

Christian Countries Should Intervene in Turkey

United States, France and Great Britain Should Force Turks to Cease Their Massacres. Said Dr. Durham in Sermon Sunday Night—"The Great Commission."

"The United States, France and Great Britain should intervene and use force if necessary to compel the Turks to cease their massacres," said Dr. C. H. Durham, pastor of the First Baptist church, in a sermon Sunday night on conditions in the Near East. Dr. Durham's subject was "The Great Commission". He took his text from several verses in the 28th chapter of Matthew and the 24th chapter of Luke. The following was written by a member of the congregation who was requested by The Robesonian to report this sermon:

Dr. Durham began with Mohammed's early life. He was born in 570 A.D. Trading with the early Christians and Jews in his home town, Mecca, and watching their lives and actions, he soon found, with his discerning eye, that the trading caravans of Jews and early Christians did not possess the religion that he sought. He was an educated man, and knew the laws and religions of his day. Longing for something better, he brought many of the good features into play and began Mohammedism. Two hundred million Moslems espouse his religion today, their motto and religion being, "Make converts, even with the sword". This holy war has been carried on for centuries, and many countries have been captured by this faith.

Turks and people of other countries holding this religion have been saturated with it so fully that they believe Allah will only bless them in proportion to the number of converts they make (usually by force). This accounts for the bloody massacres of Armenia and other smaller countries and nations in this section of the world.

The United States, France and Great Britain should intervene, and if they cannot be entreated, should use force in compelling Turks to cease these massacres. Slavery exists in these countries; no true Christian will hold in subjection slaves; all men are equal. Only 10 per cent of these people are educated; they need Christian teachers, schools, hospitals, doctors and nurses, who can point them to a better life. Even as Moham-

No more Rheumatism

Suffering has gone from your face, mother!

S. S. S. is the Great Builder of Red Blood-Cells and Rheumatism Must Get Just Try It!

"Rheumatism? Me? No, indeed, it's all gone, every bit of it! It's sunshine and joy for me now for the first time in years. I feel a wonderful glory again in the free motion I used to have when my days were younger. I look at my hands and think of the twists and swellings they used to have. I bend way over to the floor. I haven't been able to do that in many years. I can thank S. S. S. for it all! To me it was a rising sun of joy and liberty. Brothers and sisters in misery, do not close your eyes and think that health, free motion and strength are gone from you forever! It is not so. It is here and now for all of you. S. S. S. is waiting to help you. There is a reason why S. S. S. will help you. When you increase the number of your red-blood cells, the entire system undergoes a tremendous change. Everything depends on blood-strength. Blood which is minus sufficient red-cells leads to a long list of troubles. Rheumatism is one of them. S. S. S. is the great blood-cleaner, blood-builder, system strengthener, nerve invigorator. It stops skin eruptions, too, pimples, blackheads, acne, boils, eczema. It builds up run down, tired men and women, beautifies complexions, makes the flesh firmer. Start S. S. S. today. It is sold at all drug stores in two sizes. The larger size bottle is the more economical."

S.S.S. makes you feel like yourself again

med watched and in vain searched for better things in the Jews and early Christians in the caravans, so do the people in this country watch the Christians and follow the example of them. The early Christians lost completely their opportunity to point the way to Mohammed then, and this has caused great misunderstanding and many, many bloody struggles.

ionship, by the score of 17 to 9. The Philadelphia works ran up a big lead at the first of the fray, the first half ending 13 to 7, and during the last half by clever use of the five-man defense kept the margin and emerged victors. Both teams played first-class ball, Arch. McQueen starring for Philadelphia.

TEN REASONS FOR SUPPORTING THE HOME TOWN PAPER.

The Robesonian has recently received from the Division of Publications of the Agricultural Extension Service the following ten reasons for supporting the home-town paper as offered by the Valley Enterprise of Nebraska. It is felt that the county newspapers of North Carolina are rendering a real service to the communities which they serve and that the readers of this paper may gain an idea as to some of the reasons why this claim is made, your attention is invited to the following:

1. Because, when you were born, it was the home paper that introduced you to the world.
2. When you grew up and graduated the home paper gave you another writup.
3. When later on you found your life companion and were happily married, the home paper gave you and yours a nice notice.
4. When sickness and misfortune invaded your home, the sad news was carried to your friends and neighbors by the home paper.
5. When you had been successful in a business venture or had been promoted, it was the home paper that heralded your ability.
6. If you sold out or moved to another location, the home paper followed you with news of friends and neighbors.
7. When some unscrupulous person tried to injure your character it was the home paper that came to your aid.
8. Because the home paper boosts your town and its institutions, its people, its schools, its churches, and helps to promote good fellowship in the community.
9. Because the live merchants offer money-saving bargains and protect you from catch-penny mail order houses.
10. And last, when you are finally laid away, it is the home paper that prints news of your demise, and that extols your virtues so the hearts of those who mourn are made to feel thankful that the home paper stuck by you from the cradle to grave.

Fertilizer, Soda Fish Scrap

We are selling this season Fertilizers and leaving out of our goods dirt and other worthless fillers.

We believe that the public is entitled to know what they are buying, just as much as the buyer is entitled to know the grade and quality of the products produced by the farmers. For this reason we have taken the position which we have regarding fertilizers. We do know the plant food contained in fertilizers, even though they do carry the same analysis, is not the same in cost nor will they give the same results in the production of the crop.

And upon request from those wishing to buy, we will be glad to furnish you our complete formula for both Cotton and Tobacco goods.

Assuring you of our appreciation for any business you might see fit to give us, we are

Respectfully yours

"Go ahead and Plant your cotton AND Leave the Boll weevil To me"

You can raise cotton as though there were no boll-weevil, and keep this pesky insect from getting one boll of your cotton, if you'll just follow my advice.

I'm speaking from experience, not theory, as I raised 604 bales of cotton on 812 acres of land in Burke County, Georgia in 1922, by protecting my cotton with my own boll-weevil poison—Hill's Mixture. I spent thousands of dollars and years of hard labor in perfecting this poison, but have made it back on my increased cotton production in the last two years.

**No Machinery—
No Night Work!**

Not only is my poison the cheapest that you can buy, costing half or less than the dusting method, but it requires no machinery for its application, and can be put on any hour of the day! Simply make a mop out of a stick and a rag, and walk along the row, touching the bud of each plant one time, as you pass by. An inexperienced boy or girl can cover 5 to 6 acres a day.

HILL'S MIXTURE

THE BOLL WEEVIL EXTERMINATOR

Protect Your Cotton at Minimum Cost

The Price of Hill's Mixture is 77c per gallon. Compare this with the dusting method, which is much less effective, more trouble, and more expensive.

Hill's Mixture is composed of three elements; calcium arsenate as a base, molasses as a binder, and a third (secret) element which ATTRACTS THE WEEVIL, and makes him eat it in preference to any part of the cotton plant! This is the only poison that the weevil seeks! The molasses acts as a binder, and is washed away by only the heaviest rains.

Place your order for Hill's Mixture at once with my agent for your territory whose name appears below; price \$38.50 per 50-gal. bbl., freight prepaid in North Carolina, plus \$3.00 for the bbl. Small freight charge to other states. We will refund this to you when the bbl. is returned in good condition.
