

Cattle relish the sweet odor of wet Buckeye Hulls

BUCKEYE HULLS, after being wetted down for ten or twelve hours, acquire a taste or odor similar to the succulent ensilage odor that cattle like so well. Simply feed

properly and your stock will like them better than any other roughage. Once they are accustomed to them, they will not be satisfied with anything else.

There is every reason why your cattle should relish Buckeye Hulls. They are all roughage; no lint that is worthless as forage; no dirt, trash or dust.

Other Advantages

Buckeye Hulls cost much less per ton than old style hulls. They take less space in the barn. Buckeye Hulls allow better assimilation of other food. They are sacked—easy to handle. Every pound goes farther. They mix well, when wet, with other forage.

Mr. L. R. Farmer, Louisville, Ga., says: "that he has used no other hulls but Buckeye for the past year and gets good results. Cows have not been bothered with cough since using Buckeye Hulls."

To secure the best results and to develop the ensilage odor, wet the hulls thoroughly twelve hours before feeding. It is easy to do this by wetting them down night and morning for the next feeding. If at any time this cannot be done, wet down at least thirty minutes. If you prefer to feed the hulls dry, use only half as much by bulk as of old style hulls.

Book of Mixed Feeds Free

Gives the right formula for every combination of feeds used in the South. Tells how much to feed for maintenance, for milk, for fattening, for work. Describes Buckeye Hulls and gives directions for using them properly. Send for your copy to the nearest mill.

COMMENT ON VARIOUS MATTERS

(By Snyder)
Drop the "If"
Correspondence of The Robesonian.
Red Springs, July 6—There seems to be a doubt in the minds of the Allies as to their ultimate success when they use the term "if". It is to be understood by the world that they will eventually whip Germany, but when some of the most prominent of the Allies use the word "if" it has a bad effect upon their American friends.

Farmer vs. Loafer
It is hard to determine who has the hardest time in life, the farmer or the loafer. To work all day in the hot sunshine is no easy life, but it is Eden to be compared to the loafer whose only business is to stand around street corners and whittle with a dull knife. It seems that his only object in life is to wait for the mail and get the latest war news. If the train would only hurry up and come sooner, life would not be so burdensome.

Old Richmond Academy Debating Society
The writer came across the other day the minutes of the old Richmond academy debating society and noted how few that were on that roll are now living. The society was organized in 1853 and was a prominent factor in that section. We believe it is still in existence. The school was located near Wagram.

Vance
What a wonderful, unique character was Gov. Vance! Called upon once to make a speech before a crowd of young ladies, he began by saying "O that I were a boy!" He could say things that made the preachers laugh, but if said by you or me they would turn us out of the church. We will hardly ever see his like again.

Poet's Who Were Made
Old Horace was mistaken when he oracularly stated that "Poets nascuntur non fit". He didn't know that there would rise up Drs. Hills, who waited until their four-score years were upon them before they began to write poetry—and good poetry, too. They may have written daggino in their youthful days, but what they are turning out now is of a high order of literature.

Riverton
There is a little place called Riverton on the Lumbee, that if improved and advertised might become a prominent summer resort. Why spend our money at prominent watering places, when with a little co-operation and unity, we might make this place so attractive that it would become a place of general resort.

An Obsolete Word
"Shetosh" is an old Gaelic word that was used when a Scotchman met another Gael when they touched glasses. The word is now obsolete, especially since July 1st.

A History of Robeson Should be Written
Robeson county is considerably over 100 years old, and it seems to me that by this time we should have a history of the county. We have the material, and we have men who are competent to do the work. It would take time and money to do it. The county commissioners should tackle the job. It would be no easy job, but we have the men equal to the occasion, and I hope the commissioners will take the matter under consideration.

So
We were struck the other day by a remark of a gentleman, that "God takes care of us, but most of us serve 'ho devil'".

BEST MEDICINE IN THE WORLD
Pearson Remedy Company,
Burlington, N. C.

Dear Sirs:
For years I have been suffering with stomach trouble and have had doctors tending on me and have tried every kind of medicine that has been recommended to me and some one told me about the Genuine Indian Blood Purifier and I began using it and now I can say that it has put me in the best of health and I can truthfully say that it is the best medicine in the world for me.

McNEILL-WARD

Miss Lillie Ward of Clarkton Becomes Wife of Mr. Malcolm McNeill of Robeson
Bladen Journal, July 5.

