WARD HEADS COMMISSIONERS

Mr. John Ward of Rowland Succeeds Mr. A. J. Floyd as Chairman of County Board—Mr. J. G. Hughes of Parkton is New Member.

Mr. John W. Ward of Rowland was elected chairman of the board of county commissioners at an executive meeting of the board this morning. Mr. J. F. McKay of Red Springs was first elected chairman, he having been on the board longer than any other member, but he declined to accept the election. Mr. Ward succeeds Mr. A. J. Floyd of Fairmont as chairman. Mr. Floyd served on the board for a number of years and had been chairman of the body for a long time. Mr. Floyd was not in the race for reelection in the last election. Mr. J. G. Hughes of Parkton was the only new member added to the board. Mr. Rory McNair of Maxton was re-elected in the last election.

The board now is composed of Messrs. J. W. Ward of Rowland, C. B. Townsend of Lumberton, J. G. Hughes of Parkton, J. F. McKay of Red Springs and Rory McNair of Maxton. Mr. E. J. Britt was re-elected county attorney, having held this position for a number of years.

AGED MAN KILLED.

Mr. Oakley McNeill Killed by Train at Pembroke Early Yesterday—Body in Night Clothes Found Beside Track.

Mr. Oakley McNeill, aged about 76 years, was killed by an Atlantic Coast Line train at Pembroke about 2 o'clock yesterday morning. The engineer reported that he struck a man and when search was made Mr. McNeill was found near the track with his neck broken. Deceased lived at Pembroke and when killed he had on his night clothes. It is supposed that he left his room and went out on the railroad track. Some think Mr. McNeill went on the railroad track with suicidal intent.

The funeral was conducted at the grave at 3:30 yesterday afternoon by Rev. Dr. R. C. Beaman, pastor of Chestnut Street Methodist church of Lumberton, and interment was made at Moss Neck.

WILSON SAILS TOMORROW.

President Addressed Joint Session of Congress This Afternoon and Will Leave for Europe Tomorrow.

Congressional leaders were notified Saturday that President Wilson desired to deliver his annual address to the Congress today, the opening of the winter session, and arrangements were made for his address at 1 p. m. today. Special interest attaches to this address on the eve of the President's departure for the peace conference. The address will constitute the President's goodbye to Congress and through it to the people, for he is expected to sail Tuesday.

The American transport George Washington, selected by President Wilson to convey to Europe himself and other members of the American delegation to the peace conference, will be conveyed by the battleship Pennsylvania and a fleet of 5 fast destroyers.

81st PROBABLY IN GERMANY.

Location of Division to Which Large Per Cent of Robeson's Selectmen Belong.

A dispatch sent out from Washington states that the 81st division, American troops in France, was located at Sommedieue four days after the armistice was signed. Sommedieue is a few miles south of Verdun and near the German border in the vicinity of Metz. Judging from the location of this division, to which 75 per cent of Robeson's selectmen belong, at that time, it is more than probable that a part of the division at present occupies the German army of occupation, now in Germany.

Letters received from members of this division state that it played an active part in the last battles of the war.

WHO IS McLENDON?

A Citizen of His Home Town Tells What Manner of Man is the Evangelist Who Begins a Meeting Here Next Sunday.

Mr. Thos. C. Hamer of Bennettville, S. C., clerk of the court of Marlboro county and lay leader of the South Carolina Methodist conference, told the congregation at Chestnut Street Methodist church yesterday morning something about Evangelist B. F. McLendon, who will begin a series of meetings in the big Banner warehouse next Sunday. He came at the request of Mr. McLendon, who wanted him to tell the folks of Lumberton the plain unvarnished truth about him (McLendon).

Mr. Hamer spoke freely and frankly and is well qualified for the job of telling on McLendon. He has known Mac all his life and got him out of many a scrape during the days when Mac relied more on his lawyer than he did on the Lord. Mr. Hamer, who was a lawyer before clerk, said he had represented Mac for gambling, for fighting, for selling liquor and for shooting a man. Mac was a sight in those days. He gave his Christian parents no end of trouble. But when he was converted he got a genuine case of religion and has lived a consistent Christian life in the same town where he did his devilment. And he even held a revival meeting there which lasted 5 weeks and looked like it couldn't be stopped, the most successful meeting ever held in that section. McLendon began it over the protest of his friends, who told him it would ruin him to hold a meeting there.

