INDIAN WOMAN MURDERED. IF YOU ARE AN AMERICAN CITIZEN YOU **MUST HELP**

By F. M. Fries, State War Savings Chairman.

If you are an an American citizen you are by duty bound to help win the war. It makes no difference where you live or what your work is, if you enjoy the protection and freedom of living and working under the American flag, it is your patriotic duty to defend it in the hour of insult, and to come to its call in th time of need.

That call has come. Old Glory must be defended. The liberty of America is at stake. Uncle Sam is fighting to protect it and has called for your help. You are asked to lend him all the money that you can save and spare that he may have ships, guns and ammunition and may overcome the enemy through superior strength. H Afters to take your money as a loan and pay you four per cent compound interest at the end of four and a half years, and at the

same time return to you the principal.

Should you do this? you hesitate and ask. Is it a good investment? You should be driven out of this country if you did not do it. You should do it willingly and glady, even if you never received a cent of interest. You should do it because you live in free America and enjoy more civil rights than any people on earth. If you lived in Garmany you would do it. You would not only lend you lived in Germany you would do it. You would not only lend your money but most likely it would be taken from you in the form of war taxes, and certainly you would receive no interest for

This week every citizen of this county is going to hear the war-call of his government. He is going to be asked to lend his

war-call of his government. He is going to be asked to lend his money by pledging to buy all the War Savings stamps he can pay for during the remainder of the year. This week every citizen is to make a record for himself and posterity which will show now and in the years to come what he did to support his government when it called in distress. This record is to be filed in the State's archives and will become undisputed history.

What kind of a record are you willing for yours to be? Of course you want a record to which you can point with pride in the years to come. You will want to say to your friends and neighbors and most of all to your children, "I did my best." You will feel proud to say, "it was hard, but I did it and now I am satisfied."

On the other hand, if you do not do your best, if you do not buy your limit of War Savings stamps, the record you make will not represent you fairly and you will not be satisfied with it in the years to come. After the war is over, you will feel none of that keen satisfaction which comes from doing one's full duty even to the point of sacrifice. Nothing but the best on the part of every man and woman in America, when it is a question of this war, will satisfy in the years to come. Anything else will be too small.

Every man and woman in the county is asked to consider well the record he shall make in the War Savings drive this week. Nothing but the best record from every citizen will make the county go "over the top," and we must not stop short of this.

go "over the top," and we must not stop short of this.

Martha Jane Woods Charged With Killing Viola Chavis-Used Shotgun at Close Range-Second Murder of Woman by a Woman in County in a Week on Account of Jealousy.

Martha Jane Woods, Indian, is in jail charged with killing Viola Chavis, also Indian, near Harmony school house in Smith township Thursday night. A shotgun was used at close range and the load entered the Chavis woman's neck, death resulting almost instantly. The murdered woman was around 25 years old and was married. The woman charged with the killing is also married and has three child en. Jealousy is said to have been the cause of the trouble and the two women had been at outs for some time.

A coroner's inquest was held Friday morning and the verdict of tip-jury was that "Viola Chavis, the de-ceased, came to her death from a gunshot wound from a gun in the hands of Martha Jane Woods and it is ordered that she be held for the court with jurisdiction."

This was the second murder in the county in a week where one woman is charged with killing another as a
