Near Serious Automobile Wreck.

Miss Sue Harris Escaped from Mass of Broken Glass and Twisted Frame With Dislocated Collar Bone and Shoulder Blade—J. S. Packer of Bladenboro Under Bond to Appear in Court Friday.

How Miss Sue Harris and brother, Master Eugene, daughter and son of Mr. F. Harris of Wishart township, escaped serious injury Saturday at 2:35 p. m. when the Ford coupe in which they were riding tumbled over on its side as the result of a collision at the corner of Walnut and Fifth streets, one door and its glass being smashed, must remain a mystery. Miss Harris thought she was not injured when she was assisted from the mass of broken glass and twisted wreck, but subsequent examination by Dr. T. C. Johnson revealed the fact that she had suffered a dislocated collar bone and shoulder blade. Eugene was not hurt nor were the occupants of the Cleveland roadster with which the car driven by Miss Harris collided and which was driven by Mr. J. S. Packer, foreman of the Hardaway Construction Co., engaged in work at Bladenboro. Mr. Packer was arrested a few minutes later by Chief of Police Barker and Police- man Ed. Glover and was released under \$200 bond for appearance before the recorder here Friday of this week.

Miss Harris has not yet been able to resume her duties as operator at the local telephone exchange. She was driving south on Walnut and Mr. Packer was driving west on Fifth. Miss Harris says she did not hear the other car blow. Mr. Packer and his two companions say he blew twice. The collision and the crashing fall of Miss Harris' car were heard several blocks away. Mr. Packer's car was turned completely around close to a small tree between sidewalk and curbing on Mr. J. B. Townsend's lot. A bent-up fender seemed to be the extent of its damage. The left door of the coupe was completely torn off, and there were other damages. A crowd gathered immediately, Miss Harris and Eugene were assisted from the wreck, the car was righted, and Mr. Packer, who declined to give his name to a newspaper man, drove off to the National Bank of Lumberton, to which he was hastening to get payroll money. When he came out of the bank a few minutes later he found officers waiting for him. He hesitated at first about giving them his name, but found later that both that and \$200 bond were necessary.

MINERS WILL GO BACK TO WORK.

Agreement Reached Upon a New Two-Year Wage Contract. Harrisburg, Sept. 8 (Associated Press)—Representatives of anthracite operators and miners tonight agreed upon the terms of a proposed new two year wage contract. The union scale committee immediately approved the agreement and fixed September 17 as the date for a tri-district convention at Scranton, at which it will be submitted for certification by the miners. Favorable action by the tri-district convention, union officials said would result in the reopening of the mines closed under suspension orders since September 1, on September 19. The new contract will be signed by representatives of the miners and operators in Harrisburg but the union leaders said it would not be necessary to await the formal signing to resume work.

ITALY ACCEPTS TERMS OF COUNCIL OF AMBASSADORS.

Agrees to Evacuate Corfu When Greece Has Satisfied Demands. Rome, Sept. 8 (Associated Press)—Italy accepts the terms of the council of ambassadors and agrees to evacuate Corfu and adjacent islands when Greece has satisfied all of Italy's demands for reparations. A semi-official statement says the government will consider its demands satisfied as soon as Greece carries out the demands of the council of ambassadors, which are substantially the same as those Italy forwarded to Greece.

Paris, Sept. 8 (Associated Press).—A feeling of relief and optimism is prevailing tonight in official and diplomatic circles which look with satisfaction upon the action of the inter-allied council of ambassadors in the Greco-Italian crisis. After notifying Greece of the terms of the settlement that had been agreed upon by it at yesterday's session, the council met this afternoon to draw up the instructions which will be given to the inquiry commission, to be appointed by it, in its investigation of the assassination of the Italians which brought about the controversy. Thus, all the council's machinery will be ready for prompt action as soon as a reply is received from Greece. All the danger has been taken out of the crisis, officials here are inclined to believe, though it is everywhere recognized that considerable more negotiations would be necessary before the matter is finally settled. But the compliance of Greece is confidently expected.

TEARING DOWN OLD LANDMARKS.

Wooden Buildings on Elm and Fourth Disappearing—Probably Will be Replaced by Handsome Structures. Work of tearing down the wooden building on the lot next to Mr. N. P. Andrews' store on Elm street is practically completed. For the past two years the building has been used for barber shops, pressing clubs, etc., and was by no means a structure of beauty. Mr. K. M. Biggs, owner of the property, has not definitely decided what kind of a building he will erect on the lot, but in all probability he will erect a handsome building at an early date, and will use it for his business, which is now being conducted in the Proctor building on North Elm street. A force of workmen again has started tearing away on East Fourth street the White building, another wooden structure which has been for the past few years an unsightly structure. Mr. A. E. White, owner of the property, has not yet made application for a building permit, and it is not known what he intends erecting on this lot.

FIRST OFFICIAL ANNOUNCEMENT OF KILLED AND INJURED.

