Curb Market Opening Great Success

Much Produce Sold First Day of Curb Market Venture Saturday—Many Farmers Brought in Something to Sell and Lumberton Housewives Were There to Buy—Properly Graded Produce Sold Most Readily—Opening Address by Senator Varner.

CURB MARKET WILL BE OPEN EVERY SATURDAY 9 TO 11 A. M.

Much produce was placed on sale at the opening of Lumberton's curb market Saturday at 9 a. m. Practically all the large amount of farm produce of various kinds offered had been sold before the market closed at 11 a. m. Both the producers and consumers were highly pleased with the opening.

State Senator L. R. Varner delivered a short address at the opening of the market, the speaker being fittingly introduced by Miss Martha Flax Andrews, home demonstration agent of Robeson. Aside from her remarks of introduction, Miss Andrews appealed for the co-operation of those concerned—producers and consumers—for the success of the market.

Church and Market Place. In beginning his brief talk, Mr. Varner complimented the work being done by the home and farm demonstration agents in Robeson county. He told of the time when in the Legislature some "wayward soule" asked him to abolish these offices. He asked through The Robesonian for an expression from the citizens of the county as to their idea of these agencies. The result was that he received numerous petitions and letters relative to them. At least 90 per cent of the expressions received were against abolishing these offices.

Mr. Varner described the market place and the church as being centers of community interest. The speaker declared that the curb market would mean much in the promotion of community spirit and co-operation between the people living in the town and rural districts. The importance of developing a market for farm produce, was stressed by the speaker, who declared that the coming of the curb market would bring a change of conditions.

Every Saturday 9 to 11 A. M. It is the purpose of the promoters of the curb market to fix standard prices for farm produce in the future. Many farmers, some of them living several miles from town, brought in something to sell Saturday and practically all of them said they expected to bring something again next Saturday. Many housewives were there to buy. The market will open each Saturday at 9 a. m. and close at 11 a. m. It is likely that the market will be conducted two days each week later. As has been stated in The Robesonian, it was decided at a recent joint meeting of the Women's club and the Home Demonstration club of Lumberton to open the curb market. The plan was worked out by Miss Andrews, home demonstration agent, and Mr. O. O. Dukes, county farm demonstration agent.

The importance of properly grading the produce offered is being urged by Miss Andrews and Mr. Dukes. It was noted Saturday that the produce properly handled and assorted found more ready sale than the other. For instance, eggs that were cleaned were sought more eagerly by the purchasers than those brought in with stain upon them.

No doubt the curb market will grow in popularity and will prove a success.

Suggestions. The home and farm demonstration agents make the following suggestions in order to simplify and standardize the sales at the curb market:

1. Producers should be at the market place by 8:30 in order to complete grading and assembling their products.
2. Producers should grade their products as nearly as possible at home and place them in separate containers. They should also equip themselves with paper bags, etc.
3. They should pride themselves on quality and variety rather than quantity.
4. They must be prepared to remain with their products and make their sales.
5. A bulletin board with scale of prices will be prepared as a basis for sales.
6. Producers are requested to make no sales until the court house bell rings at 9 o'clock.

NINTH DAY OF STRIKE OF RAILWAY SHOPMEN PASSED QUIETLY

Soldiers on Active Duty in Illinois and Troops Mobilized in 5 Other States—Carriers Warn Strikers to Return or Forfeit Seniority Rights.

Chicago, July 9.—With soldiers on active duty in Illinois and troops mobilized in five other states, the ninth day of the strike of railway shopmen passed quietly while many railroads prepared to resume active operations of their shops tomorrow, several carriers having warned striking employees to return by that date or forfeit seniority rights.

B. M. Jewell, head of the railway employees department of the American Federation of Labor, had nothing to say at strike headquarters here and no news was forthcoming from either the carriers or the United States railroad labor body. While the Sunday holiday was uneventful, the rest of the week was fraught with possibilities. Tomorrow members of the board who averted a strike of 400,000 maintenance of way men and 14,000 signalmen through negotiations with union officials last week, are expected to confer with E. H. Fitzgerald, head of the clerk's union, in an effort to prevent the issuance of strike orders to this organization. Confidence was expressed here tonight in quarters close to the labor board that the clerks would follow the example set by the maintenance of way employees and signalmen.

With the carriers urging striking employees to return to work, preparations were complete on a score of lines to attempt to resume active shop work tomorrow. Vacancies in the ranks, according to the railroads, will be filled by the hiring of new men. Realizing the possibilities for trouble with such a program, some of the railroads have asked for soldiers to protect their shops, while others expected to afford private protection to those who worked.
