

**FARM ADVERTISING.**

New Extension Service Publication Attracts Attention.

Raleigh, Sept. 13.—The Extension Service has just received a communication from the Kansas State Agricultural College requesting 25 copies of Extension Circular No. 40 on "Farm Advertising" for use in the class work of their department of industrial journalism and printing. The chief of the department Mr. N. A. Crawford, writes, "I have just had the opportunity to look over the excellent bulletin on 'Farm Advertising'. It is by far the best of its kind so far published, and you have performed real service to the farmer in getting it out. I wonder if it will be possible for you to let us have about 25 copies of it for use in our class work in this department."

This bulletin, which was prepared for the Agricultural Extension Service has for its purpose a plea for the adoption of better business methods on the farm. Many farmers do not realize that their investments in land, implements and buildings are oftentimes much greater than that of the merchant, storekeeper, or shop man in the city; yet, these latter advertise their business, put out standard products, and so turn over their capital some two or three times each year, while the average North Carolina farmer turns over his capital once in three years, at the same time getting a lower percentage of profit on the investment.

The use of printed stationery, bulletins, boards, roadside signs, and paid advertisements in the local newspapers and agricultural papers will do much to bring greater returns to the farmer. By thus attracting attention to his place, it becomes a farm of much individuality, not merely a collection of ramshackle buildings and run down acres. Farm pride is naturally another result of adopting these modern methods, and this, in itself, will do much to make the owner give his place more attention.

This circular is available, free of charge, to all citizens of North Carolina so long as the present supply lasts, and it may be had by dropping a card to the Agricultural Extension Service, Raleigh, N. C.

**HOME GUARD TROOPS CALLED TO ALBEMARLE**

Trouble Began When Striking Mill Operatives Tried to Prevent Others From Working.

Home guard troops from Statesville, Lexington and Cat Wagon were ordered Monday by Gov. Bickett to Albemarle, at the request of the mayor of that town, to help local authorities handle disturbances growing out of a strike of mill operatives. For several weeks the cotton mills at Albemarle have not been in operation owing to differences between mill owners and operatives, following the organization of a labor union among the operatives. Trouble began Monday morning at the Wisconsin mills when about 100 striking operatives sought to prevent a

**PROBABLY IT'S WORMS**

Most children have worms, sometimes. Symptoms are lack of color, peevishness, restlessness at night, etc.

**Dr. Thacher's Worm Syrup** will go after and get the worms, if worms are there. Harmless; children love it. Old doctor's prescription in use half a century. At your drug store. Made by THACHER MEDICINE CO., Chattanooga, Tenn., U. S. A.

**"DATEK CROSS" ON ASPIRIN**

Always Ask for Genuine "Bayer Tablets of Aspirin"

Only Aspirin Tablets with the safety "Bayer Cross" on them are genuine "Bayer Tablets of Aspirin," owned and made by Americans and proved safe by millions of people. Unknown quantities of fraudulent Aspirin Tablets were sold recently by a Brooklyn dealer which proved to be composed mostly of Talcum Powder. "Bayer Tablets of Aspirin" should always be asked for. Then look for the safety "Bayer Cross" on the package and on each tablet. Accept nothing else! Proper directions and dosage in each Bayer package. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacid-ester of Salicylic acid.

**HOME FROM THE WAR.**

Mr. F. M. Ammons, son of Mr. and Mrs. J. H. Ammons of R. 4, Lumberton, arrived Monday from Newport, R. I., where he was discharged Saturday after 4 years' service on the U. S. S. Delaware. During the war the Delaware was of the American fleet that served with the British grand fleet, and did convoy duty from England to Norway, laid mines, etc.—quite a hazardous job. Mr. Ammons was home last January, after which time his ship went from Boston to New York, thence to Panama, and then to Martinique, a French possession in the West Indian islands, thence back to Panama and back to New York. There is a scarcity of men of the experience of Mr. Ammons, who held a responsible position on the ship and has been offered inducements to re-enlist. He also has the prospect of a position in Washington but has not yet decided what he will do.

number of men employed in the office and repair room from continuing at work. Sheriff Blaylock was shot in the leg and a man named Dee Porter was wounded by a pistol shot.

