All You Need is a Heart and a Dollar

Effective Immediately, No More Direct Shipments Will Be Made Retailers. All Shipments Now Go to Jobbers for Redistribution.

When the influenza epidemic struck the country and wiped out our warehouse and jobbers' stocks almost overnight, we were faced with the problem of distributing—to the stricken districts—in the quickest possible manner—our daily output of VapoRub.

This was costly, but it solved the problem for the time being. Now, however, we find that these small shipments are constantly increasing—we have received as many as 1,306 in a single mail. It is becoming impossible for us to fill these promptly, and instead of distributing our goods

We believe that we can serve you better now by reverting to our former policy of shipping exclusively through the jobber, and, effective immediately, no more drop shipments will be made.

While we have put on a night shift and have, thereby, about doubled our production, we are still unable to fill our back orders and won't be able to give each jobber all the VapoRub he wants. Hence, it will be necessary for the jobbers to continue distribute more quickly, they are really slowing up the process.

ing VapoRub in small lots only. But we will be able to furnish each jobber at least twice the quantity of VapoRub that he purchased for the corresponding months last year, so there should not be any difficulty in your getting your pro rata share.

We feel that the public appreciates the service that the retail and wholesale drug trade have rendered the country in this time of stress. We wish to express to both branches of the trade our thanks for the kind cooperation extended us in our effort to meet this emergency.
