A BOND IN EVERY HOME.

Acting Chairman Lawrence Fires Liberty Loan Workers in Splendid Address—Facts That Hurt Presented—Robeson is Expected to Make Better Record in the Fourth Liberty Loan.

Ring the changes on the unproud record made by North Carolina in general and Robeson county in particular in previous Liberty loan drives; withering with fine scorn the yellow dog who would withhold his hand from buying a Liberty bond now in the hope of being able to buy later at a lower figure; holding aloft as the thing more to be desired than name and fame the purchase by Robeson county people of more than \$600,000 in bonds of the fourth Liberty loan within the next 3 weeks, a goal for the attainment of which a band of faithful women and men must run and not be weary, must work and not faint, must push forward and never falter, Mr. R. C. Lawrence, acting chairman of the fourth Liberty loan committee for Robeson, addressing at the court house Friday morning a goodly number of committeemen from over the county, made such a speech as fired his audience with determination of the "Boon or bust" variety and sent them forth to put Robeson so far over the top in the fourth Liberty loan that generations yet unborn shall be proud of the record.

If all the people of the county could have heard that speech the county's allotment of \$603,500 would have been oversubscribed then and there.

Parkton District Not Represented.
Nine of the 10 districts into which the county has been divided for the fourth Liberty loan were represented by committeemen appointed for the drive which began on the 28th and who were asked to come to this meeting for a conference. Parkton district was the only one not represented. A goodly number of ladies of the women's committee also attended the meeting.

Some Startling Facts.
Mr. Lawrence revealed some startling and unpalatable facts in regard to North Carolina's and Robeson county's records in previous Liberty loans. Leading up to his figures by reference to the proud position North Carolina holds in the National Government, having when war was declared a Cabinet office, an Ambassador at the court of St. James, chairman of the Senate finance committee, chairman of the House ways and means committee, besides other important chairmanships in Congress, it being true now more than ever at the Nation's capitol that "where North Carolina sits is the head of the table," he showed that North Carolina has stood at the very bottom of the list in every Liberty loan campaign. The Government keeps a record, and from that record he quoted the following facts:

In the first Liberty loan, the purchase of bonds by the people of other States in the fifth Federal Reserve district was \$11.93 per capita, while North Carolina's was \$3.92 per capita; in the second, other States, \$21.75, North Carolina, \$11.69; 3rd, other States, \$20.26, North Carolina, \$10.24. In North Carolina, only 3 men out of every 100 have subscribed to any Liberty loan; in Arizona, a desert, 20 out of a hundred; in Iowa, a farming State, 19; in Maine, a poor State, 15; Minnesota, 25; Montana, 23; New Hampshire, 19; Wisconsin, 21; Wyoming, 26.

Robeson is above the average, and yet in the last Liberty loan the average for the county was \$7.15 per capita. "God help her," he exclaimed, "69 per cent of the average of North Carolina, which was only \$10.24. These facts hurt, he said, but we must face them. It is not due to lack of patriotism, but to the fact that we are so miserably busy about our own affairs we have not gone out and sold the people. It reminded him of a man sitting in comfort before his own fire, reading and smoking an elegant cigar, ignorant of the fact that his property in the country is burning up, with no insurance.

Liberty loan workers form the third line of defense, as important as the first, composed of men at the front, and the second line, composed of men in the camps; for the first two lines will fail unless we at home keep going to them a steady stream of money and supplies. There are only two ways for the Government to raise the money for the war: first, by taxation, and the largest tax bill ever passed by any country will shortly be passed by Congress; the other way is by the people lending their money by buying bonds. The fourth Liberty loan is the largest ever floated by any government. It is apportioned in the fairest and most just way, based upon bank resources. North Carolina's part is \$39,900,000, only \$15 per capita, while the apportionment of the nation at large is 4

**VINOL MAKES
WEAK WOMEN
STRONG**

Positive—Convincing Proof
We publish the formula of Vinol to prove convincingly that it has the power to create strength.

By Cod Liver and Beef Peptones, Iron and Manganese Peptones, Iron and Ammonium Citrate, Lime and Soda Glycerophosphates, Cascaria.

Any woman who buys a bottle of Vinol for a weak, run-down, nervous condition and finds after giving it a fair trial it did not help her, will have her money returned.

You see, there is no guess work about Vinol. Its formula proves there is nothing like it for all weak, run-down, overworked, nervous men and women and for feeble old people and delicate children. Try it, once and be convinced.

Dr. J. D. McMillan & Son, druggists, and druggists everywhere.

Special Prices from Sept. 15 to October 19th, 1918.

times as great, \$60 per capita. Robeson county must subscribe for twice as much as it raised in the last loan. Lumberton district alone must raise nearly as much as the entire county raised in the last loan.

Publish Names of Slackers.
Hearty applause greeted Mr. Lawrence's declaration that he is in favor of publishing the names of men who are able to buy bonds and refuse to buy. That, he said, will smoke them out.

How to Sell Bonds.
First, appeal to patriotism. Can we who remain at home refuse to buy bonds to the limit of our ability when those who have gone to the front have given up their business prospects and are ready to offer their lives? Every man ought to be willing to support a soldier, but the Government does not ask that, it merely asks us to lend it our money so it can support him and it will pay us back.

Appeal to Self-Interest.
If appeals to patriotism fail to reach a man, appeal to his self-interest. U. S. 4 1-4 per cent bonds pay net more than you can get by lending money out; and it may be expected that after the war the entire business

(Continued on page six.)

**Does Your Life Work Mean
Anything to You?**

You farmers who have worked hard—and no one works harder—to get together your property, what does it mean to you? Your property—your farm and buildings, your crops, your stock, your farm implements and, too, your home—all of these represent years and years of work that you have done.

Everything that you enjoy as the result of your work comes to you and stays with you because the heroic soldiers and sailors of Uncle Sam are standing between you and the bloodthirsty, murderous Hun.

To keep the Hun away from you, Uncle Sam does not ask you to GIVE even a single penny. He simply asks you to LEND him your money at good interest and he guarantees on his word of honor—a word that has never been broken—to pay back every penny you lend.

What is your answer?
Have you bought all the LIBERTY BONDS you possibly can?
