JOY FOR WEeping: His anger endureth but a moment: in his favour is life: weeping may endure for a night, but joy cometh in the morning.

WORDS, WORDS, WORDS

The Raleigh correspondent of the Charlotte Observer writes speculatively about what certain ones clothed with a little brief authority or who otherwise are more or less in the limelight meant in speeches made at Williamston the other day when the four-mile bridge across Roanoke river was formally opened.

And so we judge that a pleasant time was had by all, even if certain ones did go away wondering what certain other ones meant by saying certain things.

A TRUE, FAITHFUL TYPE

Mention was made in The Robesonian a week ago of the death of Wesley McNeill, an old-time darkey of the type that is fast disappearing.

Wesley McNeill was owned by Dr. and Mrs. Edmund McQueen until freed by the emancipation proclamation. He was honest, polite and intelligent, with a keen sense of humor.

A true, faithful type indeed, whose loyalty and devotion have never been surpassed and whose quaint humor and philosophy have enriched the life of the South.

The Greensboro News was disgusted the other day at the failure of men in Greensboro to salute the flag during a parade. Even policemen failed at this important point.

At all good Druggists

The omission when occasion arises would be impossible.

The Atlantic Coast Line seems to have been very little disturbed by the strike. It has not had to discontinue any passenger trains, and it announces that while freight traffic is 25 per cent heavier than it was a year ago, it is being moved promptly.

It is understood that insanity will be urged in defense of William C. Faries, who went on a rampage at Clover, S. C., the other day and with his shotgun killed four members of the family of a neighbor.

Right here in Lumberton there is a woman with three children, the youngest only five weeks old, whose husband deserted her some eight or ten weeks ago, leaving her without means of support for herself and children other than she could earn by her own labor.

It is going to take the world a long time to recover from the bad effects of the refusal of the United States to enter the League of Nations, thus throwing the weight of its tremendous influence upon the side of chaos and all the evils that follow wars.

A popular indoor sport with speakers is telling those who are present and must listen, perforce, because they cannot get away, what those who are absent should do and should not do, and wherein those who are absent have done wrong.

Seven years in the State prison at hard labor is to be the portion of three strikers of Asheville who kidnaped and beat up a man who was exercising the privilege of working. Severe, but richly deserved, and it ought to serve as a wholesome lesson to other misguided men who are tempted to disregard the right of others to labor.

One wonders sometimes why anybody should ever be so superfluous as to write the next to the last line of a hymn. We rise to make the motion that the next to the last line of all hymns be abolished; that is, that no hymn have a next to the last line because it is so seldom sung.

The editorial and regular local pages are shifted from their regular places this time to make room for a double page spread in the center. The accus-

tioned order will be resumed when this temporary arrangement is over.

Joy over the good news of Blessie's defeat in South Carolina is dashed by news of Lodge's victory in Massachusetts.

Common Sense About Eczema and Eruptions!

Here's Something About S. S. S. That You'll Be Glad to Hear.

You might just as well know it right now—the cause of skin eruptions, pimples, blackheads, boils and so on, is right in the blood. There is no getting away from it. Science has proved it. We prove it. You can prove it.

When the cause of skin troubles and eruptions is in the blood, it isn't com-

Let S. S. S. Give You An Angelle Skin! Common sense to simply treat the skin. A bottle of S. S. S. will prove to you what is happening in your blood. S. S. S. is a scientific blood cleanser—it drives out the impurities which cause eczema, fever, rash, pimples, boils, blackheads, blotches and other skin eruptions.

Don't burn coal yet—use Kerosene

James J. Storrow, Fuel Administrator of Massachusetts during the War and special coal consignee during the present coal shortage, has issued a timely warning against drawing on the meagre coal stocks until absolutely necessary.

"Don't burn a pound of coal this month or in October."

"Cook and heat water for your household with a kerosene stove or gas stove. Buy a portable kerosene heater. It is handy. It is cheap. It can be moved easily from room to room. It will save coal and money. It will perhaps keep you out of the coal line next winter."

"Cooking by kerosene stove is cheaper than coal. It is more comfortable during these warm days."

"Kerosene can be bought anywhere. Kerosene stoves and heaters can be bought today at any hardware or probably any house furnishing store or general country store in the state."

The coal shortage is already causing much inconvenience. How much actual suffering and hardship it will cause next winter no one can say. Certainly, the expedient thing to do is to save every bit of coal you now have by cooking and heating with other fuels.
