

FREE DENTAL WORK.

Summary of Work Done in Robeson Under Direction of County Health Department for 2 Months Ending September 21st.

A 2-months' campaign of free dental work in Robeson under the direction of the county health department closed on the 21st inst. Dr. J. V. Turner of Oxford, who did the work, gives the following summary of the work done:
 Number of places worked, 22; total number of children examined for dental treatment, 1,597.
 Total number of children treated, 416.
 Amount and class of treatment given as follows: amalgam fillings, 177; cement fillings, 198; gutta-percha fillings, 175; siler nitrate fillings, 113; abscesses treated, 10; teeth extracted, 274; teeth cleaned, 716; pyorrhea treated, 53; miscellaneous treatment, 89; children needed nothing done, 40; children unmanageable, 9.
 Total cost (conservative estimate) of work done in private office, \$2,396.50.
 In addition to the operative work mentioned above, there were seventeen lectures given on oral hygiene, and the care of the teeth, etc. Tooth brush drills illustrating the proper technique to be employed in brushing the teeth, were given in conjunction with

the lectures. Literature on the care of the teeth, furnished by the State Board of Health, was freely distributed in the homes.

Oldest Circus in the World.

The oldest circus in the world, and the best today is coming to Lumberton, Tuesday, October 22nd, to present two performances, the equal of which was never seen here before. This is the John Robinson circus. It is on its 93rd annual tour of the American continent. For many years the circus did not visit the east, the territory of the west, Canada and Mexico furnishing its ranging grounds.

The John Robinson circus is the evolution of a diminutive show that started long before the Civil war. It kept pace with the times, however, and today it is larger and grander than ever before. When circuses first started to tour America, the John Robinson circus was the college from which circus folk graduated. Being the first in the field it invented nearly all the odd equipment which makes moving daily a possibility. The John Robinson circus has always prided itself on its menagerie, and today it carries three herds of elephants and the grandest collection of strange and wild animals in America. The performance is presented by the pick of the circus world. On show day tickets will be on sale at the Pope Drug Co., at the same prices charged at the show grounds.

"FOOD BURNED IN MY STOMACH" SAYS S. CAROLINA MAN

Well Known Merchant of Inman Tells of Terrible Suffering And How He Finally Eliminated It.

ADVICE FOR STOMACH SUFFERERS

There are but very few medicines that have any permanently beneficial effect upon real nervous dyspepsia, because most medicines are made to digest your food artificially instead of your stomach doing it. This treatment is wrong. It helps but for the time being and as long as you take it. Nervous dyspepsia and gas is of nervous origin, which inhabits the digestive process, and not a lack of gastric juice. Upon this true medical fact very few medicines are prepared, and one of these is Dreco, the new herb-and-root medicine. Why Dreco helps nervous dyspepsia is easily understood when you remember that the digestive glands in the stomach are operated by nerve force, and Dreco contains natural ingredients which urge these stomach nerves to action. This feature makes Dreco an unusually successful remedy for the permanent relief of gas in the stomach and nervous dyspepsia, where ordinary dyspepsia medicines give but temporary relief after a meal. "Dreco did me lots of good and I'm going to take more of it," declares W. D. Blackwell, the well known merchant of R. F. D. 3, Inman, S. C., in a signed statement. "Food burned in my stomach and I'd have to vomit. Dreco eliminated all this and I'm better all around. I am recommending this excellent medicine to all my friends." Dreco is harmless. It is easy to get, pleasant to take and its effects are sure and permanent. All good drug stores in this section dispense Dreco and it is particularly recommended in Lumberton by leading druggists.

Why Putter With Corns? Use "Gets-It"

Common-Sense, Simple, Never Fails.

You can tear out your corns and suffer, or you can peel off your corns and smile. The joy-peeling way is the "Gets-It" way. It is the only happy, painless way in the world. Two drops

"Get the Drop" on That Corn—Use "Gets-It" and the Corn is a "Goner!"

of "Gets-It" on any corn or callus dries at once. The corn finally loosens off from the toe, so that you can peel it off with your fingers in one piece, painlessly, like peeling a banana. "Great stuff, wish I'd done that before." There's only one corn-peeler—"Gets-It." Toes wrapped up big with tape and bandages, toes squirming from irritating salves, it's all a barbarity. Toes wounded by razors and knives, that's butchery, ridiculous, unnecessary, dangerous. Use "Gets-It," the liberty way—simple, painless, always sure. Take no chances. Get "Gets-It." Don't be insulted by imitations. See that you get "Gets-It." "Gets-It," the guaranteed, money-back corn-remover, the only sure way, costs but a trifle at any drug store. M'd by E. Lawrence & Co., Chicago, Ill.

Sole in Lumberton and recommended as the world's best corn remedy by Pope Drug Co.
