has been in our history. You cannot prevent it if you try. The only thing that could stop prosperity would be the refusal of the people to support the reasonable measures of taxation that are needed, and to buy the bonds of the government."

The Secretary addressed a great mass meeting at Carnegie hall in behalf of the Liberty loan, which, he warned, would succeed as it must succeed only if every one did his duty. He appealed to those who cannot fight on the battle field to supply the means that will enable the government to provide for the soldiers who go to the front.

Bonds Better Than Money

"We have offered this great Liberty Loan," he said. "What does it mean? It means that your government offers you a privilege; it asks you men and women not to give something to your government, but to buy the best investment on earth, the safest thing you can possibly possess, something that is as safe as currency and yet better than currency because currency does not bear interest while these bonds do bear interest at 3 1-2 per cent. It asks you to buy within your means in order that the government may be supplied with the money to properly equip our brave men who have to go upon the field of battle to protect your lives, your liberty and your property."

"Millions of young Americans, with the fire of patriotism in their hearts, are going to respond to their country call on June 5th. When they have been called, our duty is to see that they have everything that is necessary to make the most effective soldiers on earth."

Property Must Bear Burden

"I hear some grumbling about taxation. Is it possible that in this rich country, when our sons are going to the front to give their lives for us, there should be any quibbling about the necessary taxation to take care of them upon the field of battle? While we must not be unfair to property, while we must be scrupulously just in the imposition of taxation and in the treatment of all the economic questions which gain added importance during war time, property must bear its just share of the burden."

If this war continues for another twelve months, it is probable that the total amount of financing that the government will have to do to cover its own expenditures and to extend the necessary credits to the Allied governments will amount to \$10,000,000,000.

It is proposed that only 18 per cent of this colossal sum, namely, \$1,800,000,000, shall be raised by new taxation. When one considers the magnitude of this task and the probable economic effects of the sale of \$8,200,000,000 of bonds within twelve months and the expenditure of the proceeds in the purchase of supplies in this country, it does not seem prudent or wise to provide by new taxation a less amount than \$1,800,000,000.

A Civil War Mistake

"There is always a serious danger of hurtful inflation in war time when such great bond issues must be made. A reasonable amount of wholesome taxation, properly distributed, is the best corrective. The worst mistake made by the Federal government at the outbreak of the Civil war was its failure to impose taxation vigorously and sufficiently. This led to a train of evils, hurtful to the credit of the government, and resulted in unnecessary sacrifices of human life and treasure."

"Every man and woman must get behind these bonds if this issue is to be successful."

Combined Energy Necessary

"We shall not fail if every one does his duty, but I warn you that these great things do not achieve themselves. They can only be achieved through the combined energy, determination and spirit of the American people. It is not enough of an answer to the challenge thrown down to us that we subscribe grudgingly or barely two billion dollars of Liberty bonds. We must oversubscribe this loan. Our answer to the military autocracies of the earth must be that the American people have billions to sacrifice in the cause of liberty and self-government, throughout the world."

Mr. Adoo said that whatever differences there may have been about the war before it happened and there were honest differences of opinion about it, the present is no time to discuss them or to think of them.

LIFT YOUR CORNS OFF WITH FINGERS

Tells how to loosen a tender corn or callus so it lifts off without pain

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poisoning are now told by a Cincinnati authority to use a drug called freezezone, which the moment a few drops are applied to any corn or callus the soreness is relieved and soon the entire corn or callus, root and all, lifts off with the fingers.

Freezone dries the moment it is applied, and simply shrivels the corn or callus without inflaming or even irritating the surrounding tissue or skin. A small bottle of freezone will cost very little at any of the drug stores, but will positively rid one's feet of every hard or soft corn or hardened callus. If your druggist hasn't any freezone he can get it at any wholesale drug house for you.

IRON GIVES YOU THAT GRAND OLD HAPPY FEELING

Be Sure You Take Right Kind of Iron Acid Iron Mineral, Nature's Remedy the Best

DON'T TAKE ALCOHOL IT INJURES KIDNEYS

"I climb into my clothes these mornings with a hearty appetite speeding me to the breakfast table. Your little old nerves, all smoothed out by Acid Iron Mineral, seem to shout their happiness at the return of the old vitality and reserve energy. It is common sense too. When you recall the solid, substantial meals eaten a few years ago and compare them day after day with what we now eat, it is no wonder a fellow begins to get pale around the gills, and sort of loses interest in things."

"A cold drink of 'coke' or dope will now and then put you back for an hour or so, but to take good old medicinal iron in big quantities gives you the 'stay-there' feeling. In Acid Iron Mineral, you get the most iron per dollar. In fact a dollar bottle lasts from two to ten times as long as other and weaker iron remedies which often as not contain alcohol which everyone knows has only a temporary effect and always a dangerous reaction when taken in excessive quantities."

Give Your Blood a Real Cleaning

Start taking a teaspoonful of Acid Iron Mineral (natural iron) after each meal for a week or ten days. Get out in the air and draw in a few great big mouthfuls of ozone, set the alarm for early and see how sound the sleep gets, and how refreshed and full of vim you feel on getting up. Everybody needs iron. Here it is. Non-alcoholic, non-injurious, helpful and beneficial to blood, kidneys, stomach and bladder; it is death to germs, uric acid, and other blood poisons. Begin by phoning or calling at the nearest druggist this very day. A large bottle of acid Iron Mineral will be sent anywhere prepaid upon receipt of one dollar. Ferrodine Chemical Corp., Roanoke, Va.

