The End of Your Corns

Pain Stops at Once—Corns Lifts Off Clean.

There is nothing in the world like "Gets-It" for corns. Just apply it according to directions, the pain stops at once and then the corn lifts off as clean as a whistle. No fuss, no bother, no danger. "Gets-It," you know, is safe. Millions have used it, more than all other corn remedies combined, and it never fails.

Don't Waste Time "Hollering." "Gets-It" Never Fails. There is no need for you to go through another day of corn agony. But be sure you get "Gets-It." Accept nothing else, for remember, there is positively nothing else as good. "Gets-It" never irritates the flesh, never makes the toe more sore. You can go about as usual with work or play, while "Gets-It," the magic, does all the work. Then the corn peels right off like a banana skin, and leaves the toe as smooth and corn-free as your palm. Never happened before, did it? Guess not. Get a bottle of "Gets-It" today from any drug store, you need pay no more than 25c, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill. Sold in Lumberton and recommended as the world's best corn remedy by Pope Drug Co., J. D. McMillan & Son, and Grantham Bros.

LIFT YOUR CORNS OFF WITH FINGERS

Tells how to loosen a tender corn or callus so it lifts out without pain.

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezone, which the moment a few drops are applied to any corn or callus the soreness is relieved and soon the entire corn or callus, root and all, lifts off with the fingers.

Freezone dries the moment it is applied, and simply shrivels the corn or callus without inflaming or even irritating the surrounding tissue or skin. A small bottle of freezone will cost very little at any of the drug stores, but will positively rid one's feet of every hard or soft corn or hardened callus. If your druggist hasn't any freezone he can get it at any wholesale drug house for you.

G. G. French estate was allowed a rebate of \$10.53, the county's portion on \$1,645 overvaluation of property.

MEMORIES OF MT. PELIER CHURCH (By SNYDER)

Written for The Robesonian.

Mt. Pelier church is next on my list of neighborhood churches that I remember sixty years ago, and that is about the age of this church. This church was formerly a part of the old Bethel congregation and in the parting of the ways left a considerable feeling against this church by the Bethel people, and a little lingering of the old flame still continues. The reason of its organization was to give religious privileges to the negro population, a considerable number of whom were owned by the near-by farmers. It was organized, I think, about the year 1852. It was built by the late Mr. Monroe, who built Bethel and several other churches, and it was said of him that after building the churches he was ready to supply the pulpit, as his three sons studied for the ministry.

The first minister to supply this church was the Rev. Hector McNeill, father of your Judge McNeill. His voice was low and inarticulate, but soft and sweet. One of those novi homines, with a strong voice and abundant manners, came into the neighborhood, and when the colonel and old Mr. Duncan McPhatter, who were both deaf, heard him, they were carried away, and didn't rest until they called him in place of Mr. McNeill, which so infuriated the McNeill faction that they all withdrew their membership and rejoined old Bethel. This left Mountpelier, as you might say, hors de combat.

After this episode, things dragged on slowly. At this time, I remember, there were only five members belonging to the church. Presbytery generally appointed a committee to visit the different churches and examine into their spiritual and financial condition. At that time the church had but one elder, and one of the questions asked, "Are your eldership on speaking terms?" This elder had to admit that he was on friendly terms with himself! Rev. J. P. McPerson was stated supply and after him came Rev. Malcolm McNair. Then Rev. John H. Coble took charge and all the recalcitrants came back to the fold and prosperity reigned. Mr. Coble reorganized it, and in a few years the membership ran to 30 or 40. Then came another calamity, when most of its prominent members moved off for different purposes and left the church flat again. In the meantime a little town sprung up a few miles distant, and as most of its members were from that vicinity they moved the organization over there, and built a nice brick church, but the name Mt. Pelier is still retained.

In passing the old church it is sad to see it vacated and one remembers the many pleasant times under its shady groves. Red Springs, N. C.

30C MINIMUM FOR COTTON

Growers and Market Men Say That is Justified by Price of Manufactured Goods.

New Orleans Dispatch, Oct. 2.

A price of 30 cents a pound to the farmer was agreed upon at a meeting here late today of men interested in marketing and growing cotton in ten Southern States as being justified by the present prices of manufactured cotton products. The price was suggested in an amendment to a resolution adopted just previously which declared against price regulation of cotton by Congress or delegating of this authority to any other body.

Although the amendment, introduced by L. B. Jackson, director of the Georgia bureau of markets, met with some opposition, it was recognized as a compromise and was almost unanimously adopted. Unsuccessful efforts to have the amendment read 35 instead of 30 cents was made by E. W. Dabbs, of Mayesville, S. C., and other leaders in the movement to secure a 30-cent minimum.

Following the advice of John M. Parker, State food administrator, the delegates adopted a resolution providing for the appointment of a committee of seven to confer in Washington with Herbert C. Hoover, Food Administrator, regarding cotton seed prices.

Resolutions were also adopted en-

WHAT CATARRH IS

It has been said that every third person has catarrh in some form.

Science has shown that nasal catarrh often indicates a general weakness of the body; and local treatments in the form of snuffs and vapors do little, if any good.

To correct catarrh you should treat its cause by enriching your blood with the oil-food in Scott's Emulsion which is a medicinal food and a building-tonic, free from alcohol or any harmful drugs. Try it.

Scott & Bowne, Bloomfield, N. J.

dorsing the movement to have bales of cotton standardized throughout the cotton belt by making them of the uniform size of 54 inches long and 27 inches wide.

County Boards Not Thorough Enough.

North Carolinians sent home for physical disability in the second movement of the national army at Camp Jackson total 405 out of 4,681 men, according to a special of the 1st to the Wilmington Star. Mustering officers are not pleased at this, claiming that it indicates lack of thoroughness on the part of county boards. The North Carolina record, however, is the best of the three States, for 233 South Carolinians were rejected out of 1,987, and 140 Florida men out of a total of 1,481.

Catarrhal Cough

Mr. W. S. Brown, R. F. D. No. 4, Box 82, Rogersville, Tennessee, writes:

"I feel it my duty to recommend Peruna to all sufferers of catarrh or cough. In the year 1909, I took a severe case of the la grippe. I then took a bad cough. I had taken all kinds of cough remedies but got no relief. I then decided to try Peruna. I used five bottles. After taking five bottles my cough stopped and my catarrh was cured. My average weight was 115 and now I weigh 148½. Any one suffering with catarrh in any form I will advise them to take Peruna."

Any one Suffering with Catarrh in Any form I will Advise them To take Peruna

Those who object to liquid medicines can procure Peruna Tablets.