Cupid has surprised himself these bright June days in the number of weddings he has manipulated. This was again demonstrated at the lovely home wedding on Wednesday afternoon of Miss Lillie Ward of Clarkton and Mr. Malcolm McNeill of near Lumberton.

The delightful country home in a grove of oaks formed in itself an ideal setting for a June wedding.

As the guests entered they were welcomed by Miss Mary Catherine Ward, handsome in plum-colored silk, Miss Mary Ward of Charlotte, in rose taffeta, combined with georgette crepe, and Mr. John Ward, and were ushered into the parlor. The wedding was simple, there were no attendants. The bride was charming in a silk gray taffeta, combined with georgette crepe and blue taffeta.

The decorations were beautiful. Potted plants, while geraniums, ferns and palms were artistically banked around the room forming a perfect bridal scene. Jars of cape jasmamines were grouped here and there among the green plants. The ceremony was impressively performed by Rev. W. H. Goodman.

Mr. and Mrs. McNeill left in an automobile for the groom's home where a reception was held that evening.

The bride is the attractive daughter of Mrs. Mary J. Ward of Clarkton, and the groom is a prosperous young farmer of Robeson county.

BELLAMY BRIEFS

Crops Are Looking Good and it Looks Like a Bumper Corn Crop—A Quiet Fourth—Social and Personal Correspondence of The Robesonian.

Bellamy, July 4—Crops are looking good in this section. It seems there is going to be a bumper corn crop. Mr. E. O. Freeman and small daughter Eva visited relatives at Hog Swamp Saturday and Sunday. Miss Sallie Barfield visited home folks Sunday.

Mr. and Mrs. J. B. McLean spent a short while at Pembroke Sunday p. m.

Mrs. M. J. Todd and daughter, Miss Ava, are spending some time at Clio, S. C., visiting Mrs. Todd's daughter Mrs. D. C. Quick.

Mr. W. W. Pitman and daughter, Miss Mary, were Lumberton visitors Saturday.

Miss Lillie Belle Shirley visited relatives in this section Saturday night and Sunday.

Wagoner W. S. McLean of Ft. Hamilton, N. Y., arrived home today to spend the 4th with his parents, Mr. and Mrs. J. E. McLean. This is his first visit home since he enlisted in Uncle Sam's army more than two years ago. He will return Saturday.

There was an ice cream supper at the home of Mr. W. W. Pitman Saturday night, which was enjoyed by a number of young people.

The 4th passed off very quietly around here.

British Losses by Submarines
The weekly shipping summary issued in London on the 5th shows that 15 British merchant ships of more than 1,600 tons were sunk and 5 vessels of less than that tonnage. Eleven fishing vessels also were lost. Forecasts that the summary of

ASTOUNDING REPORT FOR LUMBERTON

The wife of a merchant had stomach trouble so bad she could eat nothing but toast, fruit and hot water. Everything else would sour and ferment. ONE SPOONFUL buckthorn bark, glycerine, etc., as mixed in Ad-ler-i-ka benefited her INSTANTLY. Because Adler-i-ka flushes the ENTIRE alimentary tract it relieves ANY CASE constipation, sour stomach or gas and prevents appendicitis. It has QUICKEST action of anything we ever sold. Grantham Bros., druggists.

OAK RIDGE INSTITUTE

OAK RIDGE, N. C.
T. E. WHITAKER, PRESIDENT.

An old-fashioned Southern school dating from 1852. In its long history it has enrolled thousands from the Carolinas and adjoining states. Preparation that opens the way to bigger accomplishments in college, business, and life. 30 acres in campus, athletic grounds, orchards and farms. Modern school buildings, Steam heat and showers. Library. Active literary societies. Healthful, accessible location near Greensboro. More than a thousand feet above sea level. Same, moral influences.

Courses thoroughly covering literature, science, teaching, bookkeeping and shorthand and music. Athletics encouraged. All male teachers. Discipline mild but firm. Costs reasonable. \$300 for the year. Fall session opens September 4, 1917. Write for illustrated catalogue. Address

Oak Ridge Institute,

Oak Ridge, N. C.

DONALDSON MILITARY SCHOOL

offers to boys of character the completest moral, mental, social, and physical development, preparing them for any college or university and equipping them to meet the responsibilities of life.

