WORK OF THE LEGISLATURE

New Revenue Bill Offered in House—Stacy Road Bill Substitute Wins in Senate.

The Senate last night adopted the Stacy substitute for the Stevens-Scates State highway bill by a vote of 30 to 18 after debating both bills. Adopting the substitute made it necessary for the measure to go over to today for the second reading, being a roll-call measure.

An amendment to section 12 of the Stacy substitute by Cowper of Lenoir makes that section operative only if acceptable to the Federal authorities disbursing the Federal aid fund. Section 12 provides that counties may proceed with building their own roads as approved State highways under supervision of the State highway commission and when State and Federal funds are available, have the State and Federal aid portions of the cost refunded without interest.

The Stacy substitute imposes an automobile tax of \$5 to \$15 and truck taxes of \$40 to \$150 and provides for \$2,500,000 bond issues annually, the auto tax revenue to pay interest and provide sinking fund.

The new revenue bill as gotten into shape by the joint finance committee was offered in the House Tuesday by Chairman Doughton of the House finance committee. It increases the State tax for schools from 20 cents to 32 cents on the \$100 valuation, and cuts the regular State tax levy from 2 1/2 cents to 1 1/2 cents. Heretofore 5 per cent. of the 2 1/2 cents levy has been set aside as a State equalizing fund.

The tax rates on inheritances are not changed, but these taxes are placed more completely in the hands of the State Tax Commission. The only additional tax in that part of the bill is one that will reach stock in foreign corporations which have over 50 per cent. of their assets in this State.

There are not many changes in the sections carrying privilege and license taxes, and there are few new subjects of taxation. A new feature is a \$100 tax on tobacco warehouses for the first million pounds, and an additional \$100 for each additional million pounds. The tax on horse dealers is changed so that instead of a \$50 tax for wholesale dealers, there will be a \$25 tax and an additional \$5 tax for every additional carload of stock sold.

In the case of bottling works and wholesale dealers in bottled goods, the wholesale dealer has his tax cut in half compared with the tax on the wholesale bottler.

The Senate passed the bill by Long of Halifax, providing an amendment to the constitution to pay members of the General Assembly \$10 per day and the presiding officers \$15 a day.

EX-SENATOR GOUGH ON LOCAL LEGISLATION

He Thinks Well of Permanent Bridges Bill—Indians Will Be Provided for in New Quarters for Insane—County's Members Busy.

Ex-State Senator Frank Gough returned Tuesday night from Raleigh, where he attended the cotton conference Tuesday.

Commenting upon local legislation, Mr. Gough thinks well of the "Permanent Bridges" bill, already explained in The Robesonian, which allows the county commissioners to issue bonds in such sums as may be necessary up to \$500,000 for building permanent bridges in the county. Mr. Gough thinks that properly handled no better investment could be made and hopes the howl will not be raised against it that was raised against his \$500,000 bond issue for good roads 2 years ago. He quotes Representative Sellers to the effect that the expenditure of this bridge fund would require several years and no one need get scared. The present road tax is practically all spent in building bridges which must be constantly repaired, leaving nothing but "debts" for road work. The road law as amended will allow the issuing of township road bonds. Each township issuing bonds will spend the money by direction of its own road commissioner, to be appointed.

Mr. Gough is naturally gratified that the bill started by him 2 years ago to remove convicts to the State farm and convert the penitentiary at Raleigh into a hospital for the insane has passed the House and is expected to pass the Senate in a few days. He says ample provision will be made in the new quarters for the Indian people, which should have been done long ago, there being a place at Goldsboro for the negroes, but the only place for the unfortunate Indians being the county jail.

Mr. Gough says that Senator Stacy and Representatives Oliver and Sellers have their hands full and are kept busy all the time.

Mr. Gough is very much interested in proposed State-wide road legislation and educational bills. He thinks that if the bill is passed fixing the school tax rate for the State at 32 cents the thing to do will be to repeal special school tax laws, as the special taxes provided in many Robeson school districts would make the burden too heavy if the 32-cent tax is levied.

CLIP GERMANY'S CLAWS.

War Council Decides to Make it Impossible for Germany to Recommend Hostilities.

Although no official communique was issued after the meeting of the supreme war council in Paris yesterday, the Havas agency understands that the council decided first to place Germany in a military situation where it would be impossible for her to recommence hostilities. It is pointed out that the enemy countries are preserving war material permitting them to equip very rapidly an army of at least 3,000,000 men.

The council decided secondly, according to Havas, to make Germany realize that we are the conquerors and that it is not a "white peace" that we are seeking to impose on her.

In case Germany submits with good grace, continues Havas, it is possible the Entente would facilitate the resumption of the Entente's work of peace for the benefit of Germany. The council also had to examine the demands of the Poles that a clause be introduced into the armistice that the agricultural machinery stolen by the enemy should be restored.

BUIE NEWS BATCH.

Farmers Making Great Headway Preparing for Another Crop—Not Going to Buy So Much Fertilizer—"Flu" Situation Improved—Personal and Other Items.

Correspondence of The Robesonian.

Buie, Feb. 11.—Farmers through this section are making great headway in preparing their land for another crop.

The guano situation is nodoubt causing some of the manufacturers to feel like the farmer is getting to be just about as independent as the manufacturers have seemed in the past to try to be. I hear some of the largest farmers say they have not bought. One gentleman who owns a fine farm and no doubt is an intelligent farmer, told me he was not going to buy any. Then I have heard of others, among them the largest and best known farmers, had said they were not going to buy any this year. Whether they will stand to this, I cannot say, but in my opinion this is the only solution to remedy the situation, now and in years to come.