Your representatives in the Congress of the United States, the men you sent there to speak for you, after having been informed by your President of the issues involved in this supreme contest in the world's history," he said, "declared, by practically unanimous vote, that the rights of the American people had been put in jeopardy by the aggressions of a foreign power."

Every One Owes Fealty to Flag

"It makes no difference by what name that foreign power may be called. The fact that it has committed repeated aggressions upon American rights, that it has subjected this nation to indignities and wrongs which no self-respecting nation could afford to endure, that war has resulted, and that we are in it, means that every citizen, no matter what his birth or origin, owes fealty to the flag."

There are times in the history of every nation when the hand of an unseen power directs things, when individuals are absolutely impotent to control the course of great events.

This is one of those supreme crises. I believe that God has called this nation into this struggle because He had a mighty purpose to serve. Where there is democracy and self-government, nations cannot be hurried into war by the arbitrary will of any individual. We have lived here in the United States alongside Canada, which is practically a great republic because they have self-government, for more than one hundred years, and we have never had to patrol one foot of the three thousand miles of border with an armed soldier. Isn't that a striking example of what it means to have self-government among contiguous peoples?"

"The overshadowing danger to civilization today is the German military autocracy. The Kaiser, with a limitless and lustful ambition unparalleled in history, has set out upon a scheme of universal dominion. In order to win, he has determined that neither the laws of humanity nor the rights of any nation shall stand in the way; that is the reason he has committed these insufferable aggressions upon the American nation."

Why is it that we have not felt sooner the extent of this menace? It is because we have been lulled into a false sense of security by the three thousand miles of water between us and Europe. For a long time that was enough, but modern science and invention have narrowed the Atlantic to such an extent that it is little more today, so far as modern warfare is concerned, than a river."

"Do you know what would happen if Germany should be victorious, as she would be if she could bring France and England to their knees? She would take the entire British and French fleets, release her own great fleet, which has been tied up in the Baltic during the war and combining these with the most destructive submarine fleet on earth—because she has it—she would come here and put the iron heel of conqueror upon your shores. We should have to fall back to the interior, and there is no telling how long it would take to expel the enemy, if we ever did. If we couldn't do it promptly, do you know what would happen to America? We should have to make the most humiliating terms that any great nation ever made to get peace. We should have to pay an indemnity that would represent half the wealth of America, which is \$250,000,000,000 and you would have taxation upon your shoulders to meet that indemnity for centuries to come."

Must First Equip Armies

"The first thing we must do is to raise the money to equip our armies and put them in the field and to extend credit to the great nations of Europe which are co-operating with us. We must give them credit to enable them to purchase here the necessary supplies and munitions of war in order that they may make the soldiers most effective in battle. The more effective we make them, the more we enable them to fight and to fight hard, the more quickly this war will come to an end, and the less

Bank president prefers Buckeye Hulls

Mr. D. W. Gaston, President of the First National Bank, Aiken, S. C., feeds Buckeye Hulls to his steers and milch cows. He says that he expects to continue to use them as he considers them superior to old style hulls. The most successful owners of live stock in every community realize the advantages and economy of feeding

They readily see that Buckeye Hulls, being 100 percent roughage and selling at several dollars per ton less than old style hulls, are much better value. So long as you get more real roughage to the ton and every ton costs less, why should you buy anything but Buckeye Hulls? Get a ton. See how much farther they go and how much money they save you.

To secure the best results and to develop the ensilage odor, wet the hulls thoroughly twelve hours before feeding. It is easy to do this by wetting them down night and morning for the next feeding. If at any time this cannot be done, wet down at least thirty minutes. If you prefer to feed the hulls dry, use only half as much by bulk as of old style hulls.

Book of Mixed Feeds Free
Gives the right formula for every combination of feeds used in the South. Tells how much to feed for fattening, for milk, for fattening, for work. Describes Buckeye Hulls and gives directions for using them properly. Send for your copy to nearest mill.

OFFICERS WANTED FOR SHIPS

Campaign to Recruit and Train 10,000 Men to Officer Ships of New American Merchant Marine

A campaign to recruit and train 10,000 men to officer the ships of the new American merchant marine was announced Monday by the Federal Shipping Board and the Department of Commerce. Henry Howard of Boston, has been appointed director, with offices in the Boston custom house.

The first nautical training school under government direction was opened Monday near Boston. Fourteen similar schools will be established along the Atlantic coast, and later the training system may be extended to the Pacific coast and Great Lakes.

Applicants may be of any age, but must be in good physical condition. Previous nautical experience is desirable and men will be paid "reasonable compensation" during training, which probably will last two months. Graduates must be examined and licensed by the Commerce Department steamboat inspection division, which is now considering certain relaxations of its strict rules governing admission of candidates to nautical service.

An announcement made Monday points out that merchant shippers receive \$350 a month and mates \$250 with additional war bonuses.

"It is thought," said the announcement, "that we can take a man of good understanding and some foundation of nautical knowledge, and make a competent officer of him, in the main essentials, sufficient for practical work. There are many men who have had experience in bailing masters, or who have had practical knowledge in one way or another as regards the sea, who form a mass of material for the schools to draw from. There is no reason why a well qualified man of 50 should not enter the schools."

Co-operate With Farmers in Marketing

Progressive Farmer. Southern business men can show no better brand of patriotism this year than by co-operating to the utmost with farmers in marketing. We believe excellent prices for nearly all staple crops will prevail this fall, but local market gluts, because of unorganized, badly directed selling methods, are always possible. This is the business man's problem as much as it is the farmer's. Ask your merchant and your broker what plans are under way for insuring, so far as possible, fair prices for corn, beans, peanuts, hogs and cattle this fall. If nothing is being done, insist that something be started.