Tokio, Sept. 9 (Associated Press).—Twenty-three thousand persons were killed and injured at Yokohama in the earthquake disaster, according to an official announcement. Seventy-one per cent of the city of Tokio was destroyed. In the Hakone district ten thousand are dead. Public markets will be opened in Tokio shortly, it was announced and distribution of refugees will temporarily be carried on by the numerous relief centers. Housing problems, it was announced, will be solved by temporary barracks. Landmarks and points along the Japanese coast have entirely disappeared, and the shore line of Kamakura Bay has been raised, it was stated here today.

PREMIUMS FOR SWINE AND CATTLE AT COUNTY FAIR.

At the Robeson county fair to be held in Lumberton October 9th to 12th, will be seen one of the best displays of swine and cattle ever exhibited in this section. On account of the great damage being done at this time by the boll weevil, hundreds of farmers are going in to the live stock business, and many have bought the best stock that money can buy. Last year the live stock exhibit was better than anything exhibited before. The fair officials are encouraging the farmers by offering some good substantial premiums in this department, and the farmers should bring their best to show others what they are doing. Get a premium list today and see the list of premiums, then do your best to capture them all.

WINGATE JUNIOR COLLEGE HAS BRIGHT OPENING

Throws Open Its Doors for First Time as Junior College—Strong Faculty and Past Record of Thoroughness Draws Large Enrollment.

Wingate, Sept. 7.—The newly-established Wingate Junior college was formally opened to the public Aug. 21st by appropriate exercises in the auditorium of the college. A strong faculty, new physical equipment throughout, college courses, and a past record of usefulness combined to swell the enrollment to 190 during the first week, including 45 in the college department. Rev. J. E. Hoyle and President C. M. Beach are highly gratified at the auspicious opening of the initial session of Wingate Junior college.

The Wingate school as such ceased to be Aug. 21st when the doors of Wingate college were formally opened. Thus ended one bright chapter in the history of the Baptist school located at Wingate, and began a new under circumstances more favorable than the school has ever known before. This opening day marked the entrance of the school into a wider field of service and usefulness, both as to the type of work offered, and also through the nature of the support; for the school was taken over last fall by the Baptist State convention, which authorized its conversion into a standard junior college to serve the people of the State, and especially the Piedmont section of the State.

The opening exercises in the auditorium began at 10 a. m., led by President Beach. A packed house consisting of students, faculty, and friends of the college was inspired by the two thoughtful and eloquent addresses of the morning, delivered by Rev. Robert G. H. of the St. John's Baptist church, Charlotte, and Rev. J. J. Beach, Bishop of South Carolina. But it remained for Rev. J. E. Hoyle, the untiring president of the board of trustees, and college pastor, to grip the audience as he traced step by step the development of the Wingate school into a junior college.

The enrollment of the college this year augurs well for its future. Perhaps there are few colleges that have had such an auspicious opening the first year of the establishment. At the end of the first week, the registration has reached a total of 190, with 45 or more in the college department proper, chiefly in the first year's work, since this is the initial session. The enrollment is expected to exceed the 200 mark before the close of the present week.

Rev. J. E. Hoyle states that the trustees spared nothing in order to get the strongest faculty possible, realizing that the first session would be the most trying and the most testing. The faculty of eleven members is composed of five men and six women, all graduates or post-graduates of standard colleges, and all having had special training in their particular field. Rev. C. M. Beach, M. A., Wake Forest college, 1902, who has been head of the school for a number of years, continues as President of the institution. His co-workers are: Prof. C. C. Burris, B. A., Wake Forest, 1917, department of Latin; Prof. R. L. Poplin, B. A., Wake Forest, 1922, department of Science; Prof. C. E. Lancaster, B. S. Mercer university 1922, department of English and coach of athletics; Prof. W. O. Kelly, M. A., Wake Forest 1923, department of education and higher mathematics; Miss Claude Stephenson, B. A. Chowan college and extensive graduate work, dean of women and dean of music; Miss Rosa Futrell, B. S. Chowan college 1914 and graduate work at Columbia university, department of history; Miss Jessie Allen, B. A. Meredith college 1923, department of French; Miss Jocelyn Cox, graduate of Meredith college in piano and pipe organ, department of piano; Miss Vera Irvin, graduate of piano in N. C. C. W., department of piano; Mrs. C. M. Beach, N. C. C. W., department of H. S. mathematics.

Equipment The Wingate school has not merely changed its name; it has changed its equipment as well, replacing the old with new, in keeping with college needs and college requirements. So the College opens its doors dressed in a new suit as it were, a suit with long trousers, too, if you please. The whole interior of the administration building has been worked over to form standard college class rooms. All the old school desks have been sold and in their place each class room is provided with 30 new classroom chairs. The three dormitories along with the administration building have been overhauled on the inside.

The students and faculty have had little chance to get either lonesome or homesick. Outside of the great amount of detail and routine work connected with the opening of a school session, two receptions were tendered the students and faculty during the first week of school. Thus the year's work is on. Wingate school is no more. In its place

Wingate Junior college is functioning in a larger sphere and to a larger constituency than the Wingate school could possibly do. New conditions required expansion. The Baptists of the State and the trustees of the Wingate school have partially met these conditions in the establishment of the Wingate Junior college. The machinery of this expanded program has been set in motion and the wheels are beginning to hum already. School work has begun for 1923.