Mr. Hamer spoke soberly and his words carried conviction. He told of Mac's godless days and then of the great contrast in his life during the past 11 years, and said that the people of his home town have the utmost confidence in him. He thinks Lumberton is fortunate in having Mr. McLendon hold a meeting here and is confident it will be a glorious success if the Christian people of the town will hold up his hands.

The meeting will be held under the auspices of Chestnut Street Methodist church and no further services, except prayermeeting this week and Sunday school regularly, will be held in this church until the meeting closes.

McLEOD STRIKES OIL.

Ex-Senator and Ex-Sheriff of Robeson Has Located an Oil Vein on Lands Purchased by Him Out West.

Robesonians generally will be interested to learn that ex-State Senator Geo. B. McLeod has located oil on lands which he bought several months ago in Kansas. One well has been bored and will produce 25 barrels of crude oil per day. The oil is worth \$2.25 the barrel. Other wells are being bored. Mr. McLeod had bought and leased quite a bit of land supposed to contain oil both in Kansas and Oklahoma. He arrived here Thursday from Kansas and brought along a photo of his well.

Mr. McLeod's many friends will be pleased at his "find," which is calculated to bring a fortune to a popular ex-Senator and ex-sheriff of Robeson.

PRESIDENT NAMES PEACE CONFERENCE DELEGATES

President Wilson Heads Delegation—Lansing, White, House and General Bliss.

The representatives of the United States at the peace conference will be: President Wilson. Robert Lansing, Secretary of State. Henry White, former ambassador to France and Italy. E. M. House.

Gen. Tasker H. Bliss, representative of the American army with the supreme war council at Versailles. This announcement was made Friday night at the White House. In the absence of any official explanation it was assumed that the President goes as President of the United States and that Secretary Lansing, Mr. White and Col. House and possibly also Gen. Bliss will be delegates with ambassadorial rank.

It was recalled that the President's announcement that he would go to France, "for the purpose of taking part in the discussion and settlement of the main features of the treaty of peace," said that it was not likely that he could remain throughout the sessions of the peace conference and that he would be "accompanied by delegates who will sit as the representatives of the United States throughout the conference."

The premiers of Great Britain, France and Italy are expected to attend the conference as representatives of their governments but they may not remain throughout the conference. The general understanding is that present plans are to have the conference first agree to the broad principles of the treaty and leave the working out of details to further sittings.

This would enable the President and the entire premiers to return to the capitals of their respective countries so as to give their personal attention to affairs of state.

STARVING IN VIENNA.

Population Reported in Desperate Condition From Lack of Food—Soup Made of Rotten Cabbages and Flour Contains Sawdust.

The population of Vienna is reported in a desperate condition from lack of food, according to a message to the London Daily Express from its correspondent in Vienna, who claims to have had an official reception there and to have been given special opportunities for investigating behind the scenes.

The correspondent's message, which is dated November 25, tells of the soup kitchens established in the city. Each of the 10 kitchens, he says, is feeding daily 6,000 men, women and children, who have to stand in line for hours awaiting admission.

Each receives less than a pint of soup made of rotten cabbages and flour containing a quantity of sawdust. On Sunday a little horseflesh is added.

"All these human wrecks, with bones protruding," continues the correspondent, "exist on this soup. Hundreds die daily and are buried in paper coffins because the wood is needed for fuel."

He says incidentally that the clerks in the Spanish embassy are dying of starvation. "The correspondent continues, 'is in a sullen mood. The whole of German Austria is afraid of bolshevism. I understand there is barely sufficient food for three weeks and only enough coal for a fortnight. Unless help arrives quickly, hell will break loose. Already the people are buying rifles and machine guns.'"