With its expert instructors, small classes, healthful location, superb equipment, and atmosphere of culture, there is no better school in the South.

Site of 47 acres, with park of 400 acres, athletic field, tennis courts, boathouse, and LAKE one mile long. Rowing, fishing, water sports and all branches of athletics.

Every boy must learn to swim. Plant made up exclusively of modern brick buildings, heated by steam and lighted by electricity; one story brick barracks with hot and cold water in each room. Parents may visit their sons and return in one day. During the past year five Donaldson cadets at West Point and Annapolis. For catalogue, etc., address

LETTER FROM FLORIDA

Lumberton a Well-Lighted Town—Watch Your Drive and Go to the Right—Advantages of Good Roads To the Editor of The Robesonian:

I have thought of writing a short piece for you to publish if you see it not unfit to put in a great paper, as I call The Robesonian. I think it the best of all papers. Guess the reason is because it is from my home town, which I feel proud of.

I spent a short while in and around Lumberton last fall. I had been away from there 23 years and found a great change in Lumberton and surrounding country. I have traveled lots and seen lots of towns. Must say one thing about Lumberton: it is one of the best lit-up towns I have seen to the size, and not many of the larger cities are any better lit up than it is. Tho' I notice one thing that is dangerous and that is, people driving all over the streets. I told my brother Jesse if they did not get some rule to the way and manner they drove in town and even on the public roads it would only be a short while before some one would get hurt. They should all drive on the right side of road or streets and is not half the danger. I see just a few days ago where some lady got hurt by an accident at the iron bridge. Why? Just because the car was being driven on the left side of streets and went to cross over to the right after it was too close to the

bridge. A great many things happen just by not staying on the right side of anything, so always stay on the right side and you are right.

In reading Mr. Fleming's letter it seems he likes good roads. It looks as some do not want good roads, as I see they would not vote to issue bonds to build them on account of high taxes. Gentlemen, let me tell you there is no better sign than notice the taxes in a county. When you see high tax you may know that town is on a boom and is in a prosperous condition. Any man of experience that wants to invest money wants to get on or near good roads. When I came to Orange county, Fla., 10 years ago the roads were just like the old Creek road was between Mt. Elaim church and Bright Stone's place: it was so sandy we could not only pull 1500 lbs. with a pair of good mules. Today we understand but we can pull on the same roads 3000 with one mule. We have 300 miles of brick roads in the county. Land then was worth \$2.50 per acre and today it is worth \$25 to \$50, and lots can't be bought at any price. Why? Because they say "Well, I can't get no other place and have the privileges I have here". He will tell you, "Why, I can stay right home and phone into town and get the doctor if I need him, and it 15 miles and get him in 20 minutes, and I get my groceries delivered at my door." Why can they do this? Just because we have brick roads all over the county. I tell you if you ever have good roads you can't see how you got along without them so long as you did.

E. K. STONE.
Winter Home, Fla.
July 2, 1917.

STATE NEWS
Deputy Sheriff John H. Miller of Iredell county was shot and killed near Mooresville Sunday by Charlie Williams, a negro, when he was attempting to serve a petty warrant on the negro. Williams took the dead officer's pistol and money and fled, but later was captured by officers after a fight in which the negro received several bullet wounds.

HANK AND PETE

HANK SHOWED HIM SOME STARS BY KEN KLING

HANK IS GOIN' FISHING TOMORROW MORNING, AN' HE'S GONE TO BED ALREADY SO'S TO BE SURE, HE'LL GET UP EARLY! GOSH, I'D GIVE TEN DOLLARS TO SEE IT RAIN!!

GEE, THE OLD BOY'S FAST ASLEEP! I'LL GIVE HIM A SCARE AN' TELL HIM THAT IT LOOKS LIKE RAIN - SO HE'LL JUMP UP AN' LOOK OUT OF THE WINDOW!

SAY HANK, WHAT ARE YOU GOING TO SLEEP SO EARLY FOR - THERE'LL BE NO FISHING TOMORROW. IT'S CONNA RAIN!!

HOW DO YOU KNOW IT'S CONNA RAIN, Y' LITTLE SIMP?

I JUST LOOKED AT THE SKY, AN' I CAN'T SEE ANY STARS!!

OH, Y' CAN'T HEY -

WELL, I GUESS YOU SEE A FEW, NOW!!!
