

SOLDIER BONUS FUNDS MUST BE RAISED BY SPECIAL TAXES

Secretary Mellon Says Congress Would Have to Tap New Sources of Revenue.

Washington, Feb. 2.—Funds to finance soldiers bonus must be raised by means of initial taxes as it would be impracticable to depend upon proceeds from the refunded foreign debt for this purpose, Secretary Mellon declared today before the House ways and means committee.

Reiterating his objections to the enactment of bonus legislation at this time, the treasury secretary said that in levying taxes Congress would have to tap mostly new sources, as the levies now in effect were abnormally high for peace times. He opposed a general sales tax, re-enactment of the excess profits tax or an increase in any existing taxes except possibly those on cigarettes, tobacco and documents.

New sources of revenue suggested by the secretary included:

Three-cent first class postage, to raise \$70,000,000.

An increase in second class postage rates to produce \$30,000,000.

A two-cent tax on bank checks to yield \$30,000,000.

A license tax of 50 cents per horsepower on automobiles to produce \$100,000,000.

Mr. Mellon estimated that increased documentary stamp taxes would produce \$40,000,000 and that an additional \$20,000,000 could be had from increase of 50 cents per 1,000 on cigarettes and two cents a pound on tobacco.

Cost of Bonus.

Figuring that the bonus would cost \$425,000,000 a year for the first two years, the secretary said Congress could pick out other sources of taxes where the burden would fall with the least hardship in order to make up the deficit of \$125,000,000 as between the yield from the specific suggestion he had made and the cost of the bonus. In this connection he called attention that there had been suggested consumption of sugar and other articles, but he did not approve such taxes.

As to the use of any part of the proceeds from the foreign debt, Mr. Mellon said the time that returns would be had from that source was problematical and that in any event the ultimate cost to the government and the country would be greater than if direct taxes were laid. He explained that if the interest were used the government would have to extend its domestic debt refunding operations that much longer at a cost to the taxpayers, while if the foreign bonds were sold in the United States the government would have to guarantee the interest and the principal and even then the securities probably could not be sold at par.

Treasury Certificates.

To a suggestion that the treasury issue certificates of indebtedness to raise the \$850,000,000 for the first two years and retire them out of interest from the foreign debt, Mr. Mellon said this would hinder the domestic debt refunding operations upon which the treasury soon must embark. The amount to be refunded, he asserted, was so large that no additional securities should be thrown on the market during the operations. He also called attention that the government was facing a deficit of \$30,000,000 in 1923, which must be made up.

Asked by Representative Garner, democrat, Texas, as to the imposition of a tax on light wines and beers as a means of raising the bonus funds, Mr. Mellon declared that with the "high tension" in the country on the prohibition question it was not feasible to depend upon this as a source of revenue. Chairman Fordney suggested that there was a constitutional inhibition on Congress on permitting the sale of beer and wine.

Brigadier General Lord, budget officer for the war department, told the committee that the department had estimated that if all the soldiers took cash the total cost of the bonus to the treasury would be \$1,082,400,000, but he declared that he and other officers believed this total too low.

Members of the committee agreed that the figure probably was small and Representative Longworth, republican, Ohio, said it would be better for the committee to follow the \$1,560,000,000 estimate contained in the senate finance committee report on the bonus bill.

WILL REORGANIZE HIGH SCHOOL WORK

Dr. Brooks Plans To Reduce Expenses and Increase Efficiency.

Raleigh News & Observer, Feb. 3: Complete reorganization of the present system of high school administration, with a sharp reduction in the number of supervisors and the overhead cost of operation, and increased numbers of pupils to the individual teacher was agreed upon at a conference here yesterday between State Superintendent E. C. Brooks, and the superintendents of city schools.

Details of the plan are being worked out by Dr. Brooks, and will be announced within the next few days. Increased efficiency of the schools, with provision for taking care of a larger number of pupils without increased cost is the aim of Dr. Brooks' plan of reorganization. The project will be put into effect at the beginning of the next school year in September.

Definition of what is a city school, and what is a county high school along with the perennial row over the charge of tuition to children living outside the school district consumed most of the morning session of the school men yesterday. At the end a committee to be made up of five city superintendents and five county superintendents was authorized to recommend action.

of the situation that exists in almost every town in the State. In the suburban sections of these towns is a population that is too far from country schools to attend, and outside the limits of the town or city school district. Heretofore the custom has been to charge children living outside the district a nominal tuition fee.

Dr. Brooks has suggested the plan of allowing them six months without tuition, in accordance with the constitutional requirement, and a charge for the remainder of the term. This plan has met with no little opposition from cities where conditions are already crowded. The report of the committee authorized will be made before the beginning of the next school year, and some uniform plan agreed upon.

Reduction of the cost of operation in high schools through the reduction in the number of supervisors, and the concentration of pupils under fewer teachers can be accomplished without sacrifice of efficiency, Dr. Brooks believes. Elimination of some special subjects from the high school program of study will also be considered. Dr. Brooks expects to meet public the plans for reorganization by the first of the week.

73 NEW LAWYERS LICENSED BY STATE SUPREME COURT

Three Robeson County Men, One Each from Lumberton, St. Pauls and Orrum, Licensed—Two Women Among Successful Applicants. John Blount McLeod, son of Mrs. Alf. H. McLeod of Lumberton, William Fred Hester of St. Pauls and William Yates Floyd of Orrum were among the 73 new lawyers licensed by the State Supreme court Thursday as a result of examinations held last Monday. Two of the successful applicants are women—Miss Lottie Elizabeth Lewis of Raleigh and Miss Flossie Eleanor Marshbanks of Marshall. Eighty-two applicants took the examination. Guy Hilary Allran of Fayetteville and Robert Edward Lee Brown of Chadbourn also were among the successful applicants.

INSTANCES OF PARENTS EATING THEIR CHILDREN IN FAMINE STRICKEN RUSSIA

Geneva, Feb. 1.—(By Associated Press).—Famine has reached such a terrible degree in the Orenburg district of Russia that people are killing each other and parents are eating their children, says a telegram received here today from a representative in Moscow of Fridtjof Nansen, head of the international committee of Russian relief.

The representative of the international committee was addressed to the Geneva bureau of the international committee was based upon reports received from a Russian representative attached to the American relief administration at Orenburg.

The following authentic examples, says the telegram, occurred in the village of Tuliakova:

A man named Tahvatulla Halline ate the corpse of his brother.

A woman named Housma ate two of her children, and a man named Ahsam devoured his daughter.

The cause of the cannibalism was reported from the district of Gorny, near Orenburg, whither people arrived on foot, having walked 200 to 250 versts in order to obtain American aid. (A verst is .66 of a mile.)

The railroads of the country were in better physical condition at the end of the period of Federal control than they had been when taken over during the war, William G. McAdoo, former Secretary of the Treasury and war-time director general of railroads, told the Senate interstate commerce committee last week in giving an accounting of his guardianship of the properties during 1918.

William Desmond Taylor, internationally-known motion picture director, was found dead at his desk in his home at Los Angeles, Calif., Thursday morning. A bullet had been fired into his neck from behind. He was last seen alive by Mabel Normand, film comedienne, who called upon him early the evening before.

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed with Sulphur It Brings Back Its Beautiful Lustre at Once.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the recipe at home or buy from any drug store a bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking only small strands at a time. By morning the gray hair disappears; after another application or two, the natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.