**HURRICANE TAKES FEARFUL LIFE AND PROPERTY TOLL**

Estimated That Total Number of Dead in Vicinity of Corpus Christi Will Reach 75—Immense Property Damage.

It is estimated that the total number of deaths in the immediate vicinity of Corpus Christi, Texas, from the tropical hurricane which swept that town and section Sunday morning will reach 75. The property loss is placed in the neighborhood of \$10,000,000. Every industry in the city is prostrated, business is at a complete standstill, communication of all kinds was badly shattered, and the food and housing problem is acute.

**NOTICE OF ADMINISTRATION.** Having qualified as administrator of Frances Britt deceased, all persons having claims against said deceased, are notified to present same to the undersigned administrator on or before August 12, 1920, or this notice will be pleaded in bar of their recovery. All persons indebted to said deceased must make immediate payment.

RICHARD WILBUR BRITT, Adm. of Frances Britt, deceased. McLean, Varner, McLean & Stacy, Attorneys. 8 14 6 Thurs.

**PETERSBURG WOMAN TELLS HOW DRECO CURED ECZEMA**

Had Spent Hundreds of Dollars Without Success, in an Effort to Cure it, Until She Took Dreco.

Miss Daisy Ferguson of 70 Ballingbrook, Petersburg, Va. says: "I had suffered awfully for seven years with eczema on my neck and in my hair. I had spent several hundred dollars in an effort to cure it but without success. I have now taken three bottles of Dreco, and since taking it the eczema is drying up, the redness is going away and it is better than at any time before. It is practically well, but I am still taking Dreco because I feel sure it

is going to take it away entirely." Dreco is pleasant to take and relieves rheumatism, cleanses the blood, regulates the bowels, overcomes constipation, acts on the liver and kidneys, and is fine for skin troubles, such as eczema, scurvy, boils and pimples. Dreco is made from juices and extracts of many medicinal herbal plants which act on the vital organs in a pleasant and prompt manner. Dreco is highly recommended in Lumberton by J. D. McMillan & Son.

**SHOES**

Don't get excited about shoe costs. The press notices to the effect that "\$25.00 and up" shoes are in sight is largely a myth. There always have been \$25.00 shoes and about one person in ten thousand would pay this price. There always have been \$10.00 to \$15.00 shoes, and numbers of people would buy these shoes—possibly because they "matched a dress" or for some other equally important reason.

There always have been shoes for dress up and street wear, retailing from \$5.00 to \$15.00 for the past ten years. Our shoes retailing at \$3.00 to \$7.50 before the war, now sell at \$5.00 to \$12.50, showing an advance in price of \$2.00 to \$5.00 per pair.

We, as leaders in our line, have always carried some of the newest and best shoes for those who want the latest thing in style and, of course, merchandise of this kind costs more than plain staple goods. These shoes interest men and women who like to wear "exclusive" styles and can afford it.

There always have been work shoes \$2.00 to \$4.00 for hard wear. There always have been boys' and girls' shoes at similar prices. The shoes of this kind which we sold before the war at \$2.00 to \$4.00 were sold during the war at from \$2.50 to \$6.00 and are being sold now at \$3.00 to \$6.50.

The advance in the price of our shoes in four years averages about \$1.50 to \$2.50 per pair.

Now, these are the facts about our shoes, and it looks different from the fiction which is being so largely handed around the country about "\$25.00 shoes."

The above quoted prices show the advances which have been necessary in our shoes, due to increasing cost (with which everybody is familiar) of hides, leather, materials and labor, plus the intelligent and efficient services we render our customers.

Don't be talked into paying any fancy or ridiculous prices for your foot-wear. Advances there are, and advances there will be, legitimate and necessary, but nothing like the extravagant statements frequently made about "\$25.00 shoes," need give you a moment's concern.

And now a word of advice. Don't speculate in shoes. Don't buy any more than you need. Meaning, don't hoard shoes, as some people are doing. If you buy a pair of shoes suited to your needs and take good care of them and have them repaired when they need repairing—keep them well half-soled and well heeled—you can save a lot of money on your foot-wear.

This is intended to give you a plain statement about shoes, in contradiction to the wild and extravagant rumors so persistently published throughout the country.