The officials, the correspondent reports, complain that Hungary has food and the Czechs have coal, but that neither will part with its supplies. The officials want the allies to put pressure on these governments. He adds that the leader of the red guard, a young Jew, named Wisch, says he wishes to avoid bolshevism if possible. The Austrian guards originally numbered 7,000, but thousands of them turned to bolshevik beliefs and have been dismissed until now, he says, only 800 remain.

5,200 Troops From Overseas Landed.

The U. S. transport President Grant Friday landed 5,200 troops at Lambert's Point, Norfolk, Va., for entrainment to camps of demobilization. The men were brought over from Mulberry Island in the Chesapeake Bay, where they had been mobilized for sending overseas. It is the second trip of the big transport to this port during the present month. On the first trip, 6,400 were brought over. An American Red Cross unit furnished hot coffee and sandwiches as the men entrained.

The State board of elections, canvassing the returns from the recent election, finds that the Republican vote fell off in this State 26,000 compared with the last previous election and that the Democratic vote fell off about 24,000. However, the Democratic majority is well over 45,000. Senator Simmons led the Democratic ticket by 200 votes.

Breweries Closed Down Saturday Night.

Brewing of beer and other malt beverages stopped at midnight Saturday night throughout the United States. Ten thousand men were thrown out of work and plants estimated in value at \$10,000,000 and representing investments of \$100,000,000 were made idle in St. Louis, Mo. A Milwaukee, Wis., dispatch states that brewers of that city will dispense with only about 1,000 men.

PORTS OF DEBARKATION.

10 Months is Minimum Time in Which Troops Could Be Brought Back Home.

Boston, New York, Newport News, and Charleston, S. C. are the ports the War Department now plans to use for the return of the army from overseas. Even with this wide distribution of the strain on port facilities and transportation, however, and with German ships now idle in German harbors employed on the task, careful estimates show that the last of the army could not possibly reach the United States in less than eight months. Conservative calculations upon which preparations by the department probably will be based fix 10 months as the minimum.

These estimates have been made wholly on the basis of the physical difficulties to be overcome and do not take into consideration the question of the retention in Europe for some time of an American force which may be agreed upon at the peace conference. If the return movement already in progress is continued at full speed, the last division in all probability could not reach the United States before October, 1919.

WITH ROBESON SOLDIERS.

Letter From a Soldier in France.

The following letter was written for The Robesonian and found its way to the paper through Mr. J. I. Carter of R. 5 from Lumberton, to whom it was first sent:

Somewhere in France, Nov. 4.—Tonight it is a lonely place, it is so far away from U. S. A. I am going to write a short story home for the boys and girls. I have been over here quite a while and sure have had some experience since I sailed to France. I have been over the top 4 times and I never had a scratch so far, but have been in some machine gun fire and heavy artillery. Boys, when we soldiers have gone over the top and when we have reached the object, and we have all stopped to rest and eat a snack, and when some of the boys' corn beef had a machine gun bullet shot through it and have rained and wet our hard tacks and then we are in the mud and wet and cold, will hear some of the boys say, "Don't I wish that Stone's girl could see him now."

Oh, what a history this will be to all! If we just can get home safe to tell mother just what a lovely old war that we have been in! I can remember years back when I liked to sit and hear the old soldiers tell about what a time they had in the old war, but now just wait until we younger ones get back and then we can tell them a lot they never saw. Then, O friend, I will tell you about the gas mask. What a wearisome time is to put on your mask and shoulder your rifle go over the top to meet the Germans and boys I never will forget just how I felt the first morning when I heard the major tell the captain to line his men and stand too. Then you will see each Corporal will get each one of his men a hand grenade and an extra bandoleer of ammunition for his rifle and all at the same time they will keep down as much as they can. Then you will see the S. O. S. signal light go up and then is the serious time starts with us until we have reached the object, then we'll be so hungry till we can't hardly talk to each other. O, what lovely war this is to us American soldiers! I heard a letter read from a lady in London and she said that British soldiers and French were fighting for their country and the Australian was fighting for the sovereign and the Americans was fighting just for the fun they could get out of it. And I sure think she is right, because there is nothing else over here that we care for.

I will close my story. Please excuse mistakes.

I belong to headquarters Co. 117 infantry, American E. F., U. S. A., N. Y.
