He has never recovered, and now has tuberculosis as a direct result of the injury. At the best he has only a few years to live. He cannot do any physical labor. He has a wife and one child. The United States is paying him eight dollars a month. I did not say "eighty" but "eight." I have taken the matter up with the bureaus of red tape until I am tired of it. HALL'S CATARRH MEDICINE acts through the Blood on the Mucous Surfaces of the System. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing may be destroyed forever. F. J. Cheney & Co., Toledo, Ohio to his injury in action.

"I would not have addressed this letter to you, but for one received today from Col. S. W. Minor of the 165th regiment in which this man served. It was a fighting regiment, in the midst of the worst of it, and I thought perhaps the commanding officer of it could do something to help one of his men. In his reply Colonel Minor said: 'I know of several cases' in my regiment equally as bad, and have done everything I could and the most I have been able to get was a stereotyped form of acknowledgment from the Congressman's secretary.'

"There are hundreds of similar cases in America today, and the colonel's statement sums up the situation better than anything I can say. He did not intend me to use his words, and I am doing so without his knowledge or consent, but if that is all the attention that is given to the commanding officer of the 165th regiment when he appeals for one of his men, it ought to be brought somehow to public attention. These men are dying for lack of attention, and when they ask for help, they get a stereotyped letter of acknowledgement from a secretary."

Under the caption "Heart-Breaking Entanglements of Red Tape", the Greensboro News reviews this case and tells of another almost as bad of which it has intimate knowledge, where the government is holding up the compensation of a former soldier who lost a leg in action because on the medical report turned in from the hospital where he was treated he was listed as "shot and gassed", and when his papers went in for compensation as a disabled veteran they bore that notation and nothing can be done about compensation until it is proved that he was gassed as well as shot. The News adds this comment:

"What language is sufficiently corrosive to characterize a system that will deny justice to a brave soldier on such a technicality? It isn't the fault of the people of the United States. On all the earth there exists no nation readier to pay whatever sum is necessary to do justice, and more than justice, to the men who were struck down while defending this country against the common enemy. The people are paying, now. The Veterans' bureau has hundreds of millions at its command, and if it can show that it needs more, the money will be supplied. But while the money is taken from the pockets of the people promptly enough, it is scandalously slow in getting to the disabled men who need it. Between the generous people and the needy veterans stands an army of petty bu-reaucrats in Washington, who apparently spend their time devising ways and means of making it difficult, if not impossi-

ble, for the soldier to get his money."
Great celebrations in which tens of thousands of dollars are squandered in lavish display to feed our own

ments of those who gave their lives seems like hollow mockery in the face of gross neglect of those who came back disabled.

The only way to find profitable business these days, says the Business Printer, is to go after it. It is not floating around in the air.

Poison-Baited Trap for Children One of the most, if not the most dastardly and onery crimes ever com-mitted in this little city was brought to light last Friday when Mr. D. B. Stone complained to Recorder Floyd regarding his neighbor Welton T. Davis, who, the complainant alleges, set a steel trap for his (Mr. Stone's) Walter Bullock, who was shot and little children. According to statements reaching the correspondent, Davis, better known as "Pig Iron Pete',, did set a steel trap on or near his front porch for the purpose of catching children who might play on his premises. The awful trap was baited with bright-colored pencils and red candy to lure the tots, the oldest of whom is only six years of age, several being from 3 to 5. Then to make the crime worse, paris green was put on the candy so that in case administering funds supplied for re- 22:5. In part he said:

It seems from reports that the children had been accustomed to playing on the sidewalk in front of Davis' house and possibly in his yard. Davis is unmarried, about 50 years of age, and keeps "batch" in one of the Jackson Brothers houses on North Main street. Mr. Stone lives next door. Chief of Police Lawson arrested Davis and carried him before Recorder Floyd who required the defendant to give a \$100 cash bond for appearance before him Tuesday, February 7th. It was lucky that someone found the trap before the little children went to play. and we are under the impression that Recorder Floyd did not realize the horribleness of the intention of the and women become Christians, live up accused when he let him go a free man under a small cash bond. have a son who is not capable of giving checks and does not have any bank account and not likely to have and may give checks and sign some one's name to checks than his own, and I am giving this notice! for the purpose of warning any one that I will not be further responsible for the payment of this boys checks, who will sign John Leggett, if he signs his own name thereto.

Tuesday, was the day for the trial but on account of Mr. V. W. Keith's absence from town it was continued until sometime the latter part of the week. It is understood that Lawyer Keith represents the defendant.
