OUT SINGLETARY'S WAY

Assembling Material for Sunday School Room—Prayermeeting Sunday Nights—Farmers Busy—Personal.

By David Erastus Lovett. Lumberton, R. 4, April 24.—Farmers around here are very busy now.

Part of the material for the much-needed Sunday school rooms here has been assembled.

An appointment was given out recently for the Rev. D. C. Barnes to preach here Sunday was a week ago.

On account of the burying over at Willoughby's cemetery no Sunday school was held here Sunday.

I have recently learned that the Rev. F. A. Prevatte will preach here at an early date, tho' just when I have forgotten.

Some little mistake was made in a recent writing of Smyrna items, this being about the marriage of Miss Janie Britt and Mr. Ambrose Hays.

Miss Pearl Lovette spent Saturday night and Sunday near Tabernacle.

Mr. and Mrs. K. B. Lamb and Mr. and Mrs. Raymond Lamb were visitors in the home of Mrs. Dollie Thompson Sunday.

Mr. Charlie Williamson has recently purchased a nice young horse for saddling.

Let everybody remember that prayer meeting is held here every Sunday night beginning at 7:30.

All good wishes to the many readers of The Robesonian.

CALCIUM NEEDED FOR STOCK

Cows, Horses and Sheep Must Look to Roughage for Needed Supply—Silage May Answer.

The cow, together with the sheep and horse, must look to its roughage to supply the needed calcium.

LIVE STOCK HINTS

Poor feeding is keeping brood sows on hundreds of farms from paying a profit.

Feed alfalfa hay to brood sows. It pays a greater return in this way than any other.

Damp beds are responsible for pneumonia, bowel trouble and skin diseases among pigs.

The responsibility of animal disease control rests with the veterinary profession, says Dr. R. A. Craig, head of the veterinary department of Purdue university.

A good ration for a sow with pigs is 6 parts corn, 3 parts middlings and 10 parts tankage, when on full feed.

Mixed shipments show a greater number of killed and crippled hogs and a greater shrinkage than straight shipments.

Sunshine prevents the little pig from contracting disease because the sun keeps the pens free from disease germs, cold and dampness, which are most deadly enemies of infant pigs.

A purebred ram is relatively cheap and without one a flock soon degenerates.

The shepherd's problems for the lambing season are very largely solved if he has brought the ewe flock to the beginning of the season in good flesh and thrifty condition.

More attention paid to the sow and her litter at and immediately following the farrowing season will result in a greater number of pigs being saved.

Long Search Is At Last Ended

Tanlac Completely Restored Health After Years of Stomach Trouble, Declares Mrs. J. S. Starnes.

"Tanlac is certainly the ideal treatment for run-down condition," said Mrs. J. S. Starnes, of Kings Mountain, N. C., recently.

"Why, I noticed an improvement every day I took the medicine and I couldn't wish for better health than I'm enjoying now.

"For five years, I had felt weak, nervous and run-down all the time. My appetite was extremely poor and when I did go to the table thinking I could enjoy a little something, the very sight of food nauseated me.

"But I soon realized I had found the right treatment in Tanlac and now I have a good appetite, am gaining weight and feeling as well as I ever did. My nerves have steadied down, too, and I am sleeping soundly every night. Tanlac is the best of them all."

Tanlac is for sale by all good druggists. Accept no substitute. Over 37-million bottles sold.

ANOTHER VERSION OF THE BASEBALL ROW AT ROWLAND.

To the Editor of The Robesonian:

In The Robesonian of Tuesday we see a headline which would lead the public to understand that the Rowland-Lumberton baseball game broke up in a general all-round fight and that our citizens generally were participants.

To correct any erroneous impression I will state that the fighting was confined to the umpire, W. H. McCormick, and Coach Haltiwanger. The parts our citizens took were preventing others of either side mixing in—for example, a five-year-old nephew, and the brother of the umpire and pulling the umpire off the coach when it appeared that the coach had the wind choked out of him.

The ruling made by the umpire was at once questioned by several of our own citizens and when he saw it was against a rule he corrected it, stating at the same time that he was not up-to-date on the rules and would gladly correct any decision where a rule was violated.

The boys of the teams took no part in the hostilities, and had these boys seen fit to finish the game, they would have received the same fair treatment we have always given them. We like these boys, they are good sports, and we believe they like us. I see from this article that Coach Haltiwanger will not let them play here. Our boys will be glad to play them here, on neutral ground, or at Lumberton—but only on condition that Coach Haltiwanger be kept blocked and in the back yard till over his soreness, and has come to realize how much he owes those humane citizens who, in their zeal against cruelty to animals, pulled the "ump" off him before said "ump" loosened up his strange hold and began making over his manly features by the old and new rules.