The "flu" situation has quieted off through here considerably. Mr. J. S. Brown, L. S. Britt and D. A. Townsend, are, I believe, the latest victims of this disease.

Mr. Bernard Redmond of Lumberton, son of Mr. and Mrs. C. B. Redmond and a kinsman of mine, spent a few days with the writer last week. The Philadelphia high school continues to be run on. It did not stop on account of the "flu" the last time the disease came about. I understand several of the pupils stayed at home for awhile but it is further understood the attendance was very good.

The Buie Sunday school and prayer-meeting is rapidly growing. We are wanting as many as can possibly come to be at Sunday school next Sunday at 3 o'clock exactly, and at prayer-meeting Sunday night at 7:30; and then afterwards everybody, just as many as can come, every Sunday.

ONE-THIRD CUT IN COTTON ACREAGE

Cotton Conference Says Acreage Must Be Reduced 33 1/3 Per Cent—Standard Cotton Warehousing Act Called For.

The cotton conference held in Raleigh Tuesday adopted resolutions declaring for an iron-clad 33 1/3 per cent cut in cotton acreage and corresponding attention to reduced fertilizer application, calling on the Legislature to enact a standard cotton-warehousing act that will help in holding cotton and to change the tax season for growers as to cotton on hand from May 1 to June 1, and provided for a committee of 7 to direct a State-wide campaign in co-operation with the Federal States. The conference formed the North Carolina Cotton association and raised over \$3,000 in subscriptions to defray the expenses of the organization.

The conference of farmers, merchants, bankers and others interested in higher prices for cotton and averting excessive production next season was presided over by Gov. Bickett and Lieut.-Gov. Gardner. The committee which prepared the resolution adopted by the conference was composed of Senator J. A. Brown of Chadbourn, Maj. A. J. McKinnon of Maxton, Clarence Poe, H. H. Hobbs, N. Newson, J. S. Tomlinson.

Godwin Asks For \$100,000 For Public Building for Lumberton.

Representative Godwin has introduced bills for the purchase of sites and erection of public buildings at Lumberton, Dunn and Southport. Postal receipts for the Lumberton office during 1918 were \$18,209.21 and the bill asks for an appropriation of \$100,000 for site and structure. A site was purchased here some years ago, corner Elm and Seventh streets, for \$10,000, so that the entire \$100,000 could be used here for the building, which building is needed.

TEN MILE TOPICS.

New Tobacco Barns Seem to Be General—Farmers Stored Cotton—"Flu" About Over—Boys Expected Home Soon—Personal Mention.

By FANNIE BRITT.

Correspondence of The Robesonian.

Ten Mile, Feb. 12.—Quite a few of our farmers have been taking advantage of the beautiful weather and have done a good bit of plowing. Several new tobacco barns are going up in our community. It looks as if the corn or cotton acreage will be cut short in Robeson this year, as new tobacco barns seem to be a general thing all over the county.

More of our farmers stored their cotton this winter than usual. Wonder if they are holding for 35 cents? Our new pastor, Rev. Mr. Hair of St. Pauls, talked to us Sunday afternoon on "The Duty of the Church" in regard to the million-dollar campaign. Ten Mile church hopes to go over the top and raise her \$1,000 for Christian education.

The "flu" has about flown from our community. Fortunately, we have not had to close our school, and so far, we understand, the children are doing nicely in their studies.

If all reports are true our boys of 30th and 81st divisions will soon be home.

Misses Margaret and Dovie Britt are home recuperating from the "flu". Friends of Mrs. A. A. Bethune wish for her a speedy recovery.

Let's make the pounding for our pastor as liberal as possible.

Grandsons of the Late Richard Townsend in the Great War.

Mr. C. B. Townsend of Lumberton furnishes The Robesonian the following interesting and creditable record in the great war of the grandsons of the late Richard Townsend of McDonald, father of Mrs. Sue McLean and Messrs. C. B. and L. T. Townsend of Lumberton:

Donald T. and D. Earl Townsend of McDonald; Capt. Richard Warren Townsend, died of wounds received in battle Sept. 13, 1918, and Myron Townsend, sons of J. A. Townsend of Hot Springs, Ark.; Major Dallas S. Townsend and Lieut. Langdon McD. Townsend, sons of Rev. R. Walter Townsend of Raynham; Richard Edward Townsend, son of L. S. Townsend of McDonalds; Fred H. Townsend, who volunteered from Lumberton, son of J. L. Townsend of Manquin, Va.; Lieut. R. A. McLean, a Douglas and P. Murphy McLean, sons of the late Col. and Mrs. N. A. McLean of Lumberton; and the only great grandson, David Townsend, son of the late H. A. Townsend of Raynham.

These all volunteered, making an unbroken record of loyalty of which the family is justly proud. There were no slackers among them.

"My Soldier Girl", a musical comedy with a military atmosphere, delighted a capacity audience at the local opera house last evening. It was one of the best shows of the kind ever staged in Lumberton, if not the very best. The costumes were brilliant and artistic, the chorus was fresh and pretty, the dancing was graceful and bewildering, and the songs were good. The battlefield scene and the finale, "Liberty Forever," were impressive and beautiful.

An intoxicated cow running away with a 150 gallon still was captured by Deputy Revenue Collector English, of Atlanta, and S. J. Causey, of this city, about twelve miles north of here this afternoon.

The rest of the still outfit was captured by the officers near where the cow was found, but the owners had disappeared.
